Congress. House. Committee on Ways and Means. Subcommittee on Human Resources,1998 **Wanton Troopers** Ian F. W. Beckett,2016-02-29 The causes of the three English Civil Wars 1642 to 1645 1648 and 1651 are complex and controversial clashes of conviction belief and personality and a struggle between opposing social groups and economic interests But whatever the focus of scholarship many answers can be sought at the local level among county communities that were far more outward looking than once suggested That is why Ian Becketts in depth study of Buckinghamshire one of the pivotal counties during this turbulent period in British history is of such value None of the best known battles or sieges took place in Buckinghamshire but there was destructive combat in the county on a smaller scale because its location placed it on the front line between the opposing forces between the royalist headquarters at Oxford and the parliamentary stronghold of London As Ian Beckett shows the impact of war on Bucks was considerable His analysis gives us an insight into the experience of local communities and the county as a whole and it reveals much about the experience of the conflict across the country

The Blue Book of Major Homebuilders ,1986 Ambassadors of Social Progress Maria Cristina Galmarini,2024-02-15 *Ambassadors of Social Progress* examines the ways in which blind activists from the Soviet Union and Eastern Europe entered the postwar international disability movement and shaped its content and its course Maria Cristina Galmarini shows that the international work of socialist blind activists was defined by the larger politics of the Cold War and in many respects represented a field of competition with the West in which the East could shine Yet her study also reveals that socialist blind politics went beyond propaganda When socialist activists joined the international blind movement they initiated an exchange of experiences that profoundly impacted everyone involved Not only did the international blind movement turn global disability welfare from philanthropy to self advocacy but it also gave East European and Soviet activists a new set of ideas and technologies to improve their own national movements By analyzing the intersection of disability and politics *Ambassadors of Social Progress* enables a deeper bottom up understanding of cultural relations during the Cold War Galmarini significantly contributes to the little studied history of disability in socialist Europe and ultimately shows that disability activism did not start as an import from the West in the post 1989 period but rather had a long and meaningful tradition that was rooted in the socialist system of welfare and needed to be reinvented when this system fell apart
