 United States. Congress. House. Committee on Un-American Activities,1968      **I Freed Myself** David Williams,2014-04-21  
 For a century and a half Abraham Lincoln s signing of the Emancipation Proclamation has been the dominant narrative of  
 African American freedom in the Civil War era However David Williams suggests that this portrayal marginalizes the role  
 that African American slaves played in freeing themselves At the Civil War s outset Lincoln made clear his intent was to save  
 the Union rather than free slaves despite his personal distaste for slavery he claimed no authority to interfere with the  
 institution By the second year of the war though when the Union army was in desperate need of black support former slaves  
 who escaped to Union lines struck a bargain they would fight for the Union only if they were granted their freedom Williams  
 importantly demonstrates that freedom was not simply the absence of slavery but rather a dynamic process enacted by self  
 emancipated African American refugees which compelled Lincoln to modify his war aims and place black freedom at the  
 center of his wartime policies      **Railway News, Finance and Joint-stock Companies' Journal** ,1872      **The Evolution**

*1607-1776* William R. Nester,2017-10-11 America s colonial era began and ended dramatically with the founding of the first  
 enduring settlement at Jamestown on May 14 1607 and the Declaration of Independence in Philadelphia on July 4 1776  
 During those 169 years conflicts were endemic and often overlapping among the colonists between the colonists and the  
 original inhabitants between the colonists and other imperial European peoples and between the colonists and the mother  
 country As conflicts were endemic so too were struggles for power This study reveals the reasons for stages and results of  
 these conflicts The dynamic driving this history are two inseparable transformations as English subjects morphed into

American citizens and the core American cultural values morphed from communitarianism and theocracy into individualism and humanism. These developments in turn were shaped by the changing ways that the colonists governed, made money, waged war, worshipped, thought, wrote, and loved. Extraordinary individuals led that metamorphosis: explorers like John Smith and Daniel Boone; visionaries like John Winthrop and Thomas Jefferson; entrepreneurs like William Phips and John Hancock; dissidents like Rogers Williams and Anne Hutchinson; warriors like Miles Standish and Benjamin Church; free spirits like Thomas Morton and William Byrd; and creative writers like Anne Bradstreet and Robert Rogers. Then there was that quintessential man of America's Enlightenment, Benjamin Franklin. And finally, George Washington, who more than anyone was responsible for winning American independence, when and how it happened.

*Contested Territories* Charles Beatty-Medina, Melissa Rinehart, 2012-09-01

A remarkable multifaceted history, *Contested Territories* examines a region that played an essential role in America's post-revolutionary expansion: the Lower Great Lakes region, once known as the Northwest Territory. As French, English, and finally American settlers moved westward and intersected with Native American communities, the ethnogeography of the region changed drastically, necessitating interactions that were not always peaceful. Using ethnohistorical methodologies, the seven essays presented here explore rapidly changing cultural dynamics in the region and reconstruct in engaging detail the political organization, economy, diplomacy, subsistence methods, religion, and kinship practices in play. With a focus on resistance, changing worldviews, and early forms of self-determination among Native Americans, *Contested Territories* demonstrates the continuous interplay between actor and agency during an important era in American history.
