Erinnern Und Durcharbeiten:

Erinnern Wolfram Mauser, Joachim Pfeiffer, 2004 **Erinnern und Erzählen** Ursula Töller, 1998 **Psychotherapy in the Third Reich** Thomas Blomberg, 2018-04-27 The idea for this book sprang from Geoffrey Cocks curiosity as to what happened in the new dynamic field of psychotherapy in Germany with the advent of Hitler While traditional views merely asserted that the Nazis destroyed the field of psychotherapy in Germany a viewpoint justifiably based on the testimony of those in the field who had emigrated from Germany to escape Nazi persecution Cocks learned that there was more to the story He looked to several interesting shards of evidence that pointed to the possibility that one could reconstruct a history of morally questionable professional developments in German psychotherapy during the Third Reich The evidence included existence of a journal for psychotherapy published continuously from 1928 to 1944 accounts of a psychotherapist who assumed leadership of his colleagues and who was a relative of the powerful Nazi leader Hermann Goring and a strong psychotherapeutic lobby in German medicine that was intellectually impoverished but apparently not destroyed by the expulsion of the prominent and predominantly Jewish psychoanalytic movement Non Jewish psychoanalysts and psychotherapists had in fact pursued their profession under the aegis of the so called Goring Institute with substantial support from agencies of the Nazi party the Reich government the military and private business Much research has been done in the ten years since the first edition of this book was published hence the need for a second edition Included is more information on the history of psychotherapy and psychoanalysis in Nazi Germany on the social history of the Third Reich and on the history of the professions in Germany Three new chapters analyze postwar developments and conflicts as well as broader issues of continuity and discontinuity in the history of modern Germany and the West In addition the author has reorganized the volume along chronological and narrative lines for greater ease of reading Psychotherapy in the Third Reich is an important work for psychotherapists psychologists psychoanalysts sociologists and historians Wirkfaktoren der Psychotherapie Hermann Lang, 2013-03-08 Ziel dieses Buches ist es eine Antwort auf die Frage zu geben was das eigentlich wirksame Agens in der Psychotherapie ist Die Diskussion zentriert sich aus unterschiedlichster Warte hermeneutisch empirisch statistisch psychoanalytisch anthropologisch daseinsanalytisch verhaltenstherapeutisch systemisch auf die therapeutischen Hauptmodelle mit entsprechenden Beispielen und auf die Therapie bestimmter Krankheitsbilder In dem Buch wird keine eindeutige Schulmeinung wiedergegeben sondern die noch junge Wissenschaft der Psychotherapie vielstimmig vorgestellt **On Freud's "Remembering, Repeating and Working-Through"** Udo Hock, Dominique Scarfone, 2024-04-22 In On Freud's Remembering Repeating and Working Through international contributors from a range of psychoanalytic backgrounds reflect on this key 1914 paper Each chapter considers an aspect of Freud's original work addressing both the theoretical and clinical dimensions of the paper and incorporating contemporary perspectives Bringing out all three aspects of the paper's title the contributors consider the issues raised by the so called change in psychoanalytic

paradigm from the classic central concern of remembering to a clinical experience which prioritises enactment and repetition. The reflections on this important paper demonstrate how it goes beyond technique to open new vistas on the conception of psychoanalysis as a whole. On Freud's Remembering, Repeating and Working Through will be essential reading for psychoanalysts and psychoanalytic psychotherapists in practice and in training. It will also be of interest to readers seeking a deeper understanding of current Freudian thinking.

Freud's Papers on Technique and Contemporary Clinical Practice Lawrence Friedman, 2018-07-11. Freud's Papers on Technique is usually treated as an assemblage of papers featuring a few dated rules of conduct that are either useful in some way or merely customary or bullying, arbitrary and presumptuous. Lawrence Friedman reveals Papers on Technique to be nothing of the sort. Freud's book, he argues, is nothing less than a single consecutive real-time log of Freud's painful discovery of a unique mind set that can be produced in patients by a certain stance of the analyst. What people refer to as the rules, such as anonymity, neutrality and abstinence, are the lessons Freud learned from painful experience when he tried to reproduce the new free mind set. Friedman argues that one can see Freud making this empirical discovery gradually over the sequence of papers. He argues that we cannot understand the famous images, such as the analyst as surgeon or mirror, without seeing how they figure in this series of experiments. Many of the arguments in the profession turn out to be unnecessary once this is grasped. Freud's book is not a book of rules but a description of what happens if one does one thing or another; the choice is the therapist's as is the choice to use them together to elicit the analytic experience. In the light of this understanding, Friedman discusses aspects of treatments that are guided by these principles, such as enactment, the frame, what lies beyond interpretation, the kind of tensions that are set up between analyst and patient, the question of special analytic love, the future of analytic technique and a possible basis for defining Freudian psychoanalysis. Finally, he makes concrete suggestions for teaching the Papers on Technique. Freud's Papers on Technique and Contemporary Clinical Practice will appeal to all psychoanalysts and psychoanalytic psychotherapists concerned about the empirical basis of their customary procedures and the future of their craft.

Erinnern und Durcharbeiten Regine Locket, 1985. A history of psychoanalysis and psychotherapy under the Nazi regime. Challenges the common thesis regarding the liquidation of this profession by the Nazis. Although Jewish psychoanalysts were forced to stop their practice and many had to leave Germany, the psychoanalytical institutions continued to function.

The German Democratic Republic has become the subject of novels, memoirs and films and the backdrop for general debates over the power of intellectuals in contemporary media and society. This collection considers the demise of the GDR and its impact on the place of intellectuals.

Tiefenpsychologie für Dummies Timo Storck, 2024-04-16. Ab auf die Couch. Wollten Sie schon immer mal wissen, was es eigentlich mit der berühmten psychoanalytischen Couch auf sich hat? Ob sich bei Freud alles nur um Sex dreht? Und was hinter Verdrängung

Traumdeutung und der vielzitierten Freud'schen Fehlleistung steckt. Dieses Buch erklärt wie aus der Psychoanalyse zwei der bis heute am häufigsten eingesetzten Therapieverfahren entstanden sind. Sie erfahren wie eine psychodynamische Therapie abläuft wie sie wirkt und für wen sie überhaupt in Frage kommt. Was sich in den verborgenen Winkeln des Unbewussten befindet kann höchst spannend sein. Sie erfahren was analytische Psychotherapie und tiefenpsychologisch fundierte Psychotherapie unterscheidet. Welche Bedeutung die Psychoanalyse in Kultur und Politik spielt. Welche psychischen Störungen es gibt und wie die Psychoanalyse sie versteht.

Eranos Hans Thomas Hakl, 2014-09-11 Every year since 1933 many of the world's leading intellectuals have met on Lake Maggiore to discuss the latest developments in philosophy history art and science and in particular to explore the mystical and symbolic in religion. The Eranos Meetings named after the Greek word for a banquet where the guests bring the food constitute one of the most important gatherings of scholars in the twentieth century. The book presents a set of portraits of some of the century's most influential thinkers all participants at Eranos: Carl Jung Erich Neumann von Hummelauer Mircea Eliade Martin Buber Walter Otto Paul Tillich Gershom Scholem Herbert Read Joseph Campbell Erwin Schrodinger Karl Kerényi D.T. Suzuki and Adolph Portmann. The volume presents a critical appraisal of the views of these men how the exchange of ideas encouraged by Eranos influenced each and examines the attraction of these esotericists towards authoritarian politics.

Futurity Amir Eshel, 2024-05-31 When looking at how trauma is represented in literature and the arts we tend to focus on the weight of the past. In this book Amir Eshel suggests that this retrospective gaze has trapped us in a search for reason in the madness of the twentieth century's catastrophes at the expense of literature's prospective vision. Considering several key literary works Eshel argues in *Futurity* that by grappling with watershed events of modernity these works display a future-centric engagement with the past that opens up the present to new political cultural and ethical possibilities what he calls futurity. Bringing together postwar German Israeli and Anglo American literature Eshel traces a shared trajectory of futurity in world literature. He begins by examining German works of fiction and the debates they spurred over the future character of Germany's public sphere. Turning to literary works by Jewish Israeli writers as they revisit Israel's political birth he shows how these stories inspired a powerful reconsideration of Israel's identity. Eshel then discusses post-1989 literature from Ian McEwan's *Black Dogs* to J.M. Coetzee's *Diary of a Bad Year* revealing how these books turn to events like World War II and the Iraq War not simply to make sense of the past but to contemplate the political and intellectual horizon that emerged after 1989. Bringing to light

how reflections on the past create tools for the future Futurity reminds us of the numerous possibilities literature holds for grappling with the challenges of both today and tomorrow

Verdrängen und Erinnern im Theater Denis Heuring, 2023-07-03 Kennzeichnend für den Postfranquismus war eine erinnerungskulturelle Paradoxie die sich durch das politisch institutionelle Verdrängen des für die Menschen Unvergesslichen auszeichnete Der Übergang zwischen Diktatur und Demokratie charakterisierte sich durch eine offizielle Rhetorik des Neuanfangs des Konsenses und der Versöhnung die Erinnerungen an Bürgerkrieg und franquistische Repression als Gefahr für die politische Konsolidierung Spaniens betrachtete und traumatischen Erfahrungen kaum diskursiven Raum gewährte Die Studie untersucht inwiefern diese Diskrepanz zwischen gemachter Erfahrung und unerfüllter memorialer Erwartung strukturgebend auf das Werk der Theatermacher Jos Sanchis Sinisterra Jos Luis Alonso de Santos und Ignacio Amestoy efiguriert Diese gehörten zu einer Gruppe von Dramatikern die den Franquismus erlebten und sich nach dem Tod Francos in der Rolle der Neuerer der spanischen Bühne wiederfanden In ihren Dramen und Inszenierungen reagierten sie auf den pacto de silencio Dabei changierten sie zwischen der mimetischen Darstellung von Vergangenem und performativen Akten des gemeinsamen Erinnerns um erinnerungskulturelle Leerstellen abzubilden und
