The Musical Legacy of Wartime France Leslie A. Sprout, 2013-06-24 For the three forces competing for political authority in France during World War II music became the site of a cultural battle that reflected the war itself German occupying authorities promoted German music at the expense of French while the Vichy administration pursued projects of national renewal through culture Meanwhile Resistance networks gradually formed to combat German propaganda while eyeing Vichy's efforts with suspicion In *The Musical Legacy of Wartime France* Leslie A Sprout explores how each of these forces influenced the composition performance and reception of five well known works the secret Resistance songs of Francis Poulenc and those of Arthur Honegger Olivier Messiaen's Quartet for the End of Time composed in a German prisoner of war camp Maurice Duruflé's Requiem one of sixty five pieces commissioned by Vichy between 1940 and 1944 and Igor Stravinsky's *Dances concertantes* which was met at its 1945 Paris premiere with protests that prefigured the aesthetic debates of the early Cold War Sprout examines not only how these pieces were created and disseminated during and just after the war but also how and why we still associate these pieces with the stories we tell in textbooks program notes liner notes historical monographs and biographies about music France and World War II La pensée militaire prussienne Jean-Jacques

Concert and Opera Conductors Robert H. Cowden, 1987-08-19 Filling an important gap in scholarship Professor Cowden's new bibliography provides complete and authoritative information on major conductors of permanent orchestral ensembles since the time of von Weber and Berlioz Cowden has selected 1 249 conductors on the basis of citations in standard music references biographical studies autobiographies and contributions to the pedagogy of conducting Publications in English and several European languages are cited The first section Collective Works gives detailed information on titles devoted to concert and opera conductors and related titles containing additional material on conductors and conducting The section on individual conductors is arranged alphabetically by artist Further sources and references are offered in appendixes and an index of authors is included **Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971** New York Public Library. Research Libraries, 1979 *Paris Blues* Andy Fry, 2014-07-04 The Jazz Age The phrase conjures images of Louis Armstrong holding court at the Sunset Cafe in Chicago Duke Ellington dazzling crowds at the Cotton Club in Harlem and star singers like Bessie Smith and Ma Rainey But the Jazz Age was every bit as much of a Paris phenomenon as it was a Chicago and New York scene In *Paris Blues* Andy Fry provides an alternative history of African American music and musicians in France one that looks beyond familiar personalities and well rehearsed stories He pinpoints key issues of race and nation in France's complicated jazz history from the 1920s through the 1950s While he deals with many of the traditional icons such as Josephine Baker Django Reinhardt and Sidney Bechet among others what he asks is how they came to be so iconic and what their stories hide as well as what they preserve Fry focuses throughout on early jazz and swing but includes its re-creation reinvention in the 1950s Along the way he pays tribute to forgotten traditions such as black musical theater white show bands and French wartime swing *Paris Blues* provides a nuanced account of the French reception of African Americans and their music and contributes greatly to a growing literature on jazz race and nation in France *Jazz Diasporas* Rashida Braggs, 2016-01-26 At the close of the Second World War waves of African American

musicians migrated to Paris eager to thrive in its reinvigorated jazz scene Jazz Diasporas challenges the notion that Paris was a color blind paradise for African Americans On the contrary musicians and African American artists based in Europe like writer and social critic James Baldwin adopted a variety of strategies to cope with the cultural and social assumptions that greeted them throughout their careers in Paris particularly in light of the cultural struggles over race and identity that gripped France as colonial conflicts like the Algerian War escalated Through case studies of prominent musicians and thoughtful analysis of personal interviews music film and literature Rashida K Braggs investigates the impact of this post war musical migration Examining a number of players in the jazz scene including Sidney Bechet Inez Cavanaugh and Kenny Clarke Braggs identifies how they performed both as musicians and as African Americans The collaborations that they and other African Americans created with French musicians and critics complicated racial and cultural understandings of who could play and represent authentic jazz Their role in French society challenged their American identity and illusions of France as a racial safe haven In this post war era of collapsing nations and empires African American jazz players and their French counterparts destabilized set notions of identity Sliding in and out of black and white and American and French identities they created collaborative spaces for mobile and mobilized musical identities what Braggs terms jazz diasporas
