

Nihilism

'The belief that nothing has any value, especially that religious and moral principles have no value'

-Oxford advanced learners dictionary

'Complete rejection of the existence of human knowledge and values or denial of the possibility of making any useful distinctions among things.'

-www.philosophypages.com

'nihilism represents an attitude of total skepticism regarding objective truth claims.'

-Stan Grenz

A total rejection of life

When we speak of rejection of life, we are not talking about a refusal to social norms such as 'drugs are bad' or 'don't speed' . We speak of nihilism as a complete dismissal of everything; from the consequence of our actions to the way a colour may have a meaning. Everything thing that we see, touch, smell, hold is irrelevant and thus nothing actually matters but freedom.

A world in which we have no morals; no objects; no ideological ideals; nothing at all.

Luft, 2011-04-15 Although we usually think of the intellectual legacy of twentieth century Vienna as synonymous with Sigmund Freud and his psychoanalytic theories other prominent writers from Vienna were also radically reconceiving sexuality and gender In this probing new study David Luft recovers the work of three such writers Otto Weininger Robert Musil and Heimito von Doderer His account emphasizes the distinctive intellectual world of liberal Vienna especially the impact of Schopenhauer and Nietzsche in this highly scientific intellectual world According to Luft Otto Weininger viewed human beings as bisexual and applied this theme to issues of creativity and morality Robert Musil developed a creative ethics that was closely related to his open flexible view of sexuality and gender And Heimito von Doderer portrayed his own sexual obsessions as a way of understanding the power of total ideologies including his own attraction to National Socialism For Luft the significance of these three writers lies in their understandings of eros and inwardness and in the roles that both play in ethical experience and the formation of meaningful relations to the world a process that continues to engage artists writers and thinkers today Eros and Inwardness in Vienna will profoundly reshape our understanding of Vienna s intellectual history It will be important for anyone interested in Austrian or German history literature or philosophy Philosophy and Archaic Experience John Sallis, 1982 Catalog of Copyright Entries, Third Series Library of Congress. moral standards in a world increasingly characterised by nihilism On the one hand there is widespread anxiety that standards are falling on the other new machinery of accountability and inspection to show that they are not The authors in this book state that we cannot avoid nihilism if we are simply laissez faire about values neither can we reduce them to standards of performance nor must we return to traditional values They state that we need to create a new set of values based on a critical assessment of contemporary practice in the light of a number of philosophical texts that address the question of nihilism including the work of Nietzsche Books and Pamphlets, Including Serials and Contributions to Periodicals Library of Congress.
