Erotic Margin:

The Erotic Margin Irvin C. Schick, 2020-05-05 Gender and sexuality have long held an important place in western attitudes towards the people and regions of the world from the titillating accounts of harem life in the Middle East to terrifying captivity narratives of North America The Erotic Margin is a first attempt to pull together the large disparate and often contradictory literature and view it as a corpus Schick argues that such images served to construct spatial difference and thereby helped Europe represent its own place in the world during an age of rapid geographical expansion Informed by the recent literature on human geography as well as feminist and postcolonial theory The Erotic Margin focuses on erotica and sexual anthropology as well as travel literature in which from the eighteenth century on both traveler and destination were portrayed in unmistakably gendered and sexualized terms Reviewing examples ranging from the New World to India the Near East to black Africa and the South sea islands to the Barbary Coast the book reflects on why foreign women were variously portrayed as alluring or threatening foreign men as effeminate weaklings or dangerous rapists and foreign lands as sexual idylls or hearts of darkness Ethnopornography Pete Sigal, Zeb Tortorici, Neil L. Whitehead, 2019-12-13 With topics that span the sixteenth century to the present in Latin America the United States Australia the Middle East and West Africa the contributors show how ethnopornography the eroticized observation of the Other for supposedly scientific or academic purposes is fundamental to the creation of race colonialism and archival and ethnographic knowledge **The Age of Beloveds** Walter G. Andrews, Mehmet Kalpakli, 2005-01-13 Examines the golden age of the culture of the Ottoman empire in the 16th century exploring sexuality gender and literary society as well as the demographics economics politics society of love and other cultural productions of the Ottoman **Sex and Desire in Muslim Cultures** Ayman Kreil, Lucia Sorbera, Serena Tolino, 2020-12-10 What have different ideas about sex and gender meant for people throughout the history of the Middle East and North Africa This book traces sex and desire in Muslim cultures through a collection of chapters that span the 9th to 21st centuries Looking at spaces and periods where sexual norms and the categories underpinning them emerge out of multiple subjectivities the book shows how people constantly negotiate the formulation of norms their boundaries and their subversion It demonstrates that the cultural and political meanings of sexualities in Muslim cultures as elsewhere emerge from very specific social and historical contexts The first part of the book examines how people constructed discussed and challenged sexual norms from the Abbasid to the Ottoman period The second part looks at literary and cinematic Arab cultural production as a site for the construction and transgression of gender norms The third part builds on feminist historiography and social anthropology to question simplistic dichotomies and binaries Each of the contributions shows how understanding of sexualities and the subjectivities that evolve from them are rooted in the mutually constitutive relationships between gender and political power In identifying the plurality of discourses on desires the book goes beyond the dichotomy of norm and transgression to glimpse what different sexual norms have meant at different times across the

The Limits of Westernization Perin

E. Gürel, 2017-05-30 In a 2001 poll Turks ranked the United States highest when asked Which country is Turkey's best friend in international relations When the pollsters reversed the question Which country is Turkey's number one enemy in international relations the United States came in second How did Turkey's citizens come to hold such opposing views simultaneously In *The Limits of Westernization* Perin E. Gürel explains this unique split and its echoes in contemporary U.S. Turkey relations Using Turkish and English sources Gürel maps the reaction of Turks to the rise of the United States as a world ordering power in the twentieth century As Turkey transitioned from an empire to a nation state the country's ruling elite projected westernization as a necessary and desirable force but also feared its cultural damage Turkish stock figures and figures of speech represented America both as a good model for selective westernization and as a dangerous source of degeneration At the same time U.S. policy makers imagined Turkey from within their own civilization templates first as the main figure of Oriental barbarism i.e. the terrible Turk then during the Cold War as good pupils of modernization theory As the Cold War transitioned to the War on Terror Turks rebelled against the new U.S. made trope of the moderate Muslim Local artifacts of westernization folk culture crossed with American cultural exports and alternate projections of modernity became tinder for both Turkish anti-Americanism and resistance to state led modernization projects *The Limits of Westernization* analyzes the complex local uses of the West to explain how the United States could become both the best and the worst in the Turkish political imagination Gürel traces how ideas about westernization and America have influenced national history writing and policy making as well as everyday affects and identities Foregrounding shifting tropes about and from Turkey a regional power that continues to dominate American visions for the modernization of the Middle East Gürel also illuminates the transnational development of powerful political tropes from the Terrible Turk to the Islamic Terrorist

Domesticity and Consumer Culture in Iran Pamela Karimi, 2013-05-29 Examining Iran's recent history through the double lens of domesticity and consumer culture *Domesticity and Consumer Culture in Iran* demonstrates that a significant component of the modernization process in Iran advanced beyond political and public spheres On the cusp of Iran's entry into modernity the rules and tenets that had traditionally defined the Iranian home began to vanish and the influx of new household goods gradually led to the substantial physical expansion of the domestic milieu Subsequently architects designers and commercial advertisers shifted their attention from commercial and public architecture to the new home and its contents *Domesticity and consumer culture* also became topics of interest among politicians Shiite religious scholars and the Left who communicated their respective views via the popular media and numerous other means In the interim ordinary Iranian families who were capable of selectively appropriating aspects of their immediate surroundings demonstrated their resistance toward the officially sanctioned transformations Through analyzing a series of case studies that elucidate such phenomena and appraising a wide range of objects and archival documents from furnishings appliances architectural blueprints and maps to photographs films TV series novels artworks scrapbooks work logs personal letters and reports this book highlights the

Sexed Up Julia Serano,2022-05-17 The author of landmark manifesto Whipping Girl exposes the violent ways we are all sexualized then offers a bold path for resistance Feminists have long challenged the ways in which men tend to sexualize women But pioneering activist biologist and trans woman Julia Serano argues that sexualization is a far more pervasive problem as it s something that we all do to other people often without being aware of it Why do we perceive men as sexual predators and women as sexual objects Why are LGBTQ people stereotyped as being sexually indiscriminate and deceptive Why are people of color still being hypersexualized These stereotypes push minorities farther into the margins and even the privileged are policed from transgressing lest they also become targets Many view sexualization as a mere component of sexism racism or queerphobia but Serano argues that liberation from sexual violence comes through collectively confronting sexualization itself

Disembodying Narrative Jeremiah Cataldo,2023-11-21 Long believed to bear witness to the beginning of all life the Bible s first book Genesis has been plumbed by a cornucopia of theologies and philosophies for ideas about social organization human relationships class gender and gender roles marriage land rights private property and so much more For many readers assumptions about a divine creator whose eye is cast upon a favored community are at the heart of Western societies and politics and reside at the core of many national foundation myths Yet despite all this Genesis is not a frequent subject of postcolonial analyses seeking to expose the rootedness of inequalities within dominant social political and economic institutions At times provocative at others conciliatory Jeremiah Cataldo explores how postcolonialism s rudeness anger and subversiveness are challenges to dominant traditions of interpreting Genesis and how those traditions influence who we are how we relate to each other how we read the Bible and why despite an increasingly globalized and interconnected world we passionately cling to what divides us
