Erotic Women 2:

Erotic Performance and Spectatorship Katy Pilcher, 2016-11-10 Erotic dance is one of the most contentious issues in feminist debates today and a source of fascination in media and popular cultural representations Yet why is it that we currently know so little about those who perform erotic dance for female customers or the experiences of these spectators themselves The result of a unique investigation within two of the UK's leisure venues *Erotic Performance and Spectatorship* seeks to rectify the aforementioned lack of insight Through vivid ethnographies of a lesbian leisure venue and a male strip show Pilcher's research advances key debates about the gender and sexual politics of erotic dance whilst simultaneously relating these to debates about the sex industry more widely This book also subverts previous assumptions that only women perform erotic dance and only men spectate Thus this book stands out amongst other academic accounts developing the debate beyond the established focus on erotic dance as either empowering or degrading This new contribution to the study of erotic dance which provides a fresh theoretical perspective combining queer and feminist theorising in addition to rich empirical evidence will appeal to academic researchers and both undergraduate and postgraduate students within the fields of sociology gender studies sexuality studies gay lesbian studies feminism and other neighbouring disciplines It will also be of interest to feminist and sex work activists policy makers and practitioners **The Emerging Lesbian** Tze-Lan D.

Sang, 2003-01-15 In early twentieth century China age old traditions of homosocial and homoerotic relationships between women suddenly became an issue of widespread public concern Discussed formerly in terms of friendship and sisterhood these relationships came to be associated with feminism on the one hand and psychobiological perversion on the other a radical shift whose origins have long been unclear In this first ever book length study of Chinese lesbians Tze lan D Sang convincingly ties the debate over female same sex love in China to the emergence of Chinese modernity As women's participation in social economic and political affairs grew Sang argues so too did the societal significance of their romantic and sexual relations Focusing especially on literature by or about women preferring women Sang traces the history of female same sex relations in China from the late imperial period 1600 1911 through the Republican era 1912 1949 She ends by examining the reemergence of public debate on lesbians in China after Mao and in Taiwan after martial law including the important roles played by globalization and identity politics *Lesbian Sex Scandals* Dawn Atkins, 1999 *Lesbian Sex Scandals* addresses the contradictory separation of lesbian sexuality from lesbian identity Readers will gain unique insight into the blending of feminism and lesbianism and see how it has sometimes failed in acknowledging the reality of lesbian sexual experiences As the contributors to this collection document sexual practices are often at the core of lesbian sexual identities communities and politics but are usually down played when exploring lesbian identity The contributors to *Lesbian Sex Scandals* address important real issues of sexual practice and sexual politics They explore important experiences questions and directions concerning lesbian sexuality giving you keen insight into the possibility for renewed lesbian

Infertility Robin E. Jensen,2016-09-29 This book explores the arguments appeals and narratives that have defined the meaning of infertility in the modern history of the United States and Europe Throughout the last century the inability of women to conceive children has been explained by discrepant views that women are individually culpable for their own reproductive health problems or that they require the intervention of medical experts to correct abnormalities Using doctor patient correspondence oral histories and contemporaneous popular and scientific news coverage Robin Jensen parses the often thin rhetorical divide between moralization and medicalization revealing how dominating explanations for infertility have emerged from seemingly competing narratives Her longitudinal account illustrates the ways in which old arguments and appeals do not disappear in the light of new information but instead reemerge at subsequent often seemingly disconnected moments to combine and contend with new assertions Tracing the transformation of language surrounding infertility from barrenness to in fertility this rhetorical analysis both explicates how language was and is used to establish the concept of infertility and shows the implications these rhetorical constructions continue to have for individuals and the societies in which they live

 Reflections on L A Myth, Ritual, and the Warrior in Roman and Indo-European Antiquity Roger D. Woodard, 2013-01-28
 This book examines the figure of the returning warrior as depicted in the myths of several ancient and medieval Indo
 European cultures In these cultures the returning warrior was often portrayed as a figure rendered dysfunctionally
 destructive or isolationist by the horrors of combat This mythic portrayal of the returned warrior is consistent with modern
 studies of similar behavior among soldiers returning from war Roger Woodard s research identifies a common origin of these
 myths in the ancestral proto Indo European culture in which rites were enacted to enable warriors to reintegrate themselves
 as functional members of society He also compares the Italic Indo Iranian and Celtic mythic traditions surrounding the
 warrior paying particular attention to Roman myth and ritual notably to the etiologies and rites of the July festivals of the
 Poplifugia and Nonae Caprotinae and to the October rites of the Sororium Tigillum **Official Gazette of the United**
