*The Jewish Persona in the European Imagination* Leonid Livak, 2010-09-10 This book proposes that the idea of the Jews in European cultures has little to do with actual Jews but rather is derived from the conception of Jews as Christianity's paradigmatic Other eternally reenacting their morally ambiguous New Testament role as the Christ bearing and killing chosen people of God Through new readings of canonical Russian literary texts by Gogol Turgenev Chekhov Babel and others the author argues that these European writers Christian secular and Jewish based their representation of Jews on the Christian exegetical tradition of anti Judaism Indeed Livak disputes the classification of some Jewish writers as belonging to Jewish literature arguing that such an approach obscures these writers debt to European literary traditions and their ambivalence about their Jewishness This work seeks to move the study of Russian literature and Russian Jewish literature in particular down a new path It will stir up controversy around Christian Jewish cultural interaction the representation of otherness in European arts and folklore modern Jewish experience and Russian literature and culture

**The Homoerotics of Orientalism** Joseph A. Boone, 2014-03-25 One of the largely untold stories of Orientalism is the degree to which the Middle East has been associated with deviant male homosexuality by scores of Western travelers historians writers and artists for well over four hundred years And this story stands to shatter our preconceptions of Orientalism To illuminate why and how the Islamicate world became the locus for such fantasies and desires Boone deploys a supple mode of analysis that reveals how the cultural exchanges between Middle East and West have always been reciprocal and often mutual amatory as well as bellicose Whether examining European accounts of Istanbul and Egypt as hotbeds of forbidden desire juxtaposing Ottoman homoerotic genres and their European imitators or unlocking the homoerotic encoding in Persian miniatures and Orientalist paintings this remarkable study models an ethics of crosscultural reading that exposes with nuance and economy the crucial role played by the homoerotics of Orientalism in shaping the world as we know it today A contribution to studies in visual culture as well as literary and social history *The Homoerotics of Orientalism* draws on primary sources ranging from untranslated Middle Eastern manuscripts and European belles lettres to miniature paintings and photographic erotica that are presented here for the first time

The Abyss Niall Ferguson,2012-10-23 Excerpted from Niall Ferguson s sprawling bestseller The War of the World The Abyss now stands on its own as one of the most thrilling short histories of World War I ever written This is not a conventional military history about battles and generals Rather The Abyss examines how World War I saw the birth of total war fought between societies as much as armies and must therefore be understood in terms of the financial crises it unleashed the multinational empires it destroyed and the hateful ideas it propagated The most remarkable thing about the war Ferguson shows us is how shockingly unexpected it was At a time when economic integration and technology seemed to be rendering war between great powers impossible World War I was the moment when that process went into reverse and the lethal forces of ethnic disintegration took over Now on the cusp of the 100th anniversary of its outbreak we can see World War I as much more than just four years of industrialized slaughter Weaving together the economics of empire and the ideology of race and featuring an original preface by the author as well a teaser from his new paperback Civilization The Abyss is world history at its finest
