Black Women Playwrights Carol P. Marsh-Lockett,2015-12-22 This collection of critical essays on plays by African American female playwrights from the post reconstruction period to the present provides thematic analyses of plays by major and less widely known African American women playwrights The contributors examine the plays as vehicles of public discourse and as explorations of issues of African American identity Essays explore the themes of sexuality agency anger and self concept in the plays of African American Women *The Multi-Orgasmic Woman* Mantak Chia,Rachel Carlton Abrams,2006-08-08 A holistic guide to female sexuality integrates the latest in Western medical research with the wisdom of the East to explain how any woman can enhance her pleasure in lovemaking and reach her full sexual potential Reprint 20 000 first printing **At Home with Pornography** Jane Juffer,1998-07-01 Twenty five years after the start of the feminist sex wars pornography remains a flashpoint issue with feminists locked in a familiar argument Are women victims or agents In *At Home with Pornography* Jane Juffer exposes the fruitlessness of this debate and suggests that it has prevented us from realizing women s changing relationship to erotica and porn Over the course of these same twenty five years there has been

a proliferation of sexually explicit materials geared toward women made available in increasingly mainstream venues In asking what is the relationship of women to pornography Juffer maintains that we need to stop obsessing over pornography's transgressive aspects and start focusing on the place of porn and erotica in women's everyday lives Where she asks do women routinely find it for how much and how is it circulated and consumed within the home How is this circulation and consumption shaped by the different marketing categories that attempt to distinguish erotica from porn such as women's literary erotica and sexual self help videos for couples At Home with Pornography responds to these questions by viewing women's erotica within the context of governmental regulation that attempts to counterpose a dangerous pornography with the sanctity of the home Juffer explores how women's consumption of erotica and porn for their own pleasure can be empowering while still acting to reinforce conservative ideals She shows how for instance the Victoria's Secret catalog is able to function as a kind of pornography whose circulation is facilitated both by its reliance on Victorian themes of secrecy and privacy and on its appeals to the selfish pleasures of modern career women In her pursuit to understand what women like and how they get it Juffer delves into adult cable channels erotic literary anthologies sex therapy guides cyberporn masturbation and sex toys showing the varying degrees to which these materials have been domesticated for home consumption Representing the next generation of scholarship on pornography At Home with Pornography will transform our understanding of women's everyday sexuality

The Lever of Riches Joel Mokyr, 1992-04-09 In a world of supercomputers genetic engineering and fiber optics technological creativity is ever more the key to economic success But why are some nations more creative than others and why do some highly innovative societies such as ancient China or Britain in the industrial revolution pass into stagnation Beginning with a fascinating concise history of technological progress Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome What emerges from this survey is often surprising the classical world for instance was largely barren of new technology the relatively backward society of medieval Europe bristled with inventions and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution What were the causes of technological creativity Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas He discusses a long list of such factors showing how they interact to help or hinder a nation's creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution He examines such aspects as the role of the state the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned large ocean going vessels the impact of science as well as religion politics and even nutrition He questions the importance of such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs Today an ever greater

number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity The Lever of Riches with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential *Free Within Ourselves* Jewell Parker Rhodes,2010-03-31 A Bird by Bird for the African American market A top notch writer s guide filled with practical guidance essays and journal exercises for the African American writer including advice from E Lynn Harris Charles Johnson and Yolanda Joe In her introduction Jewell Parker Rhodes writes Never in four years of college or five years of graduate school was I assigned an exercise or given a story example that included a person of color While the educational system and the publishing world have become progressively more welcoming of African American authors there is still little attention to educating supporting and sustaining the writing process of African American authors Free Within Ourselves is a solid first step it is the book I wished I had when I started out as a writer It is meant to be a song of encouragement for African American artists and visionaries Free Within Ourselves is a step by step introduction to fictional technique exploring story ideas and charting one s progress as well as a resource guide for publishing fiction For the legions of people who have a novel stuck in their word processors help is finally on the way Free Within Ourselves is an excellent guide to all the elements necessary to crafting fiction character development point of view plot atmosphere dialogue diction sentence variety and revision Writing techniques are taught using exercises journaling story examples and analyses of famous writing fragments as well as several complete stories including those of James Baldwin Zora Neale Hurston and Edwidge Danticat among others The book is further enhanced by inspirational advice from successful contemporary black writers such as Bebe Moore Campbell Rita Dove Henry Louis Gates John Edgar Wideman and others a bibliography and a guide to workshops journals magazines contests and fellowships supportive of black arts [Sexuality and the Sacred, Second Edition](#) Marvin M. Ellison,Kelly Brown Douglas,2010-09-21 Christian discourse on sexuality spirituality and ethics has continued to evolve since this book s first edition was published in 1994 This updated and expanded anthology featuring more than thirty contemporary essays includes more theologians and ethicists of color and addresses issues such as the intersection of race racism and sexuality transgender identity same sex marriage and reproductive health and justice **Moving Beyond Boundaries (Vol. 2)** Carole Boyce-Davies,Molara Ogundipe-Leslie,1995-04 V 1 International dimensions of Black women s writing [Marginality in the Urban Center](#) Peary Brug,Zachary S. Ritter,Kenneth R. Roth,2018-12-22 This book examines the increasing marginalization of and response by people living in urban areas throughout the Western Hemisphere and both the local and global implications of continued colonial racial hierarchies and the often dire consequences they have for people perceived as different However in the aftermath of recent U S elections whiteness also seems to embody strictures on religion ethnicity country of origin and almost any other personal characteristic deemed suspect at the moment For that reason gender race and even class

collectively may not be sufficient units of analysis to study the marginalizing mechanisms of the urban center The authors interrogate the social and institutional structures that facilitate the disenfranchisement or downward trajectory of groups and their potential or subsequent lack of access to mainstream rewards The book also seeks to highlight examples where marginalized groups have found ways to assert their equality No recent texts have attempted to connect the mechanisms of marginality across geographical and political boundaries within the Western Hemisphere
