Spariosu,1994-09-08 This interdisciplinary study explores the relationship between play and mimesis in the constitution and dissolution of the individual and social self The volume is divided into three sections the first of which focuses on the mimetic ludic foundations of mind memory and desire the second on the social and psychological self as agent of playful performance and product of cultural codes and the third on the interplay of psyche image and power in literary and artistic representations of the self The subjects of the individual studies vary widely from the interrelation of power and play in Orlando Furioso to the ludic foundations of cognition to the concept of the self in Foucault and Deleuze **Discussing Conversation Analysis** Carlo Prevignano,Paul J. Thibault,2003-01-01 By addressing these and other questions this volume proposes a critical guide to CA and its applications with an extraordinary interview with Emanuel A Schegloff and new contributions towards a debate on his work by six commentators conversation analysts John Heritage and Charles Goodwin critics Rick Iedema and Par Segerdahl and appliers of CA in the study of human computer interaction Pirkko Raudaskoski and language disorders Ruth Lesser Schegloff s Response and a closing discussion with the editors conclude the volume which also features a comprehensive bibliography of his work edited by Susan Eerdmans Goffman's Legacy Javier A. **Sociological Theory** Bert N. Adams, R. A. Sydnie, 2001-01-30 This book connects theorists and their work to larger themes and ideas All too often in the opinion of the authors theory texts focus too much on individual theorists and insufficiently on the relationship between their theories and how these have contributed in turn to the evolution of ideas concerning social life Treatment of individual theories and theorists is balanced with the development of key themes ideas about social life introduced in Chapter 1 which then reappear in the discussion of individual theorists and their work A key organizing principle of this text is to trace major schools of thought over the past 150 years as they appear and reappear in

different chapters Section 1 introductions help remind students of the big picture within which any given theory or theorist is only one part A consistent organization and presentation within chapters helps provide students with a context for learning and a means of much more easily comparing and contrasting theorists and their ideas Important new voices in a text for social theory In Chapter 2 Harriet Martineau is introduced as one of sociology s founders From then on the views of women theorists and others are represented in far more than token fashion Examples include W E B DuBois Marianne Weber Charlotte Gilman Rosa Luxemburg Joseph Schumpeter V I Lenin Niklas Luhmann Theda Skocpol Erik Wright Elman Service Arlie Hochschild Dorothy Smith Patricia Hill Collins and Immanuel Wallerstein A timeline showing when social theorists lived and wrote and connecting their biographies to important social events over 300 years is at the back of the text The organization of every chapter along similar lines provides a consistency in presentation that encourages comparisons among the theorists The authors do a very good job presenting overlooked theorists and making their relevance to social theorizing doing sociology clear Joan Alway formerly University of Miami The strengths of this text are the breadth of theories covered the integration of gender related topics family work religion the use of substantial quotes from primary texts the consistent inclusion of methodological issues and the goals of the project to provide an expansive and readable theory text I have no doubt that it will find a solid position in the field of popular theory texts for undergraduate course use Kathleen Slobin North Dakota State University

*Being Feared* Ben Ellis, 2020-12-08 This book presents an alternative approach to understanding fear and crime by examining those who are feared or who cause fear to others as opposed to those who are fearful of crime The existing research into the fearful and the fear of crime offers little insight into this particular experience and so this book represents a missing link in our understanding of how fear of crime is understood by all of those that experience it It draws on some powerful interviews with juveniles police officers soldiers muscular gym goers and bouncers doormen who can be interpreted as being feared This book focuses on the perceptions emotions and ensuing actions of those who are perceived as a threat to security by others It provides an in depth analysis of the perception of fear in interactions how this is recognised within an encounter how these perceptions are attributed and reacted upon how these experiences relate to particular situations and how they are structured in ongoing life experiences It suggests pillars of fear

*Contemporary Sociological Theory* Bert N Adams, R A Sydnie, 2002-01-16 The strengths of this text are the breadth of theories covered the integration of gender related topics family work religion the use of substantial quotes from primary texts the consistent inclusion of methodological issues I have no doubt that it will find a solid position in the field of theory texts Kathleen Slobin North Dakota State University A concise yet surprisingly comprehensive theory text given the range of ideas historical context and theorists discussed Unlike other books of the type Contemporary Sociological Theory focuses on how the pivotal theories contributed not only to the

development of the field but also to the evolution of ideas concerning social life

**The Drama of Social Life** Charles Edgley, 2016-03-23 Whatever else they may be doing human beings are also and always expressing themselves whenever they are in the awareness of others As such the metaphor of life as theater of people playing roles to audiences who review them and then coordinate further action is an ancient idea that has been resurrected by social scientists as an organizing simile for the analysis and understanding of social life The Drama of Social Life examines this dramaturgical approach to social life bringing together the latest original work from leading contemporary dramaturgical thinkers across the social sciences Thematically organized it explores the work of classical and contemporary thinkers who have contributed most to this theoretical framework the foundational concepts of the dramaturgical approach a rich array of substantive areas of empirical investigation to which dramaturgy continues to contribute directions for future dramaturgical thinking An indispensable collection that updates and extends the dramaturgical framework The Drama of Social Life will appeal to scholars and students of sociology social psychology performance studies cultural studies communication film studies and anthropology and all those interested in the work of Goffman and symbolic interactionist theory and practice *The Routledge International Handbook of Goffman Studies* Michael Hviid Jacobsen, Greg Smith, 2022-06-29 This book explores the fertility and enigma of Erving Goffman's sociological reasoning and its capacity to shed fresh light on the fundamental features of human sociality Thematically arranged it brings together the work of leading scholars of Goffman's work to explore the concepts and themes that define Goffman's analytical preoccupations examining the ways these ideas have shaped significant fields of study and situating Goffman's sociology in comparison to some eminent thinkers often linked with his name Through a series of chapters informed by the same inventive and imaginative spirit characteristic of Goffman's sociology the book presents fresh perspectives on his contribution to the field and reveals the value of his thought for a variety of disciplines now increasingly aware of the importance of Goffman's sociology to a range of social phenomena A fresh perspective on the legacy of one of sociology's most important figures The Routledge International Handbook of Goffman Studies will appeal to scholars across the social sciences with interests in interactionist and micro sociological perspectives
