Epics Of The Square Rigged Ships:

Square Rigger Days Charles W. Domvillefife, 2007-10-18 There are few books that describe accurately life on board sailing ships in the last days of sail from the 1860s to the First World War the romantic image conjured up by many who wrote from a safe distance belies the harsh realities which were a sailorman's lot Domville Fife in collecting together the personal stories of seamen while they were still alive was able to present a truer picture of the tough last days of sail Long voyages on board nineteenth century sailing ships were marked by isolation boredom and miserable living conditions that taxed the endurance of men already hard pressed by the gruelling and dangerous nature of shipboard work While some were attracted to a life of adventure most simply went to sea for a living and a meagre one at that They experienced neither the excitement of life on the crack clippers of the earlier decades nor the safety of the steamships they were caught in the limbo of a dying profession where poor pay discontinuous employment prolonged isolation from family and physical hardship were the norm No wonder that murder mutiny starvation and shipwreck appear in the memoirs gathered here Domville Fife surely did future generations a great service by piecing together this reality First published in 1938 these memoirs are now available again in this superbly presented new edition with a new selection of stunning photographs and a fascinating introduction on life at sea in the dying world of sail A wonderful read for all enthusiasts and historians of the merchant service in the days of sail

Literature and Lore of the Sea, 2021-11-08 **Making Men in the Age of Sail** Graeme J. Milne, 2024-06-15 Myths and stereotypes surrounding seafarers in the Age of Sail persist to this day Sailors were celebrated for their courage strength and skill yet condemned for militancy vice and fecklessness As sail gave way to steam sailing ship mariners became nostalgic symbols of maritime prowess and heritage representing a timeless heroic masculinity in an era when the modernizing industrial world was challenging assumptions about gender class work and society Drawing on British seafaring memoirs from the late nineteenth century *Making Men in the Age of Sail* argues that maritime writing moulded the reading

public's image of the merchant seaman. Authors chronicled their lives as they grew from boy sailors to trained seafarers, telling colourful tales of the men they worked with. Most never doubted that the sailing ship had made them better men. Their testimony reinforced and preserved conservative perspectives on seafaring manhood as Britain's economic and technological priorities continued to evolve in the new steamship age. Offering a gender analysis of the image of the seafarer, **Making Men in the Age of Sail** brings the history of British sailors into wider debates about modernity and masculinity.

Ice Ghosts: The Epic Hunt for the Lost Franklin Expedition Paul Watson, 2017-03-21. Intriguing and enjoyable. Ian McGuire, New York Times Book Review. *Ice Ghosts* weaves together the epic story of the lost Franklin Expedition of 1845 whose two ships, HMS Erebus and HMS Terror, and their crew of 129 were lost to the Arctic ice with the modern tale of the scientists, divers, and local Inuit behind the recent incredible discoveries of the wrecks. Paul Watson, a Pulitzer Prize-winning journalist who was on the icebreaker that led one of the discovery expeditions, tells a fast-paced historical adventure story and reveals how a combination of faith in Inuit knowledge and the latest science yielded a discovery for the ages.

Captain Alex MacLean Don MacGillivray, 2008-11-01. Alex MacLean was the inspiration for the title character in Jack London's bestselling novel *The Sea Wolf*. Originally from Cape Breton, MacLean sailed to the Pacific side of North America when he was twenty-one and worked there for thirty-five years as a sailor and sealer. His achievements and escapades while in the Victoria fleet in the 1880s laid the foundation for his status as a folk hero. But this biography reveals more than the construction of a legend. Don MacGillivray opens a window onto the sealing dispute brought the United States and Britain to the brink of war with Canadian sealing interests frequently enmeshed in espionage, scientific debate, diplomatic negotiations, and vexing questions of maritime and environmental law.

Folklore of the Sea Margaret Baker, 2025-05-13. Filled with the myths and legends of the deep, this new illustrated edition of the cult classic folklore collection reveals the stories that swirled on the open seas and the customs that remain part of maritime life. The vivid, often eerie superstitions, tales, and rituals of the sea were the sailors' response to danger, immediate and uncontrolled. As a sailing ship beat for weeks across the Southern Ocean, the domain of the albatross, meeting no one in the lonely wastes, her crew felt an urgent need to appease the sea gods. Even today, with engines, iron, or fibreglass hulls, and less credulous seamen, much traditional sea lore has survived, especially in the fishing fleets. Stories of phantom ships and crews, from the Flying Dutchman onwards, of the perennial sea serpent, of lonely lighthouses, rituals such as the crossing the line ceremonies, or blessing the fishing fleet, old weather lore, sailors' chants, and sea language taboos and talismans, precautions taken at keel laying or launching, all these are recorded and interpreted here. For everyone who enjoys strange stories and the chilly fascination of the unconquered sea, or thrills to watch man pitting himself against merciless elements, this book is a delight and a mine of information. Margaret Baker is unrivalled at collecting traditions of the past and showing the part they have played for generations of men in their daily lives. With brand new illustrations by Philip Harris.
