Epinician Odes And Dithyrambs Bacchylides:

Epinician Odes and Dithyrambs of Bacchylides Bacchylides,1998-01-29 Until a century ago the fifth century Greek poet Bacchylides was known only by 107 nonsequential lines buried as quotations in the writings of other ancient authors With the discovery in 1896 of a papyrus containing his work 1 382 lines were reassembled and the poems of Bacchylides finally began to take shape for the modern reader Slavitt argues in the Introduction to this collection that although Bacchylides is often considered a lesser Pindar he is a poet who warrants consideration He deserves attention not because he is beetling like Pindar but because he is not He relies on craftsmanship and reliably displays an attractive grace and elegance

The Emergence of the Lyric Canon Theodora A. Hadjimichael, 2019-05-02 The Hellenistic period was an era of literary canons of privileged texts and collections One of the most stable of these consisted of the nine rarely ten lyric poets whether the selection was based on poetic quality popularity or the availability of texts in the Library of Alexandria the Lyric Canon offers a valuable and revealing window on the reception and survival of lyric in antiquity This volume explores the complexities inherent in the process by which lyric poetry was canonized and discusses questions connected with the textual transmission and preservation of lyric poems from the archaic period through to the Hellenistic era It firstly contextualizes lyric poetry geographically and then focuses on a broad range of sources that played a critical role in the survival of lyric poetry in particular comedy Plato Aristotle's Peripatetic school and the Hellenistic scholars to discuss the reception of the nine canonical lyric poets and their work By exploring the ways in which fifth and fourth century sources interpreted lyric material and the role they played both in the scholarly work of the Alexandrians and in the creation of what we conventionally call the Hellenistic Lyric Canon it elucidates what can be defined as the prevailing pattern in the transmission of lyric poetry as well as the place of Bacchylides as a puzzling exception to this norm The overall discussion conclusively demonstrates that the canonizing process of the lyric poets was already at work from the fifth century BC and that it is reflected both in the evaluation of lyric by fourth century thinkers and in the activities of the Hellenistic scholars in the Library of Alexandria **History of Greek Literature** Albrecht Dihle, 2013-04-15 The most up to date history of Greek

literature from its Homeric origins to the age of Augustus Greek literary production throughout this period of some eight centuries is embedded in its historical and social context and Professor Dihle sees this literature as a historical phenomenon a particular mode of linguistic communication with its specific forms developing both in an organic way and in response to the changing world around In this it differs from conventional humanist approaches to Greek and Latin literature which analyse the works as objects of timeless value independent of any historical setting or purpose This magisterial survey by one of the leading European authorities on classical literature will establish itself as it already has in Germany as the standard Anthology of Classical Myth Stephen M.
