Starwater Strains Gene Wolfe,2006-05-02 Gene Wolfe follows his acclaimed all fantasy short story collection Innocents Aboard with a volume devoted primarily to his science fiction The twenty five stories here amply demonstrate his range excellence and mastery of the form that has traditionally been the heart of the field Their diversity makes them otherwise impossible to characterize as a group so a few tantalizing samples will have to suffice Viewpoint takes on the unreality of so called reality TV and imagines such a show done truly for real with real guns and a real government clawing at the money

Wolfe has loved dinosaurs since he was kid and in Petting Zoo he imagines the reunion of a man and an aged dinosaur who look back together on a day when they were much much younger and much freer Empires of Foliage and Flower is a special treat an addition to the classic Book of the New Sun series first published only as a limited edition chapbook The volume closes with its newest story Golden City Far It s about dreams high school and finding love which Wolfe says is about as good a recipe for a story as I ve ever found You re sure to agree At the Publisher s request this title is being sold without Digital Rights Management Software DRM applied
