Women's Employment in Europe Colette Fagan,Jill Rubery,Mark Smith,1999-08-05 Based on extensive original research this volume examines contemporary patterns of womens employment in Europe in the context of the profound economic social and cultural changes that have taken place in recent years It considers the progress made towards equal treatment in the labour market in the light of European Union action programmes and examines the prospects for womens employment under the fourth action programme The authors conclude that progress towards equal treatment will only occur when gender issues are fully integrated into the European Commissions employment and labour market policies Nordic Welfare States in the European Context Johan Fritzell,Bjorn Hvinden,Mikko Kautto,Jon Kvist,Hannu Uusitalo,2005-07-28 This important sequel to Nordic Social Policy Routledge 1999 compares welfare state development over the last twenty years in Denmark Finland Norway and Sweden with that of Germany the Netherlands the United Kingdom and other Western European countries Topics covered include income distribution health inequalities and gender equality gender policies health and social care services and policy reaction to family changes social security and employment policies financing of welfare states In the context of globalisation ageing populations changing employment patterns and rising inequalities Nordic Welfare States in the European Context offers an empirical analysis of welfare adaptations and a lively discussion of the historical

development of European social policy It finds a greater ambiguity regarding variation and trends than is commonly suggested Contrary to expectation there is little evidence of the Europeanisation of Nordic welfare states rather the reverse The comparable and empirical data used in this study make it a unique contribution to understanding current trends in European social policy *Work Organization and Europe as a Development Coalition* Richard Ennals,Bjørn Gustavsén,1999-03-15 Work Organization has achieved recent prominence in European policy as new employment guidelines are embodied in the policies of all European Member States New forms of Work Organization properly understood offer collaborative competitive advantage to European enterprises This book based on decades of action research in separate European nations identifies the research background from which these new insights and policy initiatives have emerged with continuing lessons to be learned from differences Work Organization is the missing link which enables innovation and training to produce sustainable increases in productivity this is not mere academic theory but also vital practical business The book launches a new European research agenda which is attracting interest from across the developed world and beyond Rather than arguing for a stronger role for the state or simply leaving matters to the market the book presents a third way based on networks and coalitions illustrated with numerous current European case studies which provide explanations for developments at the level of enterprises regions and the European Union itself The book provides valuable insights into new European Commission initiatives and Transatlantic Dialogue and provides the foundations for renewed democratic dialogue
