Liberal Equality Amy Gutmann, 1980-09-30 This book makes a significant contribution to the tradition of liberal political theory it explores the foundations and limits of the idea of equality within that theory and offers a sustained argument for a persuasive new view of liberalism Liberal thinking has always displayed a tension between the claims of liberty and those of equality Professor Gutmann examines the contributions of liberal theorists from Locke to Rawls on the subject of two kinds of equality equality of opportunity to participate and the equal distribution of economic goods Valuing both she shows that far from being alternatives the two ideals are compatible to a much greater degree than has previously been thought Liberal Equality restores egalitarianism to political theory in a way that will forcefully challenge its critics to deeper reflection

Women as Producers and Consumers of Tourism in Developing Regions Yorghos Apostolopoulos, Sevil F. Sönmez, Dallen J. Timothy, 2001-04-30 Tourism has become the world's largest industry according to the World Tourism Organization no surprise when one considers that it incorporates the world's oldest profession In some developing regions such as the Caribbean or the South Pacific tourism is the primary sector in which significant economic growth takes place In other regions including areas of Latin America Africa the Middle East and formerly communist eastern Europe tourism is just beginning to take off In all of these areas tourism's impact has been decidedly mixed Nowhere is this more visible than in the context of women's roles in tourism The contributors demonstrate the many ways in which gender determines the roles they play as both tourists and providers of tourism as product and service A valuable contribution to tourism studies women's studies and the literature of economic development The premises of this unique collection of research are that women's roles in tourism are gendered just as are their other roles in gendered societies that tourism affects women differently than it affects men and that women themselves are affected in different ways by tourism depending on such factors as race region and class leisured consumer vs working producer or guest vs host The contributors cover theoretical perspectives including those provided by feminists and economic development analysts women's roles in tourism in the mature industries of the Caribbean Southeast Asia and the South Pacific women's roles in the less developed tourist destinations of the Middle East Latin America Africa and eastern Europe and implications for the future of economic development policy and of gender relations in tourism

Sharoni,1995-03-01 Simona Sharoni s innovative approach to the conflict in the Middle East stresses the relationship between gender and politics by illuminating the daily experiences of women in Israel and in the occupied West Bank and Gaza Strip Among the issues explored are the connections between the violence of the conflict and the escalation of violence against women the link between militarism and sexism and the role of nationalism in building individual and collective identities Sharoni also shows the impact of Intifada the Palestinian uprising in December 1987 on the Palestinian and Israeli women s movements While women s coalitions such as these are critical subjects in and of themselves the actions of marginalized women are rarely if ever given serious treatment in the study of international relations With this book Sharoni creates an aperture for the emergence of new perspectives and alternative methods in the development of a new vision in global politics and gender equality The interdisciplinary scope of the book will make it valuable to scholars of political science women s studies conflict resolution and Middle East studies **Contesting Femicide** Adrian Howe,Daniela

Alaattinoğlu,2018-09-03 Focusing on femicide this book provides a contemporary re evaluation of Carol Smart s innovative approach to the law question as first outlined in her ground breaking book *Feminism and the Power of Law* Routledge 1989 Smart advocated turning to the legal domain not so much for demanding law reforms as construing it as a site on which to contest gender and more particularly gendered constructions of women s experiences Over the last 30 to 40 years feminist law scholars and activists have launched scathing trans jurisdictional critiques of the operation of provocation defences in hundreds of femicide cases The evidence unearthed by feminist scholars that these defences operate in profoundly sexed ways is unequivocal Accordingly femicide cases have become critically important sites for feminist engagement and intervention across numerous jurisdictions Exploring an area of criminal law that was not one of Smart s own focal concerns this book both honours and extends Smart s work by approaching femicide as a site of engagement and counter discourse that calls into question hegemonic representations of gendered relationships Femicide cases thus provide a way to continue the endlessly valuable discursive work Smart advocated and practised in other fields of law both in articulating alternative accounts of gendered relationships and in challenging law s power to disqualify women s experiences of violence while privileging men s feelings and rights Department of Defense Appropriations for 1974 United States.
