**Erläuterungen zu Hölderlins Dichtung** Martin Heidegger, 1944      **Erläuterungen zu Hölderlins Dichtung** Martin Heidegger, 1981 The explanations of Hölderlin's poetry date from the years 1936 to 1968 Heidegger writes The explanations belong in the conversation of a thinking with a poet whose historical uniqueness can never be proven in literary history but which can be pointed out through the thinking conversation This thinking conversation with Hölderlin's poetry began at the beginning of the 1930s with the beginning of Heidegger's thinking about the history of being on the development of which Hölderlin became a constant companion The Explanations are supplemented by the three major Hölderlin lectures from the winter semester 1934/35 HGA 39 the winter semester 1941/42 HGA 52 and the summer semester 1942 HGA 53 as well as in the comments on Hölderlin in HGA 75 On Hölderlin Travels to Greece The edition also contains the marginal notes from Heidegger's personal copies an appendix and a letter from Heidegger to Detlev Liders from 1953      Kontroversen in der Literaturtheorie/Literaturtheorie in der Kontroverse Ralf Klausnitzer, Carlos Spoerhase, 2007 Literaturtheoretische Überlegungen sind immer wieder Ausläufer von polemisch ausgetragenen Kontroversen gewesen Fragen nach der spezifischen Qualität literarischer Texte nach der Geltung von Bedeutungszuweisungen oder nach Kriterien für überzeugende Interpretationen führten ebenso zu scharfen Auseinandersetzungen wie die Konzeptualisierung literaturgeschichtlicher Verlaufsformen und ihre Verknüpfung mit inner und außerliterarischen Kontexten Systematische Überlegungen und historische Fallstudien verknüpfend werden im vorliegenden Band zentrale literaturtheoretische Debatten vorgestellt Voraussetzungen wie Verlaufsformen von Dissensbildungen analysiert und so die Potentiale einer konflikthistorisch ausgerichteten Wissenschaftsforschung erprobt Ausgangspunkt der rekonstruktiven Einsätze sind Fragen nach den kognitiven Leistungen und sozialen Funktionen von konfrontativ ausgetragenen Auseinandersetzungen bei der Erzeugung und Verbreitung von Wissensansprüchen Um über diese Sachverhalte Aufschluss zu erlangen rekonstruieren die Beiträge die epistemischen und institutionellen Konstellationen exemplarischer Kontroversen Sie beschreiben Verfahren der Artikulation von Konsens und Dissens und analysieren die argumentative Struktur polemischer Auseinandersetzungen Schließlich markieren sie den Ausgang der Debatten und erläutern ihre Bedeutung für die Entwicklung der relevanten literaturtheoretischen Forschungsfelder Ergebnis sind detaillierte Einsichten in die Leistungen und Funktionen der Kontroverse als epistemisches Genre das auch in der Literaturtheorie die Grundstrukturen adversativer Wissenskommunikation prägt      **Hölderlin's Hymn "Remembrance"** Martin Heidegger, 2018-09-28 Martin Heidegger's 1941/1942 lecture course on Friedrich Hölderlin's hymn Remembrance delivered immediately following his confrontation with Nietzsche lays out a detailed plan for the interpretation of Hölderlin's poetry in which remembrance is a central concern With its emphasis on the free use of the national and the holy of the fatherland the course marks an important progression in Heidegger's political thought In addition to its startlingly innovative analyses of greeting the festive and the dream the text provides Heidegger's fullest

elaboration of the structure of commemorative thinking in relationship to time and the possibility of an other beginning This English translation by William McNeill and Julia Ireland completes the series of Heidegger's major lecture courses on Hlderlin

*A Philosophy of Prayer* George Pattison, 2024-07-02 Exploring the silence of prayer in Post Kantian philosophy and traditional spirituality *A Philosophy of Prayer* explores prayer within the perspective of post Kantian philosophy Against a background of traditional sources including Augustine *The Cloud of Unknowing* and the seventeenth century French school of spirituality the book uses Schleiermacher Kierkegaard Dostoevsky Heidegger Berdyaev Tillich Marcel Simone Weil Emmanuel Levinas and Jean Louis Chr tien to provide an interpretation of what is meant by the passivity and self annihilation of the praying self suggesting an apophatics of the personality Pattison pays particular attention to the question of language and the implications of the role given to silence in traditional texts arguing that language remains a defining element of the human God relationship and that silence is not to be construed as the negation of language but as the revelation of the depth of language itself The basic structure of prayer is shown to be implicitly eschatological oriented toward a coming kingdom of justice and peace while at the same time expressing a deep desire for ontological homecoming a tension manifest in respectively Levinas and Heidegger On Pattison's reading prayer calls for and develops a particular orientation of the self toward existence corresponding to the virtue of humility long understood as the basic Christian virtue This is shown to be in tension with modernity's commitment to strong versions of autonomy However the choice of humility is not presented as the reinstatement of religious heteronomy but as a free choice of the praying self

*The Phenomenon of Mental Disorder* Petr Kouba, 2014-11-18 This book provides a critical introduction to Heidegger's impact on psychiatry and psychology and has a focus on the application of his philosophy to psychiatry This is a complete revision of Heidegger's existential philosophy in the light of psychopathological phenomena Readers will find here a philosophical inquiry into the problem of mental disorder which shows Heidegger's own philosophy in a new light uncovering both its strengths and its weak points The author maps not only Heidegger's interaction with psychiatric thought as depicted in his Zollikon Seminars but also his influence on Swiss phenomenological psychiatry The work treats Heidegger in a critical way taking the phenomenon of mental disorder as a touchstone on which Heidegger's thought is tested The results of such a critical examination are important not only for a better understanding of psychopathological phenomena but also for a new understanding of Heidegger's approach to human existence This work treats the phenomenon of mental disorder as a philosophical problem that reflects the ontological character of human existence Heidegger's approach to mental disorder is confronted with the conceptions of Foucault Deleuze and Guattari in a novel way The book is more than just an historical overview as it highlights the limits of phenomenological thought in the area of psychiatry and it shows a possible way of moving beyond them This is a philosophical work with an interdisciplinary range Scholars of philosophy and those in the growing field of philosophy of psychiatry as well as those with an interest in Heidegger Studies will be particularly interested in this work Heidegger's

Poetic Projection of Being Marius Johan Geertsema, 2018-06-06 This book investigates the relationship between poetry and ontology in the works of Martin Heidegger. It explains the way in which Heidegger's dialogue with poetry forms an essential step on the path of overcoming metaphysics and thinking the openness of presence. Heidegger's engagement with poetry is an important moment in the development of his philosophy or rather thinking of Being. Being speaks itself poetically in his view. Rather than a logician or a thinker, Being is the first poet.

Silent Urns David S. Ferris, 2000 The study of Greece as an icon of culture appears to be as old as Greece itself as if its cultural significance had attained full maturity at birth. In *Silent Urns*, the author reveals how Greece attained such significance as the result of the attempt to reconcile individuality, freedom, history, and modernity in 18th century aesthetics.

**Serenity in Crisis** Ortwin de Graef, 1993-01-01 A polymath well versed in European literature and philosophy, one of the founders of deconstruction and a widely respected teacher, Paul de Man brought unprecedented attention and acclaim to the so-called Yale Critics. His fame was at a zenith when he died suddenly in 1983. A few years later, Ortwin de Graef found that de Man had written for the collaborationist press during the Nazi occupation, a discovery that ignited an international reassessment of de Man's work. *Serenity in Crisis* is the first sustained account of the complex intertextual tradition in which de Man wrote and of the persistent concerns expressed in his early work. It reconstructs the truth models with which de Man justified his political choice before and during the occupation and traces them back to an ambitious intention to integrate the competing truths of the natural sciences, the social sciences, and literature. The significance of de Man's ideational framework and the decisions that followed from it have extended well beyond the disasters of World War II. De Graef clearly illuminates and critiques the abstruse paths of logic in de Man's early writings as well as in the reformulations of de Man's thought expressed in his writings of the 1950s.

**The Abyss Above** Silke-Maria Weineck, 2012-02-01 In *The Abyss Above*, Silke Maria Weineck offers the first sustained discussion of the relationship between poetic madness and philosophy. Focusing on the mad poet as a key figure in what Plato called the ancient quarrel between philosophy and poetry, Weineck explores key texts from antiquity to modernity in order to understand why we have come to associate art with irrationality. She shows that the philosophy of madness concedes to the mad a privilege that continues to haunt the Western dream of reason and that the theory of creative madness always strains the discourse on authenticity, pitching the controlled, repeatable but restrained labor of philosophy against the spontaneous production of poetic texts, said to be by definition unique.

Routledge Encyclopedia of Philosophy: Index Edward Craig, 1998 Volume seven of a ten-volume set which provides full and detailed coverage of all aspects of philosophy, including information on how philosophy is practiced in different countries, who the most influential philosophers were, and what the basic concepts are.

Heideggers Stimmungswandel. Wie Hölderlins Dichtungen Heideggers Stimmungskonzeption beeinflussten, 2025-07-16 Studienarbeit aus dem Jahr 2024 im Fachbereich Philosophie, Sonstiges, Note 1,7, Eberhard Karls Universität Tübingen, Philosophisches Seminar, Veranstaltung: Grundlagenmodul Philosophie der Neuzeit, Sprache: Deutsch.

Abstract Die Hausarbeit untersucht den Einfluss von Friedrich Hölderlins Dichtungen auf die Entwicklung von Martin Heideggers philosophischem Stimmungsbegriff Ausgangspunkt ist Heideggers frühes Werk *Sein und Zeit* in dem Stimmungen eine zentrale Rolle für die existenzielle Struktur des Daseins spielen Dabei wird insbesondere die Angst vor dem Tod als Grundstimmung des Sein zum Tode analysiert Nach Heideggers philosophischer Kehre verlagert sich sein Fokus jedoch von der existenziellen Analyse hin zur seinsgeschichtlichen Betrachtung In dieser späteren Phase beeinflusst durch Hölderlins Dichtkunst entwickelt Heidegger das Konzept der heiligen Trauer als neue Grundstimmung die über die individuelle Existenz hinausweist und eine tiefere Verbindung zwischen Mensch Welt und Sein eröffnet Die Arbeit zeigt wie sich Heideggers Denken von einer existenzialen Konfrontation mit der Endlichkeit hin zu einer poetischen welterschließenden Grundstimmung wandelt in der Dichtung zur Offenbarung des Seins wird

**How Literature Changes the Way We Think** Michael Mack, 2011-12-01 The capacity of the arts and the humanities and of literature in particular to have a meaningful societal impact has been increasingly undervalued in recent history Both humanists and scientists have tended to think of the arts as a means to represent the world via imagination Mack maintains that the arts do not merely describe our world but that they also have the unique and underappreciated power to make us aware of how we can change accustomed forms of perception and action Mack explores the works of prominent writers and thinkers including Nietzsche Foucault Benjamin Wilde Roth and Žižek among others to illustrate how literature interacts with both people and political as well as scientific issues of the real world By virtue of its distance from the real world its virtuality the aesthetic has the capability to help us explore different and so far unthinkable forms of action and thereby to resist the repetition and perpetuation of harmful practices such as stereotyping stigma exclusion and the exertion of violence

*Hölderlin, the Poetics of Being* Adrian Del Caro, 1991 Here is a comprehensive introduction for the English reader to the poetry of Friedrich Hölderlin Here is a comprehensive introduction for the English reader to the poetry of Friedrich Hölderlin The poet is studied in the context of the romantic age but as one who imparted depth to the movement and influenced the critical debates of the 20th century Adrian Del Caro presents a detailed readable discussion of Hölderlin's major poems that clarifies but does not lose sight of the powerful formulations that animate Hölderlinian spirit Hölderlin's specific effort in the determination of the direction of modern man had to do with the relationship of poetry to being Del Caro draws on the contributions of Nietzsche and Heidegger within the theoretical framework of the question of being Hölderlin the poet of poets is presented at work and in his works as the instrument of conviviality binding mortal to mortal and mortal to divine

Blanchot Leslie Hill, 2002-01-04 Blanchot provides a compelling insight into one of the key figures in the development of postmodern thought Although Blanchot's work is characterised by a fragmentary and complex style Leslie Hill introduces clearly and accessibly the key themes in his work He shows how Blanchot questions the very existence of philosophy and literature and how we may distinguish between them stresses the importance of his political writings and the relationship between writing and history that characterised Blanchot

s later work and considers the relationship between Blanchot and key figures such as Emmanuel Levinas and Georges Bataille and how this impacted on his work Placing Blanchot at the centre stage of writing in the twentieth century Blanchot also sheds new light on Blanchot s political activities before and after the Second World War This accessible introduction to Blanchot s thought also includes one of the most comprehensive bibliographies of his writings of the last twenty years
