Ernest Oppenheimer A Study In Power:

Ernest Oppenheimer Edward Jessup, 1979 **Mining Tycoons in the Age of Empire, 1870-1945** Raymond E. Dumett, 2016-12-05 The years of the late nineteenth and early twentieth centuries aptly described by Mark Twain as the Gilded Age witnessed an unprecedented level of technological change material excess untrammled pursuit of profit and imperial expansion Within this dynamic and often ruthless environment many colorful characters strode across the world stage among them the great mining tycoons who with the thousands of prospectors diggers shift bosses timbermen blastmen and muckers in mining enterprise constituted one of the major spearheads of global capitalistic expansion and colonial exploitation This volume which carries the epic story to the mid twentieth century provides a truly international perspective on the role of mining entrepreneurs investors and engineers in shaping the economic and political map of the globe in testing management techniques and in setting a vogue for extravagant displays of wealth among the world's rich Each chapter is loosely focussed on a biographical account of a particular mining tycoon that allows for broad and comparative accounts to be made about the individuals their business interests the technologies they employed and the national and international political considerations under which they operated Furthermore this structure also allows for consideration of the effect that these tycoons had on the countries and territories in which they worked particularly the often long lasting impact on indigenous populations the environment transport links and economic development By approaching the subject matter through this stimulating mix of cultural social economic business and colonial history many intriguing and thought provoking conclusions are reached that will reward any scholars with an interest late nineteenth and early twentieth century history

Harry Oppenheimer Michael Cardo, 2023-03-05 This book will surely be the most readable best informed most complete account of Harry Oppenheimer's life there is ever likely to be Bill Nasson historian and author As chairman of Anglo American and De Beers Harry Oppenheimer held sway over his family's gold and diamond empire for a quarter of a century He combined a passion for commerce with a streak of creative genius In this the first comprehensive biography of Oppenheimer Michael Cardo has produced a vivid portrait based on unrestricted access to his subject's private papers and interviews with Oppenheimer's relatives and associates Cardo brings to life the places people and events that shaped Oppenheimer's career at the intersection of business and politics From the diamond fields of Kimberley where his father Ernest arrived to seek his fortune in 1902 through his long apprenticeship as heir apparent to Harry Oppenheimer's emergence on the world stage as a magnate and monarch in his own right the King of Diamonds and the man with the Midas touch Cardo tells the story of a dynasty As a financier philanthropist and public figure Oppenheimer straddles the history of 20th century South Africa In the 1950s the National Party regarded him as a threat to Afrikanerdom the sinister embodiment of English money power Forty years later Nelson Mandela praised Oppenheimer as a nation builder a key figure in South Africa's transition to democracy Yet nowadays Oppenheimer is demonised in some quarters as the archetype of white

monopoly capital and blamed in part for democracy's disappointing dividends. Meticulously researched and superbly written, this authoritative work sheds new light on the multifaceted legacy of a renowned South African industrialist. *Blood and Diamonds* Steven Press, 2021-04-06. The history of mass market diamonds goes back to German imperialism in Southwest Africa. Corporate power and state violence combined in the genocide of the Herero and Nama peoples whose mineral-rich land supplied budding consumer demand in the United States. Steven Press makes clear that mass luxury has always come at a huge price.

The Dominican Friars in Southern Africa Philippe Denis, 2016-05-18. The purpose of this book is to gather in a single narrative the rather disparate stories of Dominican friars in Southern Africa over the past four centuries. Dominicans from Portugal and Portuguese India were present in South East Africa from 1577 to 1835. Patrick Raymond Griffith, an Irish Dominican, became the first resident bishop in South Africa in 1837. A Dominican mission was established in 1917 with the arrival of a group of English friars. A second group arrived from the Netherlands in 1932. The aim is to provide a social history of the Dominicans in Southern Africa that is a history that deals specifically with the social and cultural factors of historical development. The Dominicans ministered in a political, social, and cultural context which impacted on their apostolic activities and in turn was affected by them. The book's terminus ad quem is 1990 when the National Party opened a process of political negotiation, thus ending more than forty years of apartheid rule.

The Last Empire Stefan Kanfer, 1995-04-30. Timely corporate history as exciting and poignant as any good tale of derring-do against great odds by all too flawed giants. Kirkus Reviews. With a scholar's precision and a novelist's eye, Stefan Kanfer tells the inside story of De Beers Consolidated Mines from the nineteenth-century diamond rush that transformed Johannes De Beer's humble South African farm into an exotic klondike to the Oppenheimers' shadow empire that has achieved unmatched global reach.

The Political Economy of Namibia Tore Linné Eriksen, Richard Moorsom, 1989. Research institutes and documentation centres.

The Founder Robert I. Rotberg, 1990-10-25. The definitive biography of one of the most controversial figures of the 19th century captures a life that was complex and fascinating: evil and good. Illustrated.

Mining in World History Martin Lynch, 2002. This book deals with the history of mining and smelting from the Renaissance to the present. Martin Lynch opens with the invention sometime before 1453 of a revolutionary technique for separating silver from copper. It was this invention which brought back to life the rich copper-silver mines of central Europe in the process of making brass, cannon, and silver coin available to the ambitious Habsburg emperors, thereby underpinning their quest for European domination. Lynch also discusses the Industrial Revolution and the far-reaching changes to mining and smelting brought about by the steam engine, the era of the gold rushes, the massive mineral developments and technological leaps forward which took place in the USA and South Africa at the end of the 19th century, and finally the spread of mass metal production techniques amid the violent struggles of the 20th century. In an engaging, concise, and fast-paced text, he presents the interplay of personalities, politics, and technology that have shaped the metallurgical industries over the last 500 years.

Lusaka: The New Capital of

Northern Rhodesia Robert Home, 2013-07-24 This short account of the planning of Lusaka as the new capital of Northern Rhodesia written for its official opening in 1935 as part of jubilee celebrations for King George V was printed in a limited edition specifically for that event and is now very scarce and difficult to obtain but deserves to be made more widely available for scholars of planning and urban history and especially all interested in African urban development The planning of Lusaka was a prestige project for British indirect rule administration in Africa during the 1930s in the recovery from the Great Depression and was claimed as an example of British garden city and town planning expertise being applied overseas to its imperial territorial acquisitions Particular features of Lusaka's planning were the attention to public buildings echoing on a smaller scale the grand imperial designs of Baker and Lutyens in South Africa and India the importance attached to landscaping and tree planting and the priority given to the new airport reflecting the great expansion of air networks during the 1930s The historical context also includes Lusaka's place on the projected Cape to Cairo railway and its importance as a colonial project at a time of rapid development by American and South African capitalism of copper mining in the Copperbelt Town planning was seen in the Colonial Office as an important tool of colonial management and successive colonial governors in Northern Rhodesia were associated with planning initiatives elsewhere Lusaka capital city was seen as a demonstration project which influenced negotiations over planning the new Copperbelt mining townships Lusaka's colonial origins are of increasing interest to present day planners in Zambia concerned with problems of rapid urbanisation and the recent recovery of the copper mining industry it is also of wider interest for both its place in the history of town planning and garden city concepts beyond Europe and as a planned new capital in the Third World [Diamond Stories](#) Renée Rose Shield, 2018-07-05 Sequestered within the heart of a cosmopolitan city is an exotic world a place where diamonds astronomically priced are bought and sold on the strength of a handshake and business disputes are resolved according to ancient Jewish principles of arbitration Yet it is also a modern industry facing the same fundamental global changes affecting all businesses today In *Diamond Stories* Renée Rose Shield leads us into the unexamined realm of wholesale diamond traders in New York Related to several well respected traders she had unprecedented access to a society normally closed to outside inquiry Here she deftly blends her personal relationship and her anthropological training to provide an insightful exploration of this tradition bound industry the new challenges it faces and the ways both industry and individuals adapt to and endure change Shield begins with a fascinating history of diamond mining combining the story of the De Beers cartel the role of Jews in the trade and the part diamonds have played both in war and liberation Throughout she incorporates commentary by current diamond traders Succeeding chapters explore the evolving nature of both the global trade and the New York diamond district Shield takes a close look at the increasingly complex ethnic makeup of the district illuminates the rarely documented work done by women chronicles the resilient system of arbitration and reveals the ways in which many traders work well into their eighties and nineties Their long lives of work cushioned by the trade's social environment offer hints for

successful aging in general In Good Company Dinah Rajak,2011-11-09 Under the banner of corporate social responsibility CSR corporations have become increasingly important players in international development These days CSR s union of economics and ethics is virtually unquestioned as an antidote to harsh neoliberal reforms and the delinquency of the state but nothing is straightforward about this apparently win win formula Chronicling transnational mining corporation Anglo American s pursuit of CSR In Good Company explores what lies behind the movement s marriage of moral imperative and market discipline From the company s global headquarters to its mineshafts in South Africa Rajak reveals how CSR enables the corporation to accumulate and exercise power Interested in CSR s vision of social improvement Rajak highlights the dependency that the practice generates This close examination of Africa s largest private sector employer not only brings critical attention to the dangers of corporate dominance but also provides a lens through which to reflect on the wider global CSR movement **Glitter & Greed** Janine Farrell-Robert,2007-04-01 Rare romantic and forever The diamond industry depends on these myths to reap billions of dollars of profit This sensational investigation explodes such fallacies and reveals how multimillion dollar advertising campaigns create the impression of rarity and romance It reveals a very secret and unromantic world one that is dominated and controlled by a handful of mighty corporations With Leonardo DiCaprio s movie The Blood Diamond making more people than ever aware of the seamy side of the diamond trade Janine Roberts explosive expos taking us through seven decades of intrigue and manipulation is the right book at the right time **The Gulliver File** Roger Moody,1992 **U.S. Relations with South Africa: An Annotated Bibliography** Y G-M Lulat,1990-12-31 A comprehensive two volume annotated bibliography of books and monographs journal articles government documents documents of nongovernmental organizations and substantive magazine and newspaper articles published since the late nineteenth century Annotated entries contain a short abstract a table of contents and information on reviews Each volume contains an author and subject index and a periodical is included in Volume Two Topics covered include US Foreign Policy Southern Africa in US South African Relations Nuclear Technology and Other Sectors of Trade and Economic Relations Education Scientific and Cultural Exchanges African Americans and South Africa Divestment Disinvestment and Sanctions Divestment Disinvestment and Sanctions Comparative Studies This two volume work is part of a larger project that included publication of a nearly 700 page book titled United States Relations with South Africa A Critical Overview from the Colonial Period to the Present which is a critical overview of relations between the United States and South Africa going nearly as far back as the very beginning of their inception as permanent European colonial intrusions and it not only gives attention to the importance of contributions from nonofficial actors in shaping official relations but also considers the impact of the geopolitical location of South Africa within southern Africa where the presence of other nations particularly Angola Mozambique Namibia and Zimbabwe looms large **Diamonds and War** David De Vries,2010-04 Based on previously unexamined historical documents found in archives in Belgium England Israel the Netherlands and the United States this

book is the first in English to tell the story of the formation of one of the world's main strongholds of diamond production and trade in Palestine during the 1930s and 1940s. The history of the diamond cutting industry, characterized by a long-standing Jewish presence, is discussed as a social history embedded in the international political economy of its times. The genesis of the industry in Palestine is placed on a broad continuum within the geographic and economic dislocations of Dutch, Belgian, and German diamond cutting centers. In providing a micro-historical and interdisciplinary perspective, the story of the diamond industry in Mandate Palestine proposes a more nuanced picture of the uncritical approach to the strict boundaries of ethnic-based occupational communities.

U.S. Relations With South Africa Y. G-m. Lulat, 2019-05-30. Relations between the United States and South Africa or the parts of the world these nations now occupy go nearly as far back as the very beginning of their inception as permanent European colonial intrusions. This book is a critical overview of these relations from the late seventeenth century to the present. Unprecedented in its scope and scale.

Historical Dictionary of South Africa Christopher Saunders, Peter Limb, 2020-12-15. As the most influential and powerful country on the entire continent of Africa, an understanding of South Africa's past and its present trends is crucial in appreciating where South Africans are going to and from where they have come. South Africa changed dramatically in 1994 when apartheid was dismantled and it became a democratic state. Since 2000, when the previous edition appeared, further big changes occurred with the rise of new political leaders and of a new black middle class. There were also serious problems in governance in public health and the economy, but with a remarkable popular resilience too. This third edition of *Historical Dictionary of South Africa* contains a chronology, an introduction, and an extensive bibliography. The dictionary section has more than 600 cross-referenced entries on important personalities as well as aspects of the country's politics, economy, foreign relations, religion, and culture. This book is an excellent resource for students, researchers, and anyone wanting to know more about South Africa.

The Diamond Invention Edward Jay Epstein, 1982. This is a popular and somewhat superficial account of the international diamond industry written by an American journalist. The book is based on extensive reading and investigations, including visits to several mines in Southern Africa, but contains a number of inaccuracies and is not as reliable and informative as the similar account by T. Green, *The World of Diamonds* (London, 1981). The major part of the book deals with the role of De Beers and the Central Selling Organization, and chapter 4, 'Holding back the ocean', is devoted to the operations in Namibia. The author describes how the cartel organizes production and marketing on a global scale and how it has repeatedly interfered in the internal political affairs of African states. He predicts a collapse of the monopoly and the disintegration of the industry with profound effects on a country like Namibia, which depends heavily on income from the export of diamonds. There is also a bibliographic guide to the vast literature on diamonds, mining, and marketing. p. 239-56. Eriksen Moorsom, 1989. Oxford Dictionary of National Biography: Norbury-Osborn Henry Colin Gray Matthew, Brian Harrison, 2004. 55,000 biographies of people who shaped the history of the British Isles and beyond from the earliest times to the year 2002.
