Ernst Troeltsch Systematic Theologian Of Radical Historicity:

Ernst Troeltsch Toshimasa Yasukata,1986 Toshimasa Yasukata offers a detailed study and interpretation of the German theologian Ernst Troeltsch discerning a systematic unity in his thought Despite the obvious diversity of his interests and published works Troeltsch is shown to be thoroughly consistent in exploring the possibility of establishing normative values in the face of the relativizing efforts of history In his closing remarks Yasukata suggests the wide ranging significance of Troeltsch s work for the future of theology

The Mystery of God William Stacy Johnson,1997-01-01 This reassessment of the theology of Karl Barth seeks to make Barth relevant for postmoderns through his suggestion that theology is best seen not as a restating of old orthodoxies but as an ongoing response to the divine mystery

Ernst Troeltsch and Comparative Theology Echol Lee Nix,2010 Ernst Troeltsch and Comparative Theology examines the methodological attempts of Ernst Troeltsch and Robert Neville for discerning Christian normativity The investigation of Troeltsch focuses on his treatment of the absoluteness of Christianity and highlights the crisis brought upon absolute religious claims by the study of the history of religions By rejecting both the supernatural exclusive apologetic of orthodox Protestantism and the evolutionary apologetic of liberal Protestantism Troeltsch insists that theology s method should be the history of religions method die religionsgeschichtliche Methode Like Troeltsch Neville agrees with historical inquiries but contrary to Troeltsch Neville advances an axiological hypothesis to thinking which is founded in valuation Neville explains the role of valuation at the imaginative level of thinking and relates it to his theory of normative truth in religious symbols This study shows that Neville begins with Troeltsch s methodological presuppositions but achieves more normative theology than Troeltsch especially on ways in which God is engaged in symbolically shaped thinking and practice Both thinkers offer creative insights for theology that make possible a critical comparison of truth claims regarding the validity of Christianity in and for a historically conscious age

Ernst Troeltsch and Liberal Theology Mark Chapman,2001-11-09 This is the first discussion in English of the ethical implications of German liberal theology in the early years of the twentieth century It avoids pejorative interpretative categories such as culture protestantism seeking instead to understand a much neglected period on its own terms The leading figure Ernst Troeltsch 1865 1923 is treated as a public theologian engaging at many different levels with his social and political context and trying to ensure that religion could continue to shape the future course of history To understand his context he made use of the tools of the emergent discipline of sociology and also entered into dialogue with philosophers and historians Troeltsch s public theology is contrasted with other liberal models of theology particularly those of the New Testament scholar Wilhelm Bousset and the systematic theologian Wilhelm Herrmann who were far more reluctant to engage seriously with their context and as a result isolated religion from its wider social and intellectual setting Troeltsch s theological solution is also compared with Max Weber s sociological response to the problems of modernity Troeltsch s ideas of cultural synthesis are seen as both constructive and critical and as having much to contribute to

contemporary social and political theology **A History of Christian Theology (Repack)** Gerald Bray, 2024-10-29 A Historical Examination of Christian Theology through a Trinitarian Framework Theology is important But so is the story behind the specific doctrines that have been debated defined and refined throughout church history In this book professor Gerald Bray introduces readers to the history of Christian theology the Trinity our doctrine of God and the Bible our knowledge of God Unlike other books on the topic Bray s volume is not organized primarily by time period or distinct doctrinal categories Rather it puts theology first and history second following a Trinitarian pattern that begins with God the Father moves on to God the Son and ends with God the Holy Spirit This unique approach offers readers a more holistic understanding of the development of theology paralleling the order in which the church wrestled through challenging theological issues and controversies related to God man and salvation Accessible Aimed at non specialists not just the academic community Unique Organization Uses a Trinitarian framework to provide a more holistic understanding of the development of theology Historical Explores the Jewish background behind the development of Christian theology Written by Gerald Bray An internationally renowned historian and theologian Replaces ISBN 978 1 4335 2694 7 **The Sociology of Mennonites, Hutterites and Amish** Donovan E. Nelson Jennings, 2005 Japanese Christian leader Takakura Tokutaro 1885 1934 is the focus of this exhaustive historical and theological study Takakura s life spanned a critical period in developing Japan a new member of the modern family of nations At the age of 21 through the preaching of the immensely influential church leader Uemura Masahisa Takakura converted to the Christian faith He later spent over two years in the West reading extensively in British and German theology Takakura thus faced the challenge of absorbing numerous lines of influence and re articulating the Christian faith within his own generation s distinctly Japanese linguistic and religio cultural context His personal religious experience was a microcosm of the universalization of Christian theology during the nineteenth and twentieth centuries Despite having played important leadership roles within the Protestant Church in Japan during the 1920s and early 1930s Takakura s name is scarcely known outside limited Japanese theological circles This study lends recognition to his influential role in the Christian Church It also utilizes Takakura s example to provide further insight into the universalizing trend in Christian thought that continues even today **The Expert's Historian** Leonard S. Smith, 2017-03-23 As we hoped Hintze s further development made him one of the great ones in the discipline To be sure he was one of those who was only known in the circle of experts like a very high mountain in a mountain range which one first noticed from the vantage point of a high pass Friedrich Meinecke 1941 translated by Leonard S Smith What we call historicism is a new unique categorical structure of the mind des Geistes that began to arise in the West in the eighteenth century and achieved authoritative currency in the nineteenth particularly in Germany though not in Germany alone It is characterized by the categories of individuality and development which postulate a view of historical reality based on the

analogy of the life unit *Lebenseinheit* and the life process *Lebensprozess* Otto Hintze 1927 translated by Leonard S Smith If Hintze could be included as he should be as one of the great ones in the discipline in historiography classes throughout the United States this could greatly widen the circle of experts in this and other English speaking countries and or encourage history teachers to lead students to reach the vantage point of a high pass where they could see this very high mountain for themselves Leonard S Smith 2012

Uniting History and Theology Seth Heringer, 2018-06-04 Uniting History and Theology argues that for too long Christians primarily have used the historical method to make historical claims In doing so they have used a method grounded in an incomplete understating of German historicism thereby closing off investigation of the past from the aesthetic and God The author contends that Martin K hler Wolfhart Pannenberg and N T Wright have been unsuccessful in their attempts to unify history and theology because they have not yet rejected the historical method as the primary way to think about past events Unsatisfied with the various mixtures of history and theology the volume looks to the contemporary philosophy of history for new approaches After having examined these approaches and their critiques of the current historical method the work proposes that an intentionally Christian method is needed Setting out five cairns that mark the path forward for such a method the author argues that narratives must be taken seriously objectivity and neutrality do not exist in historical accounts historians must find ways to unite the past present and future aesthetics should be used to judge historical narratives and Christians should write boldly Christian history

Christ, History and Apocalyptic Nathan R. Kerr, 2008-10-13 This book offers a comprehensive reflection on what it means that Christians claim that Jesus is Lord by engaging in a defense of Christian apocalyptic as the criterion for evaluating the truth of history and of history's relation to the transcendent political reality that theology calls the Kingdom of God The heart of this work comprises an original genealogical analysis of twentieth century theological encounters with the modern historicist problematic through a series of critical engagements with the work of Ernst Troeltsch Karl Barth Stanley Hauerwas and John Howard Yoder Bringing these thinkers into conversation at key points with the work of Walter Benjamin Carl Schmitt John Milbank and Michel de Certeau among others this genealogy analyzes and exposes the ideologically Constantinian assumptions shared by both modern liberal and contemporary post liberal accounts of Christian politics and mission On the basis of a rereading of John Howard Yoder's place within this genealogy the author outlines an alternative apocalyptic historicism which conceives the work of Christian politics as a mode of subversive missionary encounter between church and world The result is a profoundly original vision of history that at once calls for and is empowered by a Christian apocalyptic politics in which the ideologically reductionist concerns for political effectiveness and productivity are surpassed by way of a missionary praxis of subversion and liberation rooted in liturgy and doxology

Theology in a Global Context Hans Schwarz, 2005-11 In this book Hans Schwarz leads us into the web of Christian theology's recent past from Kant and Schleiermacher to Mbiti and Zizoulas pointing out all the theologians of the last two hundred years who have had a major impact beyond their own context With an

eye to the blending of theology and biography Schwarz draws the lines of connection between theologians their history and wider theological movements Publisher Philosophical Historicism and the Betrayal of First Philosophy Carl

To See History Doxologically J. Alexander Sider,2011-04-12 In the minds of many Christians today the church is not holy it is difficult Yet J Alexander Sider argues that it is precisely when the church acknowledges its many faults and frailties when it patiently confronts its own capacity to betray the gospel that its true holiness is made manifest In *To See History Doxologically* Sider probingly examines John Howard Yoder s eschatology and ecclesiology in conversation with Oliver O Donovan Ernst Troeltsch Miroslav Volf and others Sider shows how Yoder s thought redefines the church s holiness not as something earned or possessed by its own virtue but as the ceaseless and ever new gift of God throughout all time

Historicism and Its Problems Ernst Troeltsch,2024 In this volume Ernst Troeltsch embraces historical relativity while rejecting historical relativism and thereby provides a model for the philosophy of history The volume remains as relevant as it was in 1923 Christology From Within and Ahead Mark Chan,2021-10-01 Troeltsch s struggle with historicism sets the stage for a proposal that Christology be done from within and from ahead Gadamer s philosophical hermeneutics and Schleiermacher s experiential theology inform a Christology from within that is rooted in tradition and experience while Pannenberg s notion of proleptic eschatological fulfilment serves as resource for a Christology from ahead This volume develops a hermeneutical Christology that takes into account the historical contingency of knowledge and seeks a Christology beyond the objectivism of timeless truth and the relativism of absolutised contextuality The book is concluded with an examination of the convergence of critical traditionality experiential appropriation and eschatological prolepsis in the Christology of the apostle Paul The author explores how Christology might respond to the scandal of universality in postmodernity without defaulting on its claim to transcontextual referentiality *Law and Protestantism* John

Witte,2002-05-16 The Lutheran Reformation of the early sixteenth century brought about immense and far reaching change in the structures of both church and state and in both religious and secular ideas This book investigates the relationship between the law and religious ideology in Luther s Germany showing how they developed in response to the momentum of Lutheran teachings and influence Profound changes in the areas of education politics and marriage were to have long lasting effects on the Protestant world inscribed in the legal systems inherited from that period John Witte Jr argues that it is not enough to understand the Reformation either in theological or in legal terms alone but that a perspective is required which takes proper account of both His book should be essential reading for scholars and students of church history legal history

Reformation history and in adjacent areas such as theology ethics the law and history of ideas **Lessing's Philosophy of Religion and the German Enlightenment** Toshimasa Yasukata,2002-01-31 Despite his well recognized importance in the history of thought Lessing as theologian or philosopher of religion remains an enigmatic figure Through intensive study of the entire corpus of Lessing s philosophical and theological writings as well as the extensive secondary literature Yasukata reveals a fresh image of Lessing as a creative modern mind who is both shaped by and gives shape to the Christian heritage

Against False Apologetics Brent W. Sockness,1998 Brent W Sockness takes as his point of departure the judgment frequently encountered in twentieth century theological literature that the last great German liberal Protestant systematic theologians prior to the rise of dialectical theology Wilhelm Herrmann 1846 1922 and Ernst Troeltsch 1865 1923 represent antithetical and paradigmatic alternatives in modern Christian theology Going beyond the usual explanations which invoke abstract allegiances Kant vs Schleiermacher Marburg vs Heidelberg neo Kantianism Ritschlianism vs the History of Religions School the author undertakes an exhaustive analysis of the nearly thirty years of mutual commentary critique and polemic which transpired between Herrmann and Troeltsch in both published and unpublished sources Sockness charts the contours of their relations from their first encounters among the Friends of the Christian World through their increasingly hostile exchanges in the first decade of the century to their personal reconciliation after the War BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved
