Eroica Novel About Beethoven:

Eroica Samuel Chotzinoff,1930 Eroica Carl von Pidoll,1957 The last 25 years of Beethoven s life as told through the diary of an intimate friend *The Biography Book* Daniel S. Burt,2001-02-28 From Marilyn to Mussolini people captivate people A E s Biography best selling autobiographies and biographical novels testify to the popularity of the genre But where does one begin Collected here are descriptions and evaluations of over 10 000 biographical works including books of fact and fiction biographies for young readers and documentaries and movies all based on the lives of over 500 historical figures from scientists and writers to political and military leaders to artists and musicians Each entry includes a brief profile autobiographical and primary sources and recommended works Short reviews describe the pertinent biographical works and offer insight into the qualities and special features of each title helping readers to find the best biographical material available on hundreds of fascinating individuals Galdós and Beethoven Vernon A. Chamberlin,1977 *Beethoven the Creator* Romain Rolland,1929 **Music in the Words: Musical Form and Counterpoint in the Twentieth-Century Novel** Alan Shockley,2017-07-05 There is a strong tradition of literary analyses of the musical artwork Simply put all musicology any writing about music is an attempt at making analogies between what happens within the world of sound and language itself This study considers this analogy from the opposite perspective authors attempting to structure words using musical forms and techniques It s a viewpoint much more rarely explored and none of the extant studies of novelists musical techniques have been done by musicians Can a novel follow the form of a symphony and still succeed as a novel Can musical counterpoint be mimicked by words on a page Alan Shockley begins looking for answers by examining music s appeal for novelists and then explores two brief works a prose fugue by Douglas Hofstadter and a short story by Anthony Burgess modeled after a Mozart symphony Analyses of three large emblematic attempts at musical writing follow The much debated Sirens episode of James Joyce s *Ulysses* which the author famously likened to a fugue Burgess largely ignored *Napoleon Symphony A Novel in Four Movements* patterned on Beethoven s *Eroica* and Joyce s *Finnegans Wake* which Shockley examines as an attempt at composing a fully musicalized language After these three larger analyses Shockley discusses two quite recent brief novels William Gaddis novella *Agap gape* and David Markson s *This is not a novel* proposing that each of these confounding texts coheres elegantly when viewed as a musically structured work From the perspective of a composer Shockley offers the reader fresh tools for approaching these dense and often daunting texts The Changing Image of Beethoven Alessandra Comini,2008 In this unique study of the myth making process across two centuries Comini examines the contradictory imagery of Beethoven in contemporary verbal accounts and in some 200 paintings prints sculptures and monuments **The Lanny Budd Novels Volume One** Upton Sinclair,2016-06-28 Upton Sinclair s Pulitzer Prize winning series of historical novels brings the first half of the twentieth century dramatically to life In *World s End* the gathering storm clouds of World War I burst over Europe forcing Lanning Lanny Budd the young son of an American arms dealer to put the

innocence of youth behind him his language skills and talent for decoding messages are in high demand At his father's side Lanny meets many important political and military figures learns about the myriad causes of the conflict and closely follows the war's progress When the bloody hostilities conclude Lanny joins the Paris Peace Conference as the assistant to a geographer asked by President Woodrow Wilson to redraw the map of Europe From the rise of Fascism in Europe to the stock market crash on Wall Street *Between Two Worlds* captures the drama intrigue and excitement of the Roaring Twenties At the start of his career as an international art dealer Lanny travels to Italy and witnesses the brutal charisma of Benito Mussolini Meanwhile in Germany the failed Beer Hall Putsch led by Adolf Hitler's Nazi Party strikes an ominous note foreshadowing the devastation to come After two star-crossed love affairs Lanny marries a wealthy heiress and chooses the United States with its booming economy as their home But neither he nor those he loves can predict the financial disaster that will bring a decade of prosperity to an abrupt close Winner of the 1943 Pulitzer Prize for Fiction *Dragon's Teeth* brilliantly captures the nightmarish march toward the Second World War In Germany to visit relatives Lanny encounters a disturbing atmosphere of hatred and jingoism stoked by the Nazi Party and meets the group's fanatical leader Adolf Hitler But Lanny's gravest fear is the threat to his Jewish friends and family a threat that impels him to risk his wealth his future and even his life in a courageous attempt to rescue his loved ones from a terrible fate An astonishing mix of history adventure and romance the Lanny Budd Novels are a testament to the breathtaking scope of Upton Sinclair's vision and his singular talents as a storyteller *Eroica* Carl von Pidoll,1956 *Commonweal* ,1929 **Beethoven's Chamber Music in**

Context Angus Watson,2012 A noted violinist and conductor Watson is particularly well suited for his chosen task outlining the historical context and character of more than 50 of the chamber works that Beethoven composed during his years in Vienna Avoiding the pitfalls of becoming too critical or academic the author characterizes each composition in general terms only and does not discuss changing styles of performance Instead Watson provides information on a work's historical background and character and on the musical points of interest in each movement He pays special attention to the influence of Beethoven's large-scale compositions on his chamber music and on the composer's increasing mastery of improvisation Filling a hole in scholarship on Beethoven's compositions this book will be greatly appreciated by professional and amateur musicians **Beethoven's Concertos** Leon Plantinga,1999 Accompanied by a booklet of music examples 108 p ill 21 cm

Beethoven Michael Spitzer,2017-07-05 Our image of Beethoven has been transformed by the research generated by a succession of scholars and theorists who blazed new trails from the 1960s onwards This collection of articles written by leading Beethoven scholars brings together strands of this mainly Anglo-American research over the last fifty years and addresses a range of key issues The volume places Beethoven scholarship within a historical and contemporary context and considers the future of Beethoven studies **Beethoven's Symphonies** Martin Geck,2017-05-01 In the years spanning from 1800 to 1824 Ludwig van Beethoven completed nine symphonies now considered among the greatest masterpieces of

Western music Yet despite the fact that this time period located in the wake of the Enlightenment and at the peak of romanticism was one of rich intellectual exploration and social change the influence of such threads of thought on Beethoven's work has until now remained hidden beneath the surface of the notes Beethoven's Symphonies presents a fresh look at the great composer's approach and the ideas that moved him offering a lively account of the major themes unifying his radically diverse output Martin Geck opens the book with an enthralling series of cultural political and musical motifs that run throughout the symphonies A leading theme is Beethoven's intense intellectual and emotional engagement with the figure of Napoleon an engagement that survived even Beethoven's disappointment with Napoleon's decision to be crowned emperor in 1804 Geck also delves into the unique ways in which Beethoven approached beginnings and finales in his symphonies as well as his innovative use of particular instruments He then turns to the individual symphonies tracing elements a pitch a chord a musical theme that offer a new way of thinking about each work and will make even the most devoted fans of Beethoven admire the symphonies anew Offering refreshingly inventive readings of the work of one of history's greatest composers this book shapes a fascinating picture of the symphonies as a cohesive oeuvre and of Beethoven as a master symphonist

Moonlighting Nathan Waddell, 2019-06-27 How and why did the life and music of Ludwig van Beethoven 1770-1827 matter to experimental writers in the early twentieth century Previous answers to this question have tended to focus on structural analogies between musical works and literary texts charting the many different ways in which poetry and prose resemble Beethoven's compositions This book takes a different approach It focuses on how early twentieth century writers chief among them E M Forster Aldous Huxley Wyndham Lewis Dorothy Richardson Rebecca West and Virginia Woolf profited from the representational conventions associated in the nineteenth century and beyond with Beethovenian culture The emphasis of *Moonlighting* falls for the most part on how modernist writers made use of Beethovenian legend It is concerned neither with formal similarities between Beethoven's music and modernist writing nor with the music of Beethoven per se but with certain ways of understanding Beethoven's music which had long before 1900 taken shape as habit myth cliché and fantasy and with the influence they had on experimental writing up to 1930 *Moonlighting* suggests that the modernists drew knowingly and creatively on the conventional It proposes that many of the most experimental works of modernist literature were shaped by a knowing reliance on Beethovenian consensus in short that the literary modernists knew Beethovenian legend when they saw it and that they were eager to use it

The Musical Leader, 1929 *The Avant-Postman* David Vichnar, 2023-11-01 *The Avant Postman* explores a broad range of innovative postwar writing in France Britain and the United States Taking James Joyce's revolution of the word in *Ulysses* and *Finnegans Wake* as a joint starting point David Vichnar draws genealogical lines through the work of more than fifty writers up to the present including Alain Robbe-Grillet B S Johnson William Burroughs Christine Brooke-Rose Georges Perec Kathy Acker Iain Sinclair Hélène Cixous Alan Moore David Foster Wallace and many others Centering the exploration around five writing strategies employed by Joyce narrative

parallax stylistic metempsychosis concrete writing forgery and neologising the logos the book reveals the striking continuities and developments from Joyce's day to our own *Emily Brontë and Beethoven* Robert K. Wallace, 2008-08-01

When Emily Brontë was studying music in Brussels in 1842 she was drawn into the city's appreciation of Beethoven. After her exposure to the works of the great composer Brontë's creativity flourished and she went on to compose what was to be her only novel *Wuthering Heights*. In *Emily Brontë and Beethoven* Robert K. Wallace continues to work from the perspective he developed in his *Jane Austen and Mozart* integrating two fields that have traditionally been kept apart. Wallace compares Brontë and Beethoven through a close examination of the Romantic traits that their works share. Innovative and stimulating, Wallace's study extends literary criticism into a new context where equilibrium, balance, proportion and symmetry serve as a fulcrum to launch the reader into a new understanding of the formal parallels, the moods and emotions that connect music and literature.

The Beethoven Quartets Joseph Kerman, 1979 A critical study of the structure, style and significance of the sixteen string quartets **Saturday Review of Literature**, 1927
