**Eros and Modernization** Jayme A. Sokolow, 1983 Examining the social and intellectual changes that produced a Victorian attitude toward sexuality in America this book focuses on a loose alliance of reformers who fearing disorder and the weakening of traditional institutions advocated better health habits and stricter sexual morality The Early Republic and Antebellum America Christopher G. Bates, 2015-04-08 First Published in 2015 Routledge is an imprint of Taylor Francis an Informa company *Female Adolescence in American Scientific Thought, 1830-1930* Crista DeLuzio, 2007-09-23 In this groundbreaking study Crista DeLuzio asks how scientific experts conceptualized female adolescence in the nineteenth and early twentieth centuries Revisiting figures like G Stanley Hall and Margaret Mead and casting her net across the disciplines of biology psychology and anthropology DeLuzio examines the process by which youthful femininity in America became a contested cultural category Challenging accepted views that professionals invented adolescence during this period to understand the typical experiences of white middle class boys DeLuzio shows how early attempts to reconcile that conceptual category with femininity not only shaped the social science of young women but also forced child development experts and others to reconsider the idea of adolescence itself DeLuzio's provocative work permits a fuller understanding of how adolescence emerged as a crisis in female development and offers insight into why female adolescence remains a social and cultural preoccupation even today *American Appetites* Jennifer Jensen Wallach, Lindsey R. Wilkie, 2021-09-01 According to the accounts of two white officers on the evening of November 20 1872 Corporal Daniel Talliaferro of the segregated Black 9th cavalry was shot to death by an officer's wife while attempting to break into her sleeping apartment at the military post of Fort Davis Texas Historians writing about Black soldiers serving in the West have long accepted the account without question retelling the story of Daniel Talliaferro the thwarted rapist In *Unburied Lives* Wilkie takes a different approach demonstrating how we can listen to stories found in things neglected ignored or disparaged documents not

consulted architecture not studied material traces preserved in the dirt With a focus on Fort Davis Wilkie brings attention to the Black enlisted men and non commissioned officers In her archaeological accounting Wilkie explores the complexities of post life racialized relationships Black masculinity and citizenship while also exposing the structures and practices of military life that successfully obscured these men s stories for so long

Wallach, 2018-11-13 Jennifer Jensen Wallach's nuanced history of black foodways across the twentieth century challenges traditional narratives of soul food as a singular style of historical African American cuisine Wallach investigates the experiences and diverse convictions of several generations of African American activists ranging from Booker T Washington and W E B Du Bois to Mary Church Terrell Elijah Muhammad and Dick Gregory While differing widely in their approaches to diet and eating they uniformly made the cultivation of proper food habits a significant dimension of their work and their conceptions of racial and national belonging Tracing their quests for literal sustenance brings together the race food and intellectual histories of America Directly linking black political activism to both material and philosophical practices around food Wallach frames black identity as a bodily practice something that conscientious eaters not only thought about but also did through rituals and performances of food preparation consumption and digestion The process of choosing what and how to eat Wallach argues played a crucial role in the project of finding one's place as an individual as an African American and as a citizen **Permission to Remain Among Us** Cally L. Waite, 2002-12-30 Waite details the history of the community of Oberlin Ohio which demonstrated a commitment to the education of blacks during the antebellum period that was rare at the time By the end of Reconstruction however black students at Oberlin were becoming segregated and events at the college influenced the rest of the community with neighborhoods houses of worship and social interaction becoming segregated Waite suggests that Oberlin's history mirrors the story of race in America The decision to admit black students to Oberlin College and offer them the same curriculum as their white classmates challenged the notion of black intellectual inferiority that prevailed during the antebellum period Following the model of the college the public schools of Oberlin were integrated in direct opposition to state laws that forbade the education of black children with public funds However after Reconstruction 1877 the nation tried to negotiate the future of a newly freed and barely educated people In Oberlin this change was evidenced by the gradual segregation of black students at the college In the community newly segregated neighborhoods houses of worship and social interaction took hold in the former interracial utopia The country looked to Oberlin as a model for integrated education at the end of the 19th century only to find that it too had succumbed to segregation This study examines why and focuses on the intersection of three national issues the growth of the black church increased racism and

discrimination and the transformation of higher education
