Thomas Mann and Friedrich Nietzsche Caroline Joan (Kay) S. Picart, 2022-07-11 Traditional interpretations of Thomas Mann's relation to Nietzsche's writings plot out a simple relation of earlier adulation and later rejection The book argues that Mann's disavowal of Nietzsche's influence was in the words of T J Reed a necessary political act when the repudiation of Nietzsche's more hysterical doctrines required such a response Using a genealogical method the book traces how Mann labors ambivalently under the shadow of Nietzsche's writings on his own political artistry through a detailed analysis of Mann's *Death in Venice* *Dr Faustus* the Joseph tetralogy and *Confessions of Felix Krull* Confidence Man Using the recurring Nietzschean themes of eroticism death music and laughter as a guide it arrives at a rough picture of how Mann both takes up and discontinues Nietzsche's poetic heritage The book derives the vision of the interrelationships binding these four leitmotiv elements from Durer's magic square as depicted in *Melancholia I* The link with Durer is far from arbitrary because Mann directly aligned Nietzschean insight with Durer's world of passion sympathy with suffering the macabre stench of rotting flesh and Faustian melancholy

Laws of Inheritance Elizabeth Brodersen, 2015-08-14 Instilled in interdisciplinary cross cultural perspectives of mythical socio economic literary pedagogic

and psychoanalytic representations two archetypal creative inheritance laws interact as twins Eros fusion containment safety and Thanatos division separation risk Hypothesising these twin laws as matrilineal Eros and patrilineal Thanatos this book explores why cross cultural forms including gender traits are not fixed but are instead influenced by earlier flexible matrilineal forms Through a study of twins on macro and micro levels Elizabeth Brodersen argues that a psychological twin dilemma is implicit in inheritance laws and offers a unique forum to show how each law competes for primacy as the first and other Chapters begin by looking at twins in creation myths and the historical background to the laws of inheritance as well as literary representations The book then moves on to the developmental structures imbued in twin research and educational systems to explore how past cultural forms have been re defined to fit a modern landscape and the subsequent movement away from the importance of patrilineal primogeniture Laws of Inheritance will be of key value to academics researchers and postgraduate students in the fields of psychoanalysis psychotherapy archetypal theory cross cultural depth psychology cultural anthropology sociology gender studies and twin research The book will also be of interest to practicing psychoanalysts and psychotherapists

Life and Death in Freud and Heidegger Havi Carel, 2006-01-01 Life and Death in Freud and Heidegger argues that mortality is a fundamental structuring element in human life. The ordinary view of life and death regards them as dichotomous and separate. This book explains why this view is unsatisfactory and presents a new model of the relationship between life and death that sees them as interlinked. Using Heidegger's concept of being towards death and Freud's notion of the death drive, it demonstrates the extensive influence death has on everyday life and gives an account of its structural and existential significance. By bringing the two perspectives together, this book presents a reading of death that establishes its significance for life, creates a meeting point for philosophical and psychoanalytical perspectives, and examines the problems and strengths of each. It then puts forth a unified view based on the strengths of each position and overcoming the problems of each. Finally, it works out the ethical consequences of this view. This volume is of interest for philosophers, mental health practitioners, and those working in the field of death studies.

Marcuse Jacob McNulty, 2024-11-14 Herbert Marcuse (1898-1979) is known to many as a leading figure of 1960s counterculture and a Guru of the New Left. However, the deeper philosophical background to Marcuse's thought is often forgotten, especially his significant engagement with German idealism, ancient philosophy, and a broad spectrum of problems and issues from the philosophical tradition. This much-needed book introduces and assesses Marcuse's philosophy and is ideal for those coming to his work for the first time. Jacob McNulty covers the following topics: Marcuse's life and the background to his thought, including his formative period as a student of Husserl and Heidegger and as a philosopher in Horkheimer's Institute; Marcuse's recasting of metaphysics in light of Marxian and Freudian thought; Marcuse and German idealism, especially the role of Kant and Hegel; Marcuse's philosophy of human nature, his use of the late Freud's ideas of Eros and Thanatos; Marcuse as a critic of state and monopoly capitalism; Meaning, propaganda, and ideology; the political implications of language; and also the centrality of free speech; Marcuse's aesthetics; Marcuse's legacy and his relationship to contemporary analytical philosophy, especially analytic critical theory. An outstanding and engaging introduction to a central figure in twentieth-century radical thought, Marcuse is essential reading for those in philosophy and related disciplines, including political theory, sociology, and media and communication studies.

Philosophy in the Condition of Modernism Ana Falcato, Antonio Cardiello, 2018-05-03 Produced on the fringes of philosophy and literary criticism, this book is a pioneering study which aims to explicitly address and thematize what may be called a critical philosophy in the condition of modernism. Its most important and original contribution to both disciplines is a self-conscious reflection on possible modes of writing philosophy today and a systematic comparison with what happened in literary modernism at the beginning of the twentieth century. The volume is divided into six sections where internationally renowned scholars discuss such pressing topics as the role of an unreliable narrator in a major philosophical treatise, the different mediums of art production, and how these impact on our perception of the Work itself, the role of narrative in animal ethics, and the filmic

adaption of a Modernist classic *The Castration of Oedipus* Joseph C. Smith, Carla J. Ferstman, 1996-03-01 The intellectual movements of psychoanalysis postmodernism and feminism have redefined the ways in which we think about human experience And yet an integration of these movements has been elusive if not impossible In this landmark book J C Smith and Carla J Ferstman combine these disparate traditions to create a provocative unified and tightly woven perspective that transcends the misogyny implicit in much of Freudian psychoanalytic theory The dialectics of domination and submission are central to Smith and Ferstman s argument Men and women they insist must avoid the temptation to fetishize equality and recognize the roles of domination and submission in the human psyche or in Nietzsche s terms the Will to Power They argue that the unification of psychoanalysis postmodernism and feminism leads us to a shocking conclusion that women and men cannot move beyond the suffering which so haunts the human condition unless heterosexual men surrender the power that is causing their misery and affirm life by joyfully accepting domination by women And women conversely must reaffirm their power by rejecting Oedipal genderization and embracing a liberating matriarchal consciousness and a matriphallic sexuality A work of tremendous insight and extraordinary intellectual energy *The Castration of Oedipus* will provoke strong reactions in all readers regardless of ideology

Walter Benjamin's *Other History* Beatrice Hanssen, 2000-12-04 In this study Beatrice Hanssen unlocks the philosophical and ethical dimensions of the Trauerspiel study showing how its thematics persisted well into the later writings of the thirties For by introducing the materialistic category of natural history in *The Origin of German Tragic Drama* Benjamin not only criticized idealistic conceptions of history writing but also expressed an ethico theological call for another kind of history one no longer anthropocentric in nature This profound critique of historical thinking Hanssen shows went hand in hand with a radical de limitation of the human subject informed by his interest in questions about ethics the law and justice Through an analysis of the seemingly innocuous figures of stones animals and angels that are scattered throughout his writings Hanssen reconstructs the often neglected ethical dimension of his historical thought In the course of doing so she not only places Benjamin s work in the context of contemporaries such as Adorno Cohen Lukacs Kafka Kraus and Heidegger but also demonstrates the persistence of Benjaminian themes in contemporary philosophy and critical theory

Reading Lacan Jane Gallop, 2018-08-06 The influence of the French psychoanalyst Jacques Lacan has extended into nearly every field of the humanities and social sciences from literature and film studies to anthropology and social work yet Lacan s major text *Ecrits* continues to perplex and even baffle its readers In *Reading Lacan* Jane Gallop offers a novel approach to Lacan s work based on his own theories of language Lacan locates truth in the letter rather than in the spirit in the ways statements are expressed rather than in their intended meaning Gallop here grapples with six of Lacan s essays from *Ecrits* *The Seminar* *On The Purloined Letter* *The Mirror Stage* *The Freudian Thing* *The Agency of the Letter in the Unconscious* *The Signification of the Phallus* and *The Subversion of the Subject* While other commentators have chosen not to confront Lacan s notoriously problematic style in their discussions of his ideas Gallop addresses herself directly to the

problem and the practice of reading Lacan She takes her direction from Lacan's view of subjectivity and offers a deeply personal feminist reading of *Ecrits* Concentrating on the relation of desire and interpretation she opens up the rich implications of Lacan's thought for psychoanalytic theory for the act of reading and for knowledge itself Forceful and revealing yet utterly candid about its own areas of uncertainty Gallop's book will be indispensable to readers of Lacan and to scholars and students who have felt his impact

Marcuse's Challenge to Education Douglas Kellner, Tyson Lewis, Clayton Pierce, Daniel K. Cho, 2009-01-16 Marcuse's *Challenge to Education* a collection of unpublished lecture notes by the thinker himself as well as essays by scholars who have explicated his theories examines Herbert Marcuse's ground breaking critique of education as well as his own pedagogical alternatives Edited by Douglas Kellner this compilation provides an overview of the various themes of Marcuse's challenges to traditional education and connections with ideas of other radical thinkers ranging from Bloch and Freire to Freud and Lacan

The Erotic in Context, 2020-04-14 This volume was first published by Inter Disciplinary Press in 2010

Walter Benjamin and Theology Colby Dickinson, Stéphane Symons, 2016-05-19 In the Arcades Project Walter Benjamin writes that his work is related to theology as blotting pad is related to ink It is saturated with it For a thinker so decisive to critical literary cultural political and aesthetic writings over the past half century Benjamin's relationship to theological matters has been less observed than it should even despite a variety of attempts over the last four decades to illuminate the theological elements latent within his eclectic and occasional writings Such attempts though undeniably crucial to comprehending his thought remain in need of deepened systematic analysis In bringing together some of the most renowned experts from both sides of the Atlantic *Walter Benjamin and Theology* seeks to establish a new site from which to address both the issue of Benjamin's relationship with theology and all the crucial aspects that Benjamin himself grappled with when addressing the field and operations of theological inquiry
