## EROS AT ZENITH

Mike Resnick

The future belongs to the stars. Science fiction is the place. Science is a hard line. But there are a lot of things that matter. It is an inner place of love and death. It is a world where there is no end, and no one to see the world as it is. It is a world where there is no end, and no one to see the world as it is. It is a world where there is no end, and no one to see the world as it is.

And there are many more. It is a world where there is no end, and no one to see the world as it is. It is a world where there is no end, and no one to see the world as it is.

The first part of the story is a tale of a man who has been the world's greatest scientist. He is a man who has been the world's greatest scientist. He is a man who has been the world's greatest scientist.

And there are many more. It is a world where there is no end, and no one to see the world as it is. It is a world where there is no end, and no one to see the world as it is.

The story is a tale of a man who has been the world's greatest scientist. He is a man who has been the world's greatest scientist. He is a man who has been the world's greatest scientist.

And there are many more. It is a world where there is no end, and no one to see the world as it is. It is a world where there is no end, and no one to see the world as it is.
