Suicide Persecuted by Anthony Comstock and his Society for the Suppression of Vice this turn of the century heroine was  
also a spiritualist who learned many secrets of high magick through her claimed wedlock to an angelic being Born in  
Philadelphia in 1857 Ida Craddock became involved in occultism around the age of thirty She attended classes at the  
Theosophical Society and began studying a tremendous amount of materials on various occult subjects She taught  
correspondence courses to women and newly married couples to educate them on the sacred nature of sex maintaining that  
her explicit knowledge came from her nightly experiences with an angel named Soph In 1902 she was arrested under New  
York s anti obscenity laws and committed suicide to avoid life in an asylum Now for the first time scholar Vere Chappell has  
compiled the most extensive collection of Craddock s work including original essays diary excerpts and suicide letters one to

of the Renaissance explores political literary social religious medical and artistic events between 1300 and 1670 that led  
beyond the bounds of reason into the nonrational irrational and suprarational phenomena of the European Renaissance  
Robert S Kinsman s introduction examines Renaissance uses of ratio fancy and folly melancholy anxietas and alienation Lynn  
White Jr presents the essential thesis of the collection in his view that the years 1300 1650 constituted one of the most  
psychically disturbed eras ever in European history The world alienation of the period is analyzed by Donald R Howard  
illustrated by two poems of the late fourteenth century Gawain and the Green Knight and Toilus and Criseyde The flourishing  
of hermetic magical cabalistic and astrological practices in the Renaissance is described by John G Burke The gentleman and  
courtier s physical and psychological tensions resulting from literal exile or from psychic alienation from his lesser fellows  
are investigated by Lauro Martines An analysis of the structures of Renaissance mysticism is provided by Kees W Bolle  
Gilbert Reaney s essay examines ratio as the basis for the measured music of the fourteenth century against which the newer  
duple and triple rhythms that came into prominence in the later half of the century were assessed An essay by Marc  
Bensimon concerns itself with Renaissance modes of perception as illustrated in works of art of literature and of philosophic  
speculation that seem shaped by primordial anxieties caused by the passing of time and the fear of death The reflections of  
theological notions about the dreadful hidden will of God in such pieces as Marlowe s Dr Faustus are given full background  
and perceptive treatment by Paul R Sellin Robert Kinsman concludes with his study Folly Melancholy and Madness Shifting  
Styles of Medical Analysis and Treatment 1450 1675 This title is part of UC Press s Voices Revived program which

commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1974      **Planks of Reason** Barry Keith Grant, Christopher Sharrett, 2004-09-24 The original edition of *Planks of Reason* was the first academic critical anthology on horror In retrospect it appeared as a kind of homage to the golden age of the American horror film as this genre played an increasing role in film culture and American life The original material represented the history of the genre through the early 1980s and is a crucial part of the book's value then and now The first edition helped legitimize academic writing on the horror genre by addressing breakthrough works of such directors as John Carpenter Tobe Hooper George Romero David Cronenberg and Wes Craven This revised edition retains the spirit of the original but also offers new takes on rediscovered classics and recent developments in the genre In addition to reprinting 17 essays including Robin Wood's *An Introduction to the American Horror Film* this revised edition features a new essay on the yuppie horror film by editor Barry Keith Grant as well as an updated analysis of *The Texas Chainsaw Massacre* by co editor Christopher Sharrett Other new essays focus on William Castle's *The Tingler* and Roger Corman's *Pit and the Pendulum* and the recent wave of Japanese horror films Contains more than 60 photos      **Godly Zeal and Furious Rage (RLE Witchcraft)** Geoffrey Quaife, 2012-05-23 Though it is clearly an exceptionally important part of popular culture witchcraft has generated a variety of often contradictory interpretations starting from widely differing premises about the nature of witchcraft its social role and the importance of higher theology as well as more popular beliefs This work offers a conspectus of historical work on witchcraft in Europe and shows how many trends converged to form the figure of the witch and varied from one part of Europe to another      **Sex, Drugs, Death, and the Law** David A. J. Richards, 1986 Among the most commonly argued legal questions are those involving victimless crimes consensual adult sexual relations including homosexuality and prostitution the use of drugs and the right to die How can they be distinguished from proper crimes and how can we as citizens judge the complex moral and legal issues that such questions entail David Richards a teacher of law in the areas of constitutional and criminal law and a moral and legal philosopher concerned with the investigation of legal concepts applies an interdisciplinary approach to the question of overcriminalization he draws on legal and philosophical arguments and links the subject to history psychology social science and literature To demonstrate how gross and unjust overcriminalization has developed Professor Richards explores basic assumptions that often underlie the common American sense of proper criminalization      **Eros and Magic in the Renaissance** Ioan P. Culianu, 1987-11-15 It is a widespread prejudice of modern scientific society that magic is merely a ludicrous amalgam of recipes and methods derived from primitive and erroneous notions about nature *Eros and Magic in the Renaissance* challenges this view providing an in depth scholarly explanation of the workings of magic and showing that magic continues to exist in an altered form even today Renaissance magic according to Ioan Couliano was a scientifically

plausible attempt to manipulate individuals and groups based on a knowledge of motivations particularly erotic motivations Its key principle was that everyone and in a sense everything could be influenced by appeal to sexual desire In addition the magician relied on a profound knowledge of the art of memory to manipulate the imaginations of his subjects In these respects Couliano suggests magic is the precursor of the modern psychological and sociological sciences and the magician is the distant ancestor of the psychoanalyst and the advertising and publicity agent In the course of his study Couliano examines in detail the ideas of such writers as Giordano Bruno Marsilio Ficino and Pico della Mirandola and illuminates many aspects of Renaissance culture including heresy medicine astrology alchemy courtly love the influence of classical mythology and even the role of fashion in clothing Just as science gives the present age its ruling myth so magic gave a ruling myth to the Renaissance Because magic relied upon the use of images and images were repressed and banned in the Reformation and subsequent history magic was replaced by exact science and modern technology and eventually forgotten Couliano s remarkable scholarship helps us to recover much of its original significance and will interest a wide audience in the humanities and social sciences     Ancient Narrative Volume 1 (2000-2001) ,     *Politics, Ideology, and the Law in Early Modern Europe* Adrianna E. Bakos,1994 This volume celebrates the career of Professor J H M Salmon whose work on the study of early modern Europe enjoys a high reputation world wide Appropriately centred on France the essays make a significant contribution to the study of political life and thought during the ancien regime Proceeding from a variety of vantage points some of the foremost scholars in the field of early modern Europe consider the many ways in which contemporaries in different walks of life expressed their understanding of and participation in the political community using new approaches drawn from cultural history the history of ideologies and a resurgence of interest in the history of institutions Subjects discussed include institutional rivalries and how they complicated efforts to mount opposition to government policies political thought and concepts such as sovereignty conciliarism and dominum and how contemporary understanding of the political order was worked out in a cultural context The volume also suggests new directions for research     *Mattachine Review* ,1963     **Disguised as the Devil** M. M. Drymon,2008 This work began as a history of Lyme disease Looking in the historical records for places where this disease is now endemic the author noted that witch afflictions kept appearing in these same spots What unfolds is a journey of discovery looking back into the forested and deforested landscapes of Europe America s past that were abound with acorns deer pigs along with human societies creating cultural practices that had environmental ramifications Drawing upon the latest in scientific and historical research this study will become essential reading for those interested in controversies surrounding this disease in disguise It also explores the etiology of the witch and tells a compelling tale about the timeless importance of the interaction between humanity and the invisible world of bacteria Provided by publisher     **Woman and the Demon** Nina Auerbach,1982 Analyzes the Victorian conception of both demonic and divine nature of women in Victorian art and literature     **From Texts to Bodies**

Jacqueline Murray, 2025-04-24 *From Texts to Bodies Sexes Genders and Sexualities in Premodern Europe* reflects the historiographical changes to the study of women gender and sexuality in premodern Europe across the 1990s into the 2010s. Developing from post Baby Boom interest in marriage and the family subsequently inspired by feminist theory and cultural studies scholars turned their gaze to the wider field of sex and gender. Using an interdisciplinary methodology and a broad cross section of medieval primary sources these articles trace the evolution of medieval studies from the family through women and gender to focus on sex and sexuality concluding with critical analyses of men masculinity and male embodiment. Part I focuses on medieval women within the context of marriage family and the church and reveals new approaches to recovering women's experiences. The articles sit at the transition point between recuperative women's history and critical gender history. Part II uses an interdisciplinary lens to examine the body sex and sexuality and the intersections of sex sexualities and genders. The innovative articles in Part III comprise the foundations for the critical analysis of premodern men masculinity embodiment and male sexuality. Together these studies demonstrate the expansion of research from the examination of theoretical texts to the analysis of bodies as lived experience. This volume will be of interest to scholars and students of premodern marriage genders sexualities and embodiment as well as those interested in the social and religious contexts of premodern society. Clear and accessible this volume also provides an introduction and overview for readers with a broad interest in the Middle Ages.

**The Magical and Ritual Use of Aphrodisiacs** Richard Alan Miller, 1985-08 The author shows how intent and motivation can be focused to augment the physical effects of aphrodisiacs and suggests rituals drawn from Tantric yoga and Western magic.

**Medieval Sexuality** Joyce E. Salisbury, 2019-01-17 Originally published in 1990. Well annotated bibliographical entries cover works on history religion medicine philosophy law and literature in western Europe from about the third century A.D. through the end of the medieval period. The primary sources are organised thematically and separately from secondary sources. Languages covered include English Spanish Portuguese French German Italian and Latin. The focus is on sexuality and sexual attitudes not on the related topics of marriage and family. Detailed indexes are also included.

**Witchcraft, Madness, Society, and Religion in Early Modern Germany** H.C. Erik Midelfort, 2024-10-28 H.C. Erik Midelfort has carved out a reputation for innovative work on early modern German history with a particular focus on the social history of ideas and religion. This collection pulls together some of his best work on the related subjects of witchcraft the history of madness and psychology demonology exorcism and the social history of religious change in early modern Europe. Several of the pieces reprinted here constitute reviews of recent scholarly literature on their topics while others offer sharp departures from conventional wisdom. A critique of Michel Foucault's view of the history of madness proved both stimulating but irritating to Foucault's most faithful readers so it is reprinted here along with a short retrospective comment by the author. Another focus of this collection is the social history of the Holy Roman Empire where towns peasants and noble families developed different perceptions of the Protestant and Catholic Reformations and of the

options the religious revolutions of the sixteenth century offered Finally this collection also brings together articles which show how Freudian psychoanalysis and academic sociology have filtered and interpreted the history of early modern Germany     **American Sociological Review** ,1936 Includes sections Book reviews and Periodical literature
