Ersatz Nation:

Ersatz America Rebecca Mark, 2014-12-02 From the popular legend of Pocahontas to the Civil War soap opera *Gone with the Wind* to countless sculpted heads of George Washington that adorn homes and museums whole industries have emerged to feed America's addiction to imaginary histories that cover up the often violent acts of building a homogeneous nation In *Ersatz America* Rebecca Mark shows how this four hundred year old obsession with false history has wounded democracy by creating language that is severed from material reality Without the mediating touchstones of body and nature creative representations of our history have been allowed to spin into dangerous abstraction Other scholars have addressed the artificial qualities of the collective American memory but what distinguishes *Ersatz America* is that it does more than simply deconstruct it provides a map for regeneration Mark contends that throughout American history citizen artists have responded to the deadly memorialization of the past with artistic expressions and visual artifacts that exist outside the realm of official language creating a counter narrative These examples of what she calls visceral graphism are embodied in and connected to the human experience of indigenous peoples enslaved Africans and silenced women giving form to the unspeakable We must learn Mark suggests to read the markings of these works against the iconic national myths In doing so we can shift from being mesmerized by the monumentalism of this national mirage to embracing the regeneration and recovery of our human history

Ersatz Capitalism and Industrial Policy in Southeast Asia Fabian Bocek, 2022-05-17 This book applies and develops the concept of ersatz capitalism in the analysis of industrial policy blockades to economic development in Malaysia and Indonesia Drawing on insights from international political economy development studies industrial and innovation policy and new institutionalism to refer to a specific type of capitalism the book analyzes different paths and institutions of economic development within the entire East Asian region Comprehensive theoretical insights are complemented by empirical case studies that relate to country and sectoral studies the automotive and ICT industries in Malaysia and Indonesia Applying contemporary research on international political economy to refer to a specific type of capitalism the author examines how conflicts of interest between factions of state apparatus associations and companies contribute to the failure of developmental policies The unique combination of theory formation and empirical analysis provides a novel approach to international comparative research on capitalism The book will be of interest to researchers in the fields of international political economy development studies new institutionalism East Asian and Southeast Asian studies and industrial and innovation policy

Vagabonding Through Changing Germany Harry Alverson Franck, 1920 *Scattered and Gathered* Michael L. Budde, 2017-09-15 This volume takes its title from the first century Christian catechism called the Didache Even as this broken bread was scattered over the hills gathered together and became one so let Your Church be gathered together from the ends of the earth For Christians today these words remain relevant in an era of massive human movements voluntary and coerced hybrid identities and wide ranging cultural interactions How do modern Christians live as

both a scattered and gathered people How do they live out the tension between ecclesial universality catholicity and particularity distinctive ways of being church in a given culture and context Do Christians today constitute a diaspora a people dispersed across borders and cultures that nonetheless maintains a sense of commonality and mission Scattered and Gathered Catholics in Diaspora explores these questions through the work of fourteen scholars in different fields and from different corners of the world Whether through reflections on Zimbabweans in Britain Levantines in North America or the remote island people of Chiloe now living in other parts of Chile they guide readers along the winding road of insights and challenges facing many of today s Christians *Freedom North* J. Theoharis, K. Woodard, 2016-03-05 The civil rights movement occupies a prominent place in popular thinking and scholarly work on post 1945 U S history Yet the dominant narrative of the movement remains that of a nonviolent movement born in the South during the 1950s that emerged triumphant in the early 1960s only to be derailed by the twin forces of Black Power and white backlash when it sought to move outside the South after 1965 African American protest and political movements outside the South appear as ancillary and subsequent to the real movement in the South despite the fact that black activism existed in the North Midwest and West in the 1940s and persisted well into the 1970s This book brings together new scholarship on black social movements outside the South to rethink the civil rights narrative and the place of race in recent history Each chapter focuses on a different location and movement outside the South revealing distinctive forms of U S racism according to place and the varieties of tactics and ideologies that community members used to attack these inequalities to show that the civil rights movement was indeed a national movement for racial justice and liberation *Travelers in the Third Reich* Julia Boyd, 2018-08-07 *Travelers in the Third Reich* is an extraordinary history of the rise of the Nazis based on fascinating first hand accounts drawing together a multitude of voices and stories including politicians musicians diplomats schoolchildren communists scholars athletes poets fascists artists tourists and even celebrities like Charles Lindbergh and Samuel Beckett Their experiences create a remarkable three dimensional picture of Germany under Hitler one so palpable that the reader will feel hear even breathe the atmosphere These are the accidental eyewitnesses to history Disturbing absurd moving and ranging from the deeply trivial to the deeply tragic their tales give a fresh insight into the complexities of the Third Reich its paradoxes and its ultimate destruction *Off the Main Sequence* Tom Easton, 2006-10-01 Tom Easton has served as the monthly book review columnist for Analog Science Fiction for almost three decades having contributed during that span many hundreds of columns and over a million words of penetrating criticism on the best literature that science fiction has to offer His reviews have been celebrated for their wit humor readability knowledge and incisiveness His love of literature particularly fantastic literature is everywhere evident in his essays Easton has ever been willing to cover small presses obscure authors and unusual publications being the only major critic in the field to do so on a regular basis He seems to delight in finding the rare gem among the backwaters of the publishing field A reviewer s job he says is not to judge books for the ages but to tell

readers enough about a book to give them some idea of whether they would enjoy it And this he does admirably whether he is discussing the works of the great writers in the field or touching upon the least amongst them This companion volume to Periodic Stars Borgo Wildside collects another 250 of Easton's best reviews from the last fifteen years of The Reference Library No one does it better and no other guide provides such lengthy or discerning commentary on the best SF works of recent times Complete with Introduction and detailed Index Organized Crime Antonio Nicaso, Marcel Danesi, 2025-08-14 This book aims to describe and demystify what makes organized criminal groups so culturally powerful It examines their codes of conduct initiation rites secret communication methods origin myths symbols and lifestyles that imbue them with the pride and nonchalance that go hand in hand with their criminal activities Mobsters are everywhere in the movies on television on websites and now in the Metaverse Contemporary societies across the globe are fascinated by them Why is this so What features and constituents of organized criminal gangs make them so emotionally powerful to themselves and others These are the questions that have guided the writing of the second edition of this textbook which is intended as an introduction to organized crime from the angle of cultural analysis Key topics included in this new edition An historic overview of organized crime including the social economic and cultural conditions that favor its development A description and character analysis of the type of people who make up organized criminal groups and the activities in which they engage The symbols rituals codes and languages that characterize criminal institutions The relationship between traditional organized crime cybercrime and evolving forms of crime on the Dark Web and in the Metaverse The traditional and changing roles of women in organized crime The transnational operations of criminal groups Media portrayals of organized crime Policing responses to organized crime The use of technologies by the organized criminal groups This new edition includes case studies and offers an accessible interdisciplinary approach to the subject of organized crime It is essential reading for students engaged with organized crime across criminology sociology anthropology and psychology **Material Modernity** Deborah Ascher Barnstone, Maria Makela, 2022-01-27 Material Modernity explores creative innovation in German art design and architecture during the Weimar Republic charting both the rise of new media and the re-fashioning of old media Weimar became famous for the explosion of creative ingenuity across the arts in Germany due to experiments with new techniques including the move towards abstraction in painting and sculpture and inventive work in such new media as paper and plastic which utilized both new and old methods of art production Individual chapters in this book consider inventions such as the camera and materials like celluloid examine the role of new materials including concrete composites in opening up fresh avenues in the plastic arts and relate advances in the understanding of color perception and psychology to an increased interest in visual perception and the latent potential of color as both architectural ornament and carrier of emotional force in space While art historians usually argue that experimentation in the Weimar Republic was the result of an intentional rejection of traditional modes of expression in the conscious attempt to invent a modern art and architecture unshackled

from historic media and methods this volume shows that the drivers for innovation were often far more complex and nuanced. It first of all describes how the material shortages precipitated by the First World War along with the devastation to industrial infrastructure and disruption of historic trade routes affected art as did a spirit of experimentation that permeated interwar German culture. It then analyzes new challenges in the 1920s to artistic conventions in traditional art modes like painting sculpture drawing architecture textiles and print making and simultaneously probes the likely causes of innovative new methods of artistic production that appeared such as photomontage assemblage mechanical art and multi media art. In doing so *Material Modernity* fills a significant gap in Weimar scholarship and art history literature.

To My Daughter Suvro Chatterjee, Remember the long debates about what matters in life. Wish you could find a book which offers practical tips for living well. You are holding that book now so come aboard. From learning about your personality to making wise career choices and changes from nurturing a healthy body and mind to understanding the place of money politics poetry science art books friendship time dreams beauty Karma laughter and God in your life this book covers all that and more. *To My Daughter* is for all ambitious and inquisitive young people as well as parents teachers and thinking citizens who are facing the challenges of living life in today's world. Unlike most contemporary self help books this one does not make life sound all easy and exciting but says it like it is a great struggle but also a great adventure.

The Rise of East Asia Mark Berger, Douglas Borer, 2002-09-11 There is great interest in the Pacific Century and what its implications for the future will be. The rapid economic growth of East Asia was already setting the region apart from the rest of the world by the 1970s. By the 1980s the trend was seen to have spread southward to Thailand Malaysia and Indonesia while China's provinces had also become integral to the regional economic boom. In this exciting new study many of the ideas and expectations associated with the Pacific Century are placed under critical scrutiny. The book includes studies of particular countries such as China Japan South Korea Vietnam Indonesia and Malaysia. There is analysis of economic and political trends in the region the reasons behind its rise and its importance on a global scale. The rise of East Asia represents an historic turning point with immense significance world wide. This book will be of interest to anyone concerned about the new approaches to and the debate about the rise of east Asia and the coming of the Pacific Century.

Country Music Richard Carlin, 2014-02-25 This illustrated A-Z guide covers more than 700 country music artists groups and bands. Articles also cover specific genres within country music as well as instruments used. Written in a lively engaging style the entries not only outline the careers of country music's greatest artists they provide an understanding of the artist's importance or failings and a feeling for his or her style. Select discographies are provided at the end of each entry while a bibliography and indexes by instrument musical style genre and song title round out the work. For a full list of entries a generous selection of sample entries and more visit the Country Music A Biographical Dictionary website.

Nations And States Hugh Seton-watson, 2019-06-03 This major book by one of the great political and social historians of our time is a study of the force of nationalism a force that continues to shake our world.

Reaching beyond nationalism as a doctrine beyond the content psychological origins and analysis of that doctrine the book represents and enquiry into all the important political move The Nation and Economic Growth Kunio Yoshihara,1994 This book a comparative study of the Philippines and Thailand breaks new ground by highlighting the impact of non economic institutions and cultural kinship and political values on economic performance The Philippines and Thailand two developing South East Asian countries which faced similar situations and problems after the Pacific War pursued divergent paths in shaping their destiny The results have been dramatic especially when we consider that postwar the Philippines per capita GNP was twice that of Thailand s but by the end of the period under study the position had reversed In examining the factors that influenced this transformation the author elucidates the response of both countries to the economic dominance of the Chinese minority and their attitude towards foreign investment He analyses their government s intervention in the market economy including a discussion of the traditions of their central banks and the role played by their military establishments He also focuses on their handling of peace and order issues include the Communist insurgency Muslim separatism military coups and serious crime culminating in a discourse on traditional values *Sport and Christianity* Hugh McLeod,Nils Martinus Justvik,Robert Hess,2020-06-09 Sport and Christianity examines sport and Christianity from a variety of historical perspectives with the main focus on the period from the nineteenth to the early twenty first centuries The book is not limited to a narrow definition of Christianity but rather encompasses a wide range of denominations related philosophies and viewpoints The contributors are international and the geographical range of their chapters is equally wide extending for example from China to Argentina and from Australia to Poland Some chapters focus on a single sport such as gymnastics soccer or Australian Rules football while others look at modern sports more generally Different methodological and theoretical approaches have been adopted as contributors enter the debates on for example cultural imperialism gender changing Christian attitudes to leisure or the intersection between religion politics and sport Demonstrating the many sided significance of the relationship between Christianity and Sport this book is ideal for scholars of Sport History and Christianity This book was originally published as a special issue of The International Journal of the History of Sport **The National Review** ,1922 **The Great Cauldron** Marie-Janine Calic,2019-06-10 A sweeping history of southeastern Europe from antiquity to the present that reveals it to be a vibrant crossroads of trade ideas and religions We often think of the Balkans as a region beset by turmoil and backwardness but from late antiquity to the present it has been a dynamic meeting place of cultures and religions Combining deep insight with narrative flair The Great Cauldron invites us to reconsider the history of this intriguing diverse region as essential to the story of global Europe Marie Janine Calic reveals the many ways in which southeastern Europe s position at the crossroads of East and West shaped continental and global developments The nascent merchant capitalism of the Mediterranean world helped the Balkan knights fight the Ottomans in the fifteenth century The deep pull of nationalism led a young Serbian bookworm to spark the conflagration of World War I The late twentieth century

saw political Islam spread like wildfire in a region where Christians and Muslims had long lived side by side Along with vivid snapshots of revealing moments in time including Kruj in 1450 and Sarajevo in 1984 Calic introduces fascinating figures rarely found in standard European histories We meet the Greek merchant and poet Rhigas Velestinlis whose revolutionary pamphlet called for a general uprising against Ottoman tyranny in 1797 And the Croatian bishop Ivan Dominik Stratiko who argued passionately for equality of the sexes and whose success with women astonished even his friend Casanova Calic s ambitious reappraisal expands and deepens our understanding of the ever changing mixture of peoples faiths and civilizations in this much neglected nexus of empire *National Meteorological Satellite Program* United States. Congress. House. Committee on Science and Astronautics,1961 **The Struggle for the Soul of the Nation** Bradley F. Abrams,2005-11 This original study revisits the critical historical and cultural debates in Czech society immediately following World War II Bradley F Abrams discovers that communist public figures were largely successful in controlling the discourse over the nation s recent past_the inter **From Euphoria to Hysteria** David G. Haglund,2019-04-11 This book provides a detailed overview of the debate about the institutional context of Western European security after the Cold War It discusses various aspects of contemporary European security architecture and explores various aspects of the new transatlantic and European threat environment
