**Lying in Early Modern English Culture** Andrew Hadfield, 2017-09-07 Lying in Early Modern English Culture is a major study of ideas of truth and falsehood in early modern England from the advent of the Reformation to the aftermath of the failed Gunpowder Plot The period is characterised by panic and chaos when few had any idea how religious cultural and social life would develop after the traumatic division of Christendom While many saw the need for a secular power to define the truth others declared that their allegiances belonged elsewhere Accordingly there was a constant battle between competing authorities for the right to declare what was the truth and so label opponents as liars Issues of truth and lying were therefore a constant feature of everyday life and determined ideas of individual identity politics speech sex marriage and social behaviour as well as

philosophy and religion This book is a cultural history of truth and lying from the 1530s to the 1610s showing how lying needs to be understood in action as well as in theory Unlike most histories of lying it concentrates on a series of particular events reading them in terms of academic theories and more popular notions of lying The book covers a wide range of material such as the trials of Ann Boleyn and Thomas More the divorce of Frances Howard and the murder of Anthony James by Annis and George Dell works of literature such as Othello The Faerie Queene A Mirror for Magistrates and The Unfortunate Traveller works of popular culture such as the herring pamphlet of 1597 and major writings by Castiglione Montaigne Erasmus Luther and Tyndale

*Encyclopedia of Cryptozoology* Michael Newton, 2016-10-05 On every continent and in every nation animals unrecognized by modern science are reported on a daily basis People passionately pursue these creatures the name given to their field of study is cryptozoology Coined in the 1950s the term literally means the science of hidden animals When the International Society of Cryptozoology ISC was formed in 1982 the founders declared that the branch of science is also concerned with the possible existence of known animals in areas where they are not supposed to occur either now or in the past as well as the unknown persistence of presumed extinct animals to the present time or to the recent past what makes an animal of interest to cryptology is that it is unexpected This reference work presents a flesh and blood view of cryptozoology Here 2 744 entries are listed the majority of which each describe one specific creature or type of creature Other entries cover 742 places where unnamed cryptids are said to appear profiles of 77 groups and 112 individuals who have contributed to the field descriptions of objects and events important to the subject and essays on cryptotourism and hoaxes for example Appendices offer a timeline of zoological discoveries annotated lists of movies and television series with cryptozoological themes a list of crypto fiction titles and a list of Internet websites devoted to cryptozoology

**Aspects of Metamorphosis** D.B.D. Asker, 2021-12-28 *Aspects of Metamorphosis* Fictional Representations of the Becoming Human explores the various forms of metamorphosis found in literature mostly modern fiction but informed by earlier examples and the premises upon which the literature of transformation may be said to depend Instances of metamorphosis are very widespread in modern literature but as yet there has been no attempt to describe this literary anthropological phenomenon from a larger perspective This study approaches such a task The focus of *Aspects of Metamorphosis* is on human animal fictional metamorphoses which embody the concept of becoming human Gilles Deleuze describes metamorphosis especially in Kafka as the becoming animal Across the wide range of examples of literary metamorphosis in different languages and cultures I describe the becoming animal as an aspect of the becoming human a radical approach to mankind's perception of itself and restoration to itself through an animal other Franz Kafka is in many ways an odd man out in the crowd of modern metamorphosists Other authors across borders political geographical and linguistic present a humanist and moralist perspective that does not represent a fundamental break with the norms and cultural traditions rooted in the past
