China reformada Eugenio Anguiano Roch, María Teresa Rodríguez y Rodríguez, La Nueva China nace hacia el final de la primera mitad del siglo pasado como resultado de la profunda revolución emprendida por un partido comunista de orientación marxista leninista es un sistema económico que a lo largo de las últimas cuatro décadas se ha abierto al exterior y se ha transformado en una economía de mercado con fuerte intervención del Estado a esto los líderes chinos le llaman socialismo de mercado China reformada y sus dilemas en el siglo XXI presenta un análisis de las reformas económicas introducidas a inicios de la década de los ochenta y de sus resultados así como de los desafíos que la República Popular China cuyo 70 aniversario de vida apenas se cumplió en octubre de 2019 enfrentar en el siglo XXI Si bien el objetivo principal de esta obra es ofrecer una anatomía de la economía china actual el análisis toma en cuenta el sistema político de esta nación montado sobre la historia milenaria de la civilización china y ofrece un relato sobre la organización establecida por el partido comunista y su convulsa evolución De 1949 a la fecha este partido político ha podido mantener su hegemonía sobre la vida política cultural y económica de una sociedad a la que él mismo ha llevado al umbral del desarrollo y de la modernidad excepto en lo referente al ámbito político Los autores de este trabajo vivieron en China cerca de 9 años divididos en dos periodos uno durante la década de los setenta y otro en los años ochenta del siglo XX

Impacto de la reestructuración económica de China desde el periodismo profesional Quan Zhou, 2017 En el inicio del siglo XXI la República Popular de China fue uno de los países más importantes en el comercio mundial y en la inversión internacional El veloz desarrollo de la economía ha cambiado este país Tal ha sido su aumento que a partir del 2010 se ha situado en la segunda posición respecto a las demás potencias mundiales Asimismo se prevé que en un futuro el país así mismo establezca vínculos económicos y comerciales más estrechos con otros países del mundo Ciertas regiones como Latinoamérica ocuparán un papel primordial en este proceso comercial De todo ello se deduce que la situación económica de China puede influir en el crecimiento económico mundial ya que debido a la integración de distintos sectores comerciales en la cadena industrial global el mercado mundial ha sufrido grandes efectos Puesto que los cambios en la estructura económica interna de este país así mismo son importantes cabe exponerlos en este trabajo a través de ciertos marcos conceptuales y analíticos que se mostrarán más adelante En las últimas décadas los éxitos de la economía china se deben a las reformas consecutivas que se han llevado a cabo en este país Sin embargo desde punto de vista histórico la extensa historia de China y sus eras de prosperidad económica forman parte de la expansión de los comercios exteriores en el mundo occidental así como de la globalización temprana de su economía Por ello

presenciaremos la historia económica de este país asiático en particular la ruta de la seda En la actualidad el gobierno chino trata de proyectar su estrategia global a fin de ampliar su influencia económica hacia todo el mundo mediante una concepción es decir un lema oficial La Franja y la Ruta cuya fuente es la apertura de la Nueva Ruta de la Seda **Continuidad política y cambio económico en la China del siglo XXI** Isabel Rodríguez,2017-09-04 El fenómeno de China encarna en apariencia una profunda contradicción en la dualidad que se establece entre el socialismo en donde basa su relación de autoridad y régimen político y el capitalismo que rige su sistema económico A partir de allí este ensayo postula que el gigante asiático por la secuencia de acontecimientos derivados de los cambios económicos que ha experimentado desde 1978 no necesariamente está obligado a iniciar un proceso de transición hacia un sistema democrático El análisis se realiza en el marco de una perspectiva sistémica articulado en el enfoque de adaptación que el libro propone el cual da cuenta de la interacción dinámica entre el sistema político chino y los sistemas económico y social Para explicar este proceso se analizan un conjunto de variables fundamentales en el proceso de adaptación del sistema político chino los antecedentes históricos del régimen autoritario las características jurídico constitucionales del funcionamiento y organización de las instituciones del Estado y del PCCH la importancia del liderazgo político como articulador de ambas instituciones el fortalecimiento de la unidad nacional como consecuencia de las reformas económicas y la organización e influencia de algunos actores sociales en el sistema *China, nuevo coloso económico* Alvaro Llorente Martínez,1996 China en el siglo XXI Ramiro Andrade Terán,1996 **La población y el desarrollo de China en el siglo XXI** China,2000 *China and Its Development Model* Arturo Oropeza García,2012 **China en el siglo XXI** Pedro Conesa,2003
