Economic Aspects of Television Regulation Roger G. Noll, 1973 *The Economic Effects of Airline Deregulation* Steven Morrison, Clifford Winston, 2010-12-01 In 1938 the U S Government took under its wing an infant airline industry Government agencies assumed responsibility not only for airline safety but for setting fares and determining how individual markets would be served Forty years later the Airline Deregulation Act of 1978 set in motion the economic deregulation of the industry and opened it to market competition This study by Steven Morrison and Clifford Winston analyzes the effects of deregulation on both travelers and the airline industry The authors find that lower fares and better service have netted travelers some 6 billion in annual benefits while airline earnings have increased by 2 5 billion a year Morrison and Winston expect still greater benefits once the industry has had time to adjust its capital structure to the unregulated marketplace and they recommend specific public policies to ensure healthy competition *Hearings, Reports and Prints of the Joint Economic Committee* United States.
