Experience of China, Hungary, Romania, and Yugoslavia World Bank,1983 China's Industrial Reform Gene Tidrick, Jiyuan Chen,1987 Containing important implications for socialist and other developing countries this book uses newly acquired data to analyze China's far reaching industrial reforms looks at Hungary's reforms and compares Chinese and Soviet systems

China's Industrial Reform and Open-door Policy 1980-1997: A Case Study from Xiamen Qi Luo,2017-09-08 This title was first published in 2001 The 1980s and 1990s were not only a period in which many developing countries adopted a series of major economic policy reforms but also an era in which all socialist countries undertook varying degrees of radical reforms in their Soviet style central planning economic management systems This volume examines the performance of China's industrial reform and open door policy during the period of 1980 1997 through conducting a case study on one of its Special Economic Zones SEZs Xiamen It adopts an analytical approach examining Xiamen's performance from the perspective of three important interactions between the country's general economic reform policies and the Special Policy implemented in the SEZs between the Xiamen SEZ and the vast Chinese hinterland and between foreign especially Taiwanese direct investment and local industrial transformation

China's Economy Looks Toward the Year 2000, 1986

China's Economy Looks Toward the Year 2000: The four modernizations ,1986 **Transforming Economic Systems:** The Case of Poland Manfred Kremer, Marion Weber, 2013-04-17 This book deals with the transformation of the Polish centrally planned system to a western type market system Poland represents the most interesting case to study as it runs an unprecedentedly radical and fast course of reform The book provides insights in the theoretical foundations of the transformation of an economic system as well as a critical assessment of first experiences in Poland As the authors develop theoretical approaches as well as study the empirical situation thebook offers valuable insights both to the reader who is rather theoretically interested and to a pragmatically orientated audience One of the main features of the book is the broad variety of the subjects chosen for analysis and of the respective approaches taken by the authors who mostly specialize in the fields they worked on for this book The Second Economy in Marxist States Maria Los, 2016-01-13 This book analyses and compares the unofficial economies and their control in ten marxist states the USSR Poland Hungary Romania Yugoslavia Cuba Nicaragua China Angola and Tanzania It provides a vivid mosaic like panorama of the hidden economies in these countries The book breaks with the view that the unofficial economy is simply a by product of the official economy It shows an unfolding interplay between these two economies which moulds and limits both the dynamics and the direction of the process of change In her final essay Maria Los develops a theoretical model linking second economies with the process of marxist economic development The key stages of this process are identified as 1 The stage of radical transformation 2 The monopolisation period 3 The reformist phase and 4 Post reformist decadence The volume throws a new light on the prospects and problems of the reformist movements which have swept the Soviet Union China and several other marxist states in the 1980s The Challenge of African Economic Recovery and Development Adebayo Adedeji, Patrick Bugembe, O. Teriba, 2014-01-09 A special session of the UN General Assembly was held in Abuja the new Nigerian capital in May 1988 This volume reproduces the major papers lines of discussion and conclusions of the conference How Changes in the Former CMEA Area May Affect International Trade in Manufactures Refik Erzan, Christopher Holmes, Raed Safadi, 1992 Western Europe will be the major trading partner of the Eastern European and former Soviet economies but their trade with Japan North America and developing countries will also expand Eastern Europe's greater access to Western markets may conflict with the export interests of other developing countries **Economic Management and Transition Towards a Market** Economy Anthony T.H. Chin, 1996 Much attention has been focused in recent years on the transformation of the economies of Eastern and Central Europe and the former Soviet Union However a growing demand for policy advice technical assistance and expertise is also coming from Asian reforming countries such as China Mongolia Vietnam Laos and Cambodia In addition business communities abroad are increasingly interested in exploring investment and marketing opportunities in these reforming countries Such developments are too important to overlook or ignore The transformation of socialist economies towards market based systems entails an unusually wide range of problems Studies of related topics are complicated by the speed of the changes and the lack of clear historical precedents Although the structural features of Asian reforming economies are in important ways different from those of the Eastern European economies all socialist economies share similar fundamental conditions on the eve of economic reform which raise a similar set of reform issues This volume brings together a rich collection of expertise and information in an attempt to shed some light on the transitional process in Asia The contributions are by no means exhaustive However they provide the reader and analyst with an excellent starting point to the problems and prospects which are specific to Asian transforming economies The World Bank and Transferring Development Adrian Robert Bazbauers, 2017-08-20 This book analyses the World Bank's provision of technical assistance from 1946 to the present day It argues that the relational dynamics between technical assistance provider and recipient affects the legitimacy of policy norms travelling from the international to the domestic Beginning from the constructivist position that development is a social construct the author contends that successful policy movement via technical assistance depends on the recipient's perception of the validity of policy reforms with perception being influenced by the way those ideas and practices are presented packaged and transferred In advancing this argument Bazbauers analyses four pillars of World Bank technical assistance technical assistance components advisory services incorporated within lending operations stand alone technical assistance projects projects designed to solely deliver technical assistance survey missions activities involved in measuring the development status of developing countries and training institutes the courses of the Economic Development Institute and World Bank Institute The Evolving Role of Central Banks Mr. Patrick Downes, Reza

Vaez-Zadeh, 1991-06-15 Central Banks should enjoy a fair degree of autonomy in pursuing price stability to promote long run growth and prosperity This volume edited by Patrick Downes and Reza Vaez Zadeh contains the papers presented at the fifth IMF seminar on central banking issues in November 1990 The theme was the interdependence of central bank functions and the role of central bank autonomy The Collapse of State Socialism Bartolomiej Kaminski, 2014-07-14 Does the abrupt collapse of communist regimes in Eastern Europe arise only from errors in implementing the policy of state socialism leaving the concept itself still a potentially valid one Bartlomiej Kaminski argues to the contrary state socialism is a fundamentally defective idea that was well carried out enabling it to exist until its accumulated shortcomings made its survival extremely difficult How did the flawed state socialist system endure for so long Why is it failing now In answering these questions Kaminski who is both an economist and a political analyst proposes a general theory and then applies it to the case of Poland Contending that the breakdown of state socialism results from symbiosis of the state and the economy the book describes how communist governments searched for tools that would replace the market mechanism and the rule of law Doomed in advance by the absence of autonomy and competition this search generated new crises by undermining the state s capacity to suppress individual interests and to direct the economy Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
