Federal Property Policy in Canadian Municipalities Michael C. Ircha, Robert A. Young, 2013-06-01 Federal property issues especially those involving divestiture create political disputes at all levels of government Federal Property Policy in Canadian Municipalities analyzes the emergence of many of these issues involving military bases airports and other facilities in communities across Canada With careful analysis the contributors show the underlying patterns and causes of these conflicts and their resolutions while emphasizing intergovernmental relations and the social forces that are active in property issues Contributors examine general federal policy as well as issues pertinent to British Columbia the Toronto waterfront

New Brunswick and Newfoundland and Labrador The unprecedented number of cases discussed in these essays provides general conclusions and recommendations for a new orientation that will take local interests and preferences into account from the outset of decision making Public property is an understudied field of public policy particularly as it concerns municipal government Federal Property Policy in Canadian Municipalities presents a comprehensive treatment of federal property changes in policy and the effects these changes have on various levels of government Contributors include Jeff Braun Jackson Memorial University of Newfoundland Pierre Filion University of Waterloo Michael C Ircha University of New Brunswick Leonard Wade Locke Memorial University of Newfoundland Robert MacKinnon University of New Brunswick in Saint John Kurt Peacock University of New Brunswick in Saint John Christopher Sanderson Government of Manitoba Tracy Summerville University of Northern British Columbia Stephen Tomblin Memorial University of Newfoundland Gary N Wilson University of Northern British Columbia John Young University of Northern British Columbia and Robert A Young University of Western Ontario

Service Industry Growth Herbert G. Grubel, Michael Walker, 1989 From the back cover Is the growth of the service sector a menace or a bounty Will our society degenerate into two solitudes the high skilled rich and the low skilled poor How can an export driven economy like Canada s survive the growth of the service sector What should governments do to encourage or discourage service growth Service Industry Growth addresses these paradoxes and provides a summary of the most complete and far reaching research project ever conducted on the economics of the service sector

Transport Nodal System Adolf K.Y. Ng, Changmin Jiang, Paul Larson, Barry Prentice, David Timothy Duval, 2018-01-26 Transport Nodal System provides a comprehensive introduction to the development of transport nodes and nodal systems focusing on economic operational management planning policy regulation and sustainability perspectives Through a deep analysis on different types of transport nodes from diverse perspectives this book shows the major issues and challenges that transport node planners managers and policymakers face and how to address them The book provides a clear framework for identifying the common attributes across all nodes that contribute to the efficient operations planning and management of transport facilities Transport nodes such as seaports inland terminals airports highways and railroads are hubs in a multimodal transportation network that facilitate the smooth operation of passengers and freight The book uniquely uses the transport node itself rather than a specific type of structure for a specific type of transport mode as the primary focus of analysis While stressing the importance of transport nodes in developing efficient logistics and supply chains the book also demonstrates that transport nodes are geographically embedded within a particular location and that operations are inevitably affected by local factors such as culture the economy the political and regulatory environment and other institutions Provides a unified look at multimodal transportation nodes to gain a better understanding of total system performance Includes numerous case studies from developed and emerging economies Uses an interdisciplinary approach

where policy regulations economics strategic management operations sustainability and technological innovation are considered together Features chapters by scholars who specialize in different transport modes land sea and air Up to date outcomes utilizing author s original research provide a systematic investigation of the nodal system in both theory and practice Introduction to Air Transport Economics Bijan Vasigh,Ken Fleming,2016-05-06 Introduction to Air Transport Economics From Theory to Applications uniquely merges the institutional and technical aspects of the aviation industry with their theoretical economic underpinnings In one comprehensive textbook it applies economic theory to all aspects of the aviation industry bringing together the numerous and informative articles and institutional developments that have characterized the field of airline economics in the last two decades as well as adding a number of areas original to an aviation text Its integrative approach offers a fresh point of view that will find favor with many students of aviation The book offers a self contained theory and applications oriented text for any individual intent on entering the aviation industry as a practicing professional in the management area It will be of greatest relevance to undergraduate and graduate students interested in obtaining a more complete understanding of the economics of the aviation industry It will also appeal to many professionals who seek an accessible and practical explanation of the underlying economic forces that shape the industry The second edition has been extensively updated throughout It features new coverage of macroeconomics for managers expanded analysis of modern revenue management and pricing decisions and also reflects the many significant developments that have occurred since the original s publication Instructors will find this modernized edition easier to use in class and suitable to a wider variety of undergraduate or graduate course structures while industry practitioners and all readers will find it more intuitively organized and more user friendly **Pricing Behaviour and Non-Price Characteristics in the Airline Industry** James Peoples,2012-01-03 Provokes the reader to think critically about the emergence of corporate styles of governance management and leadership in higher education institutions HEIs and ways in which the demands of public management and the knowledge economy has shaped and re shaped scholarly work and identity *The Economics of Long-Distance Transportation* P.
