Economic Geography of Tourism João Romão, 2025-05-13 This book provides an in depth exploration of the dynamic intersections between economic geography and tourism highlighting how spatial economic and social processes shape tourism development and how tourism in turn transforms economic spaces Combining theoretical insights with real world case studies it offers a comprehensive understanding of tourism s evolving role within economic geography The first part lays a strong theoretical foundation introducing key concepts such as the Tourism Area Life Cycle path dependence agglomeration economies smart specialization and regional resilience within the context of tourism research It explores spatial and temporal patterns in tourism development the growing influence of digitalization and smart tourism and the roles of innovation and competitiveness in shaping destination dynamics The second part shifts focus to tourism s broader economic and social implications It critically assesses urban tourism s links to gentrification circular economies and social conflicts while exploring strategies to address spatial enclaves and foster integrated tourism networks in low density and fragile regions Environmental challenges including the impact of tourism mobility on local communities and ecosystems are also examined The book concludes by addressing the tensions and future trajectories of tourism development questioning whether sustainable or regenerative tourism can thrive within market driven economies where decision making prioritizes individual preferences over collective well being It calls for a reassessment of contemporary policy and regulatory frameworks to align tourism with broader economic and environmental goals By bridging economic geography and tourism studies this book equips scholars policymakers and practitioners with analytical tools to rethink tourism development and advocate for strategies that are economically viable and effectively sustainable inclusive and resilient

Multidisciplinary Economics Peter de Gijssel, Hans Schenk, 2006-07-02 Multidisciplinary economics deliberately uses the insights and approaches of other disciplines and examines what consequences their contributions have for existing economic methods theories and solutions to economic problems Multidisciplinary economists should be at home in their own discipline and meet the high international standards of economic teaching and research that the discipline has developed At the same time they should be able to recognise the limits of economics and be willing to open up new horizons by following new discipline transcending paths on which new insights into the analysis and solutions of economic problems can be found in collaboration with representatives of other disciplines As a result of this search economic methods and theories may have to be adjusted in such a way that they take insights from other disciplines into account They may even have to be replaced by methods and theories that have been developed by other disciplines

The Economic Geography of the IT Industry in the Asia Pacific Region Philip Cooke, Glen Searle, Kevin O'Connor, 2013-07-18 The development of the information technology IT industry in the Asia Pacific region faces two challenges Firstly can its established physical technical regional and governance infrastructures be adapted to meet the challenges embedded in the set of products and processes created by

the IT industry Secondly as this adaptation evolves which cities and regions will be best suited to connect to or lead global responses to these challenges The chapters in this book have set out to explore these questions providing details of change in a range of aspects of the IT industry such as mobile phones software services and flat screen design in regions in Japan Korea Taiwan India China and Australia The book also outlines the policy responses of national and regional governments in Singapore India and China and India These case studies provide a basis to understand effective strategies which could be formulated for the future This book s originality emerges from the fine detail provided about firms in particular regions and cities from research carried out by young scholars in the past two years This makes it very useful for readers keen to understand the recent changes in this dynamic industry in a fast growth part of the world and it will also help to shape thinking by policy makers on policy settings that can be applied

Handbook of Regional Growth and Development Theories Roberta Capello, Peter Nijkamp, 2019 Regional economics an established discipline for several decades has undergone a period of rapid change in the last ten years resulting in the emergence of several new perspectives At the same time the methodology of regional economics has also experienced some surprising developments This fully revised and updated Handbook brings together contributions looking at new pathways in regional economics written by many well known international scholars The aim is to present the most cutting edge theories explaining regional growth and local development The authors highlight the recent advances in theories the normative potentialities of these theories and the cross fertilization of ideas between regional and mainstream economists It will be an essential source of reference and information for both scholars and students in the field

A Behavioural Theory of Economic Development Robert Huggins,Piers Thompson,2021-01-14 Innovation entrepreneurship knowledge and human capital are widely acknowledged as key levers of development Yet what are the sources of these factors and why do they differ in their endowment across regions Motivated by a belief that theories of economic development can move beyond the generally accepted explanations of location and the organization of industries and capital this book establishes a behavioural theory of economic development illustrating that differences in human behaviour across cities and regions are a significant deep rooted cause of uneven development Fusing a range of concepts relating to culture psychology human agency institutions and power it proposes that the long term differentials in economic development between cities and regions both within and across nations is strongly connected to the underlying forms of behaviour enacted by humans on an individual and collective basis Given a world of finite and limited resources coupled with a rapidly growing population especially in cities and urban regions human behaviour and the expectations and preferences upon which it is based are central to understanding how notions of development may change in coming years This book provides a novel theory of the role of psychocultural context and human behavioural and institutional frameworks in uneven economic development on a

global scale *Fifty Years of Regional Science* Raymond Florax, David A. Plane, 2013-04-17 This book contains the complete text of the special Golden Anniversary issue of the flagship journal of the Regional Science Association International RAI Papers in Regional Science Volume 83 Number 1 as well as the full text of Walter Isard's Presidential Address The future near and far of regional science Professor Isard originally delivered the speech in a special plenary session of the fiftieth North American Meetings of the Regional Science Association International The session began with a ceremonial kickoff to the year long celebration of the multidisciplinary field's first 50 years At the ceremony held on the morning of Friday November 21 2004 at the DoubleTree Hotel in Philadelphia we presented Walter Isard the founder of our multidisciplinary field as well as Antoine Bailly the President of the Regional Science Association International and David Boyce the Association's Archivist with commemorative first copies of the anniversary issue This book entitled *Fifty Years of Regional Science* consists of a compendium of thought papers authored by a representative sampling of some of the field's leading scholars For the special journal issue we originally titled the collection *The Brightest of Dawns* *Economic Geography* Sharmistha Bagchi-Sen, Helen Lawton-Smith, 2006-09-27 The impact of economic geography both within and beyond the wider field of geography has been constrained in the past by its own limitations Drawing together the work of several eminent geographers this superb collection assesses the current state of knowledge in the sub discipline and its future direction In doing so the contributors show how economic geographers have offered explanations that affect places and lives in the broader context of the global economy Offering a discussion of theoretical constructs and methodologies with the purpose to show the need to combine different approaches in understanding spatial inter dependencies contributors also demonstrate the need to engage with multiple audiences and within this context they proceed to examine how geographers have interfaced with businesses and policy This excellent collection moves economic geography from a preoccupation with theory towards more rigorous empirical research with greater relevance for public policy With excellent breadth of coverage it provides an outstanding introduction to research topics and approaches Local Economic and Employment Development (LEED) Clusters, Innovation and Entrepreneurship OECD, 2009-07-17 Explores the success of major innovation and entrepreneurship clusters in OECD countries the challenges they now face in sustaining their positions and the lessons for other places seeking to build successful clusters *The Discourse of Neoliberalism* Simon Springer, 2016-07-29 Why should we be worried about neoliberalism if we are not able to fully appreciate its deleterious effects How can we fully appreciate its intricacies and power without attending to and seeking to potentially reconcile the various critical theorizations of how it actually operates *The Discourse of Neoliberalism* offers a critical political economy meets poststructuralist perspective on the relationship between neoliberalism and power By advancing a geographical approach to understanding the discursive formations and material consequences of neoliberalism the book exposes how processes of neoliberalization are shot through with violence It argues that reading neoliberalism as a discourse better equips us to understand the power of this variegated

economic formation as an expansive process of social spatial transformation that is intimately bound up with the production of poverty inequality and violence across the globe It illuminates the vital and ongoing power of neoliberalism in order to open up a critical space for thinking through how life beyond neoliberalism might be achieved **Handbook of Research on Innovation and Entrepreneurship** David B. Audretsch, O. Falck, S. Heblich, 2011-01-01 This path breaking Handbook analyses the foundations social desirability institutions and geography of innovation and entrepreneurship Leading researchers use their outstanding expertise to investigate various aspects in the context of innovation and entrepreneurship such as growth knowledge production and spillovers technology transfer the organization of the firm industrial policy financing small firms and start ups and entrepreneurship education as well as the characteristics of the entrepreneur There is much in this Handbook that will prove to be informative and stimulating especially for academics and post graduate students in economics and management Those starting a PhD in innovation or entrepreneurship will find this book essential reading
