Political Economy of Reform and Change (Routledge Revivals) Jan Winiecki, 2013-04-03 First published in 1997 this collection of articles and essays analyses the political economy of reform and change in Eastern Europe during the years

of Gorbachev's perestroika and the years immediately following the fall of the Berlin wall and the collapse of the Soviet Union. Written by Polish economist Jan Winiecki between 1984 and 1996, this work explores the issue of the feasibility of reform and change during the period of decline and collapse of communist economic order and later the emergence of the capitalist economic order in the post-communist Eastern Europe. Split into three parts, the work considers firstly the failures of Gorbachev's political economy of reform, secondly the determining factors in the collapse of the Soviet system, and finally the feasibility of the systematic change which began in the wake of its collapse.

The Making of Economic Reform in Eastern Europe Mario I. Bléjer, Fabrizio Coricelli, 1995. This text features interviews with three of the key human actors behind the reforms in Eastern Europe: Leszek Balcerowicz, Polish Deputy Prime Minister and Minister of Finance, 1990-91; Peter Ákos Bod, President of the National Bank of Hungary and formerly Minister of Industry; and Vaclav Klaus, Prime Minister of the Czech Republic and Czechoslovakian Minister of Finance. The conversations include discussion about their personal and intellectual formation, their views of the development and design of the reform package, their initial expectations, the process of implementing the reforms, and the prospects for the future.

Reform and Transformation in Eastern Europe János Mátyás Kovács, Marton Tardos, 1992-06-04. First published in 1992, Routledge is an imprint of Taylor & Francis, an information company. *Remaking Eastern Europe — On the Political Economy of Transition* J.M. Van Brabant, 2012-12-06. This compact volume is meant as a modest contribution to the ongoing debate on how to transform, in particular, the radically reforming Eastern European economies into more productive sociopolitical organizations. Although my main focus here is on the economics of reform and east-west assistance, I have tried to embed the multiple technical aspects of restructuring, such as resource allocation, into the context of remaking Eastern Europe. That the volume coincides with the seminal transformations of the communist countries of Eastern Europe is, of course, not fortuitous. But I shall have much less to say about the political transitions from communism to parliamentary democracy, except the ways in which the latter may bolster or hinder the hoped-for economic mutations. In taking stock of where I stand on the issue of radical reform of planned economics in general and the CMEA in particular, both still moving targets, I have benefited greatly from participation in formal and informal conferences on economic reform. The product has also profited from many informal discussions and exchanges of views among friends and colleagues, including those entrusted with and purely interested in efforts on the overall topic of the study launched from within the broad context of the United Nations, my at times reluctant employer.

Economic Reform and Political Change in Eastern Europe Judy Batt, 1988-06-21. Economic reform, the introduction of elements of the market into a planned economy, has been the central political problem for socialist states for at least three decades. This book seeks to elucidate the nature of the problem through a reconsideration of the general theoretical issues and through a comparative analysis of the practice of economic reform in two countries, Czechoslovakia and Hungary. *Economic Reforms in Eastern Europe* Michael Gamarnikow, 1968.
