A New Model of Socialism Bruno Jossa, 2018-04-27 Economic democracy is essential for creating a truly democratic political sphere This engaging book uses Marxist theory to hypothesise that capitalism is not a democratic system and that a modern socialist system of producer cooperatives and democratically managed enterprises is urgently needed A New Model of Socialism focuses on the current crisis of the political Left a result of the collapse of the Soviet model of society and the decline of statism and kingship Bruno Jossa expands on existing theories to explore Marx's notions on economic democracy in a modern setting He advocates a move away from the centralised planning form of economic socialism towards a self management system for firms that does not prioritise the interests of one class over another in order to achieve greater economic democracy It is argued that the establishment of such a system of democratic firms is the precondition for reducing intervention in the economy thus enabling the State to perform its ultimate function of serving the public interest This timely book is ideal for advanced scholars of Marxist radical and heterodox economic theory as well as academics with an interest in the rise of socialism in our modern world Indeed it will also be of value to all those seeking a viable and practical alternative to existing capitalist and socialist thinking
