Economics And The Competitive Process:

Market Relations and the Competitive Process J. Stanley Metcalfe, Alan Warde, 2002 There has been increasing interest and debate in recent years on the nature of economic processes in general and the related ideas of the market in particular the competitive process This study lies at the interface between two largely independent disciplines economics and sociology and reflects an attempt to bring the two fields of discourse more closely together It explores this interface in a number of ways looking at the competitive process and market relations from a number of different perspectives A wide range of contributors are included most of whom are leading writers and thinkers in the field

Economics and the Competitive Process James H. Case, 1979 Market relations and the competitive process Stan Metcalfe, Alan Warde, 2018-07-30 This electronic version has been made available under a Creative Commons BY NC ND open access license There has been increasing interest and debate in recent years on the instituted nature of economic processes in general and the related ideas of the market in particular the competitive process This debate lies at the interface between two largely independent disciplines economics and sociology and reflects an attempt to bring the two fields of discourse more closely together This book explores this interface in a number of ways looking at the competitive process and market relations from a number of different perspectives It includes a wide range of contributors most of whom are leading writers and thinkers in the field The book considers the social role of economic institutions in society and examines the various meanings embedded in the word markets as well as developing arguments on the nature of competition as an instituted economic process rather than as competition being something that disturbs norms or institutions It goes on to consider the deeper and more involved connection between markets and cognition explaining how institutions can ease cognitive difficulties and the effect of culture on markets and competition is also fully studied This book will be of vital use to students and academics working in the fields of economics sociology and business studies It sketches the agenda for future research about markets and the competitive process

The Ethics and Economics of Agrifood Competition Harvey S. James, Jr., 2013-03-19 This edited volume presents ethical and economic analyses of agrifood competition By systematically examining fairness and openness in agricultural markets it seeks to answer the question of whether there is adequate competition in the agrifood industry and whether the system is fair to all participants It outlines ethical and economic principles important for understanding agrifood competition presents arguments for and against consolidation globalization and the integration of agrifood industries and looks at the implications of globalization on the nature of competition in specific agricultural contexts

Competition Policy and the Economic Approach Josef Drexler, Wolfgang Kerber, Rupprecht Podszun, 2011-01-01 This outstanding collection of original essays brings together some of the leading experts in competition economics policy and law They examine what lies at the core of the economic approach to competition law and deal with its normative and institutional limitations In recent years the more economic approach has led to a modernisation of competition law throughout the world This book

comprehensively examines for the first time the foundations and limitations of the approach and will be of great interest to scholars of competition policy no matter what discipline Competition Policy and the Economic Approach will appeal to academics in competition economics and law policy makers and practitioners in the field of antitrust competition law as well as postgraduate students in competition law and economics Those interested in the interplay of law and economics in the field of competition will also find this book invaluable Evolutionary Economics and Creative Destruction J. Stanley

Metcalf, 2006 The central theme of this book is competition treated as an evolutionary process in which the focus is upon economic change and not economic equilibrium This theme is explored by linking together differences in economic behaviour with the role of markets as co ordinating institutions In this picture innovation plays a central role as a primary source of differential behaviour of firms and the purpose of the book is to identify the consequences of these differences for competition and competitive advantage **Comparative Competition Law and Economics** Roger J. Van den

Bergh, 2017-09-29 Offering a concise and critical comparison of EU competition law and US antitrust law from an economic perspective this is the ideal textbook for international and interdisciplinary courses combining law and economic approaches

The Systemic Nature of the Economic Crisis Arturo Hermann, 2015-03-27 The most prominent aspect of the current financial crisis is its systemic character which manifests itself in high levels of inequality rampant unemployment economic and social insecurity and environmental decay This book explores the potential of a pluralistic and interdisciplinary approach for a deeper understanding of the manifold aspects of the economic crisis This book examines the potential of a number of contributions from heterodox economics and psychoanalysis in providing a deeper understanding of these problems The book analyses some of the most debated aspects of the concepts of market democracy and socialism and explores the role of structural ties between economic social and psychological aspects of collective life It also addresses the main economic aspects of the crisis and pays particular attention to a number of structural imbalances and to the psychological interpretation of these phenomena By drawing together approaches from heterodox economics and psychoanalysis this book adopts a pluralist and interdisciplinary approach to the study of these phenomena and manages to overcome the fragmentation so often present in social sciences **European Competition Law and Economics** Roger van den

Bergh, Peter D. Camesasca, 2001 The aim of this book is to explore the economic fundamentals of European competition law

Research Handbook on the Law and Economics of Competition Enforcement Kokkoris, Ioannis, Lemus, Claudia, 2022-08-16 This incisive Research Handbook identifies and assesses the emerging trends in competition enforcement investigating how such changes impact the enforcement approach of competition authorities and the behaviour of companies in an ever evolving business and regulatory environment **Consumer Involvement in Private EU Competition Law Enforcement** Maria Ioannidou, 2015-09-03 Despite the growing importance of consumer welfare in EU competition law

debates there remains a significant disconnect between rhetoric and reality as consumers and their interests still play only

an ancillary role in this area of law Consumer Involvement in Private EU Competition Law Enforcement is the first monograph to exclusively address this highly topical and much debated subject providing a timely and wide ranging examination of the need for more active consumer participation in competition law Written by an expert in the field it sets out a comprehensive framework of policy implications and arguments for greater involvement positioning the debate in the context of a broader EU law perspective It outlines pragmatic approaches to remedial and procedural measures that would enable consumer empowerment Finally the book identifies key institutional and political obstacles to the adoption of effective measures and suggests alternative routes to enhance the role of consumers in private competition law enforcement The book's innovative approach combining normative analysis and practical solutions make it invaluable for academics policy makers and practitioners in the field

Evolution and Path Dependence in Economic Ideas Pierre Garrouste,Stavros Ioannides,European Association for Evolutionary Political Economy,2001-01-01 Since the 1980s there has been a renewed interest in attempts to introduce a sense of history into economic literature In this text the authors argue that it is not possible to explain a state of the world without first analyzing the processes that lead to that state *Competition, Diversity and Economic Performance* C. A. Tisdell,2013-02-01 Ecological and economic systems share some fundamental characteristics that Clem Tisdell has beautifully illuminated He has given us a much better handle on the roles of competition diversity evolution and sustainability in complex interdependent ecological and economic systems Our ability to build a sustainable and desirable future fundamentally depends on this integrated understanding Robert Costanza Portland State University US This thought provoking book explores the influences of market competition and diverse behaviours of economic agents on economic performance particularly dynamic economic performance Clem Tisdell illustrates within evolutionary dynamic and static contexts how diversity can improve or impede economic performance He addresses the fact the role of diversity in improving economic performance has been neglected by economic theorists by making economic diversity a focal point of economic analysis In particular special attention is given to the value of economic diversity and economic imperfections in improving the performance of economic processes in particular identified situations Limitations of using market like mechanisms for managing public bodies and business firms are discussed and the value of business cooperation economic mutualism as a means for improving economic performance is examined It is also observed that as economies develop different forms of economic competition and business cooperation evolve Challenging yet accessible this book will prove a stimulating read for academics and students in the fields of economics industrial organization and business and management

Epistemics of Development Economics Kofi Kissi Dompere,Manzur Ejaz,1995-08-22 The effective use of development economic theories in practice is limited the authors contend by the lack of explicit criterion for judging their scientific content The directional progress of critical research and teaching is also constrained by this deficiency This study advances a meta theory designed to assist in evaluating the scientific validity of theories in economic development and how these theories can be improved to assist social practice Using this model the study then examines existing theories dividing them into explanatory and prescriptive theories The explanatory theories include the stage based theories of Marx Schumpeter and Rostow and factor based theories including capital based human capital based and technology based theories The prescriptive theories include explanatory theory based prescriptions interventionist prescriptive theories and theories of economic planning In conclusion the authors contend that modern analysis of development economics is plagued with logical ills misleading notions and a weak theoretical structure that lacks scientific appeal Most of the theories except for those of Marx and Schumpeter neglect an analysis of the mechanism of change
