Vázquez-Brust, 2023-03-15 The main theme of this book is the social dimension of the circular economy CE This book's objective is to provide a foundation for the discussion of social aspects of CE that also allows the integration of CE with the UN SDGs The circular economy is increasingly becoming the consensual pathway for a transition towards sustainable production and consumption that balances the economic and ecological pillars of sustainable development However researchers have noted that the social dimension of sustainable development is noticeable missing or at best weakly developed in CE ideas and frameworks Sehnem et al 2019 The main argument of this book is that CE research and practice needs to embrace its social impacts not only in terms of understanding and avoiding negative social impacts but also in terms of exploring the potential that CE models have for addressing social challenges **Economic Tracts**, 1891 *The Cumulative Book Index*, 1997 A world list of books in the English language *The Development Trajectory of Eastern Societies and the Theories and Practices of Socialism* Zhao Jiaxiang, 2022-07-30 In the four volumes of *The Development Trajectory of Eastern societies and the Theories and Practices of Socialism* the author re examines Marx and Engels theories on the development trajectory of Eastern societies by integrating theoretical analysis of Marxist theories and an historical investigation of socialist revolution and socialist construction around

the world The collection challenges some predominant interpretations of Marx and Engels historical materialism by focusing on that materialism explaining the general laws of historical development and its particular trajectory in Eastern societies discussing the attempts of the Russian Commune to avoid the torments of the capitalist system and tracing the victories and failures of the 100 year trajectory of socialism The significance of Marx and Engels socialist theories for contemporary social development in the Eastern societies is henceforth laid bare The book will be a key reference for readers studying Marxism Marxist philosophy and the history of philosophy
