J. C. F. Fijnaut, Gary T. Marx, 1995-10-12 3 Leaders of Men *Undercover Police Surveillance in Comparative Perspective* Cyrille Fijnaut, Gary T. Marx, 2023-08-14 The United States and Europe have recently experienced a significant expansion in the use of undercover police tactics and technological means of surveillance In a democratic society such tactics raise significant questions for public policy and social research New and sophisticated forms of crime and social control and their internationalization represent an important and neglected topic Realizing this the leading scholars in this field created a European and American working group for the comparative study of police surveillance This collaborative landmark volume reports the results of their work It is the first book ever devoted to the comparative study of the topic and includes articles on the historical development of covert policing in Europe and its spread to the United States where it was extended and recently exported back to Europe plus detailed accounts of the use of covert tactics in France Germany the Netherlands Belgium the United Kingdom Iceland Sweden Canada and the United States Audience Social scientists historians policy makers lawyers and criminal justice practitioners **LE DOSSIER NOIR DE L'INSTRUCTION; 30 AVOCATS TEMOIGNENT**, 2006 **Improperly Obtained Evidence in Anglo-American and Continental Law** Dimitrios Giannouloupoulos, 2019-02-21 This is the first book to offer an extensive cosmopolitan cross cultural insight into the perennial controversy over the use of improperly obtained evidence in criminal trials It challenges the conventional view that exclusionary rules are idiosyncratic of Anglo American law and highlights the constitutionalisation

and internationalisation of criminal evidence and procedure as a cause of rapprochement or divergence beyond the Anglo American and Continental law divide Analysis focuses on confessional evidence and evidence obtained by search and seizure telephone interceptions and other means of electronic surveillance The laws of England and Wales France Greece and the United States are systematically compared and contrasted throughout this study but where appropriate analysis extends to other Anglo American and Continental legal systems The book reviews exclusionary rules vis vis the operation of judicial discretion and explores the normative justifications that underpin them It attempts to reinvigorate the idea of excluding evidence to protect constitutional or human rights the rights thesis arguing that there is significant scope for Anglo American and Continental legal systems to place a renewed emphasis on it particularly in relation to confessional evidence obtained in violation of custodial interrogation rights we can locate an emerging rapprochement and unique potential for European Court of Human Rights jurisprudence to build consensus in this respect In marked contrast remaining divergence with regard to evidence obtained by privacy violations means there is little momentum to adopt a reinvigorated rights thesis more widely

Longlisted for the Inner Temple Book Prize 2022 **The Handbook of African Intelligence Cultures** Ryan

Privacy Laws Alex B. Makulilo, 2016-11-30 This volume presents analyses of data protection systems and of 26 jurisdictions with data protection legislation in Africa as well as additional selected countries without comprehensive data protection laws In addition it covers all sub regional and regional data privacy policies in Africa Apart from analysing data protection law the book focuses on the socio economic contexts political settings and legal culture in which such laws developed and operate It bases its analyses on the African legal culture and comparative international data privacy law In Africa protection of personal data the central preoccupation of data privacy laws is on the policy agenda The recently adopted African Union Cyber Security and Data Protection Convention 2014 which is the first and currently the only single treaty across the globe to address data protection outside Europe serves as an illustration of such interest In addition there are data protection frameworks at sub regional levels for West Africa East Africa and Southern Africa Similarly laws on protection of personal data are increasingly being adopted at national plane Yet despite these data privacy law reforms there is very little literature about data privacy law in Africa and its recent developments This book fills that gap Libertés publiques et droits
