**Understanding Contemporary Journalism** Tatah Mentan, 2022-01-03

Journalism is one of the most important professions today Without it large swaths of the world similarly might have remained dark impoverished tortured because few people would have been aware of the nature and depth of the atrocities therein You can't fix what you can't find Indeed we have only to look at places today where journalists must risk their lives to do their jobs places such as Central Europe the Philippines Mexico Myanmar Russia Turkey Democratic Republic of Congo Rwanda Cameroun Afghanistan and too many others to appreciate anew what an incalculable difference the media make reporting on wars famines genocide and the tyrants who green light them But saving the world apparently is not enough I have included a chapter on Peace Journalism because it uses conflict analysis and transformation to update the concept of balance fairness and accuracy in reporting This approach provides a new road map tracing the connections between journalists their sources the stories they cover and the consequences of their reporting the ethics of journalistic intervention to play a role in global peace rather than fuelling conflicts
