**Book for Women** Caroline French Benton,2019-12-10 In The Complete Club Book for Women Caroline French Benton offers a comprehensive guide that creatively amalgamates practical insights with an engaging narrative style. The book delves into the diverse landscape of women's clubs in early 20th century America, showcasing how these gatherings served as crucial platforms for social change, empowerment, and community building. Through a rich tapestry of anecdotes, recipes, and meeting organization tips, Benton invites her readers to appreciate the cultural significance of women's clubs and their pivotal role in championing women's rights during a transformative era in American history. Caroline French Benton, a pioneer in the social and cultural analysis of women's roles, frequently drew from her experiences and observations as an active participant in various women's organizations. Her background in literature and keen understanding of social dynamics encouraged her to document and celebrate the contributions of these clubs to the feminist movement. Benton's unique voice not only reflects her personal commitment to women's advocacy but also her ties to the broader sociopolitical landscape of her time. This book is highly recommended for anyone interested in gender studies, social history, or the evolution of community organization. By exploring Benton's work, readers will not only gain practical insights into forming and leading clubs but also appreciate the historical context that shaped women's roles in society.

**Encyclopedia of New Religious Movements** Peter Clarke,2004-03-01 New Religious Movements (NRMs) can involve vast numbers of followers and in many cases are radically changing the way people understand and practice religion and spirituality. Moreover, many are having a profound impact on the form and content of mainstream religion. The Encyclopedia of New Religious Movements provides uniquely global coverage of the phenomenon with entries on over three hundred movements from almost every country in the world. Coverage includes movements that derive from the major religions of the world and to neo-traditional movements movements often overlooked in the study of NRMs. In addition to the coverage of particular movements there are also entries on topics, themes, key thinkers and key ideas for example the New Age Movement, Neo Paganism, New Religion and gender NRMs and cyberspace NRMs and the law, the Anti-Cult Movement, Swedenborg, Jung, Teilhard de Chardin, Lovelock, Gurdjieff, al-Banna, Qutb. The marked global approach and comprehensiveness of the encyclopedia enable an appreciation of the innovative energy of NRMs of their extraordinary diversity and the often surprising ways in which they can propagate geographically. *Spirituality without God* Peter

Heehs,2018-11-01 Spirituality without God is the first global survey of godless spirituality Long before spiritual but not religious became the catchphrase of the day there were religious and spiritual traditions in India China and the West that denied the existence of God Peter Heehs begins by looking at godless traditions in the ancient world Indian religions such as Jainism and Buddhism showed the way to liberation through individual effort In China Confucians and Daoists taught how to live in harmony with nature and society Philosophies of the Greco Roman world such as Epicureanism Stoicism and Skepticism focused on enhancing the quality of life rather than buying the favor of the gods through sacrifice or worship Heehs shows how these traditions rediscovered during the Renaissance helped jump start the European Enlightenment and opened the way to the atheism and agnosticism of the eighteenth and nineteenth centuries The personal inner approach to religion became known as spirituality Spirituality without God is a counterbalance to theistic narratives that have dominated the field as well as an introduction to modes of spiritual thought and practice that may appeal to people who have no interest in God

*Studies and Texts in Folklore, Magic, Mediaeval Romance, Hebrew Apocrypha, and Samaritan Archaeology* Moses Gaster,1971    *Mystical Discourse in Wordsworth and Whitman* D. J. Moores,2006 In Mystical Discourse D J Moores builds on the work of current transatlantic scholarship in a lucid analysis of the connections between William Wordsworth and Walt Whitman As he demonstrates the transatlantic bridge between both poets lies in their privileging of a type of mystical language he calls cosmic rhetoric which served the function of ideological resistance as it enabled them to rebel against Enlightenment modes of thinking and being In a thorough engagement with the work of Wordsworth and Whitman Moores shows that the cosmic rhetoric of both writers involves a subversive reorientation towards self and society nature and God and knowledge and religion as well as a radical revisioning of language and poetics
