Quality and Qualities: Tensions in Education Reforms Clementina Acedo,Don Adams,Simona Popa,2012-09-07 Quality and Qualities Tensions in Education Reforms is a provocative call for understanding and further exploring the elusive concept of quality in education Although education quality has acquired high priority in the past few decades the multiplicity of conceptualizations of quality

also reflects the concerns and foci of multiple stakeholders Coming to an understanding of quality education involves careful analysis of the context from which any particular reform or program emerges and of the continuing struggle to define and achieve it Two main questions persist who benefits from particular policies focused on quality And what are the potential tradeoffs between a focus on quality equitable distribution of education and inclusion of various traditional expectations This book explores notions of quality as understood within various systems of national formal and nonformal education Also it considers the tensions that arise with the introduction of new standardized notions of quality in relation to international measures and educational reforms in developing countries In all cases specific national issues and concerns compete with global agendas Challenges to quality that are given particular attention in the book chapters include changing definitions of quality high expectations for education and issues with implementation and the introduction of English as a means to achieve quality in a globalizing world Special attention is also given to possible actions that support a more equitable education without ignoring the requisite of quality The final chapter suggests three models choices for seeking higher quality and guiding the educational future of nations

We Simply Adore India Chöphel,2019-01-01 The government and the people of India welcomed us with open arms when we knocked at her door for sanctuary India not only provided us refuge but also education to our children and helped us to stand on our feet We have been living in India for the last six decades and in the process have accumulated a large number of debts to the government and people of India for their kind hospitality If India had not granted us political asylum and wiped our tears we would not have survived as we are surviving now Words cannot express how grateful we are to the government and the people of India India has provided us with all the necessary tools to safeguard our unique language culture history and traditions and keep the spirit of Tibetan nationalism alive No country has done as much as India has done for us We rely on India like we rely on the sun We have reasons to believe that India will stand by us like a rock and never let us down under the pressure of Beijing We simply adore India It is this message which we want to convey to the 1 35 billion people of India on the sixtieth year of our exile in India
