

# Detailed and critical reading

Follow the same procedure but focus your attention and concentration.

Do not concern yourself with how fast or slowly you read

Your goal should be to understand the material, not to find out how fast you can complete it.

Critical reading tries to accomplish four goals:

- to recognize an author's purpose
- to understand tone and persuasive elements
- to recognize bias
- to analyse the value of what is written

To do this you need to consider the following questions:

What a text **says** – look for key themes

What a text **does** – look for discussion around key aspects

What a text **means** – analyses the text and look for meaning
