**Young Adult and Canonical Literature** Paula Greathouse, Victor Malo-Juvera, 2021-03-15 In the last decade alone the world has changed in seismic ways as marriage equality has been ruled on by the supreme court social justice issues such as metoo and BlackLivesMatter have arisen and issues of immigration and deportation have come to the forefront of politics across the globe Thus there is a need for an updated text that shares strategies for combining canonical and young adult literature that reflects the changes society has and continues to experience The purpose of our collection is to offer secondary 6 12 teachers engaging ideas and approaches for pairing young adult and canonical novels to provide unique examinations of topics that teaching either text in isolation could not afford Our collection does not center canonical texts and most chapters show how both texts complement each other rather than the young adult text being only an

extension of the canonical Within each volume the chapters are organized chronologically according to the publication date of the canonical text The pairings offered in this collection allow for comparisons in some cases for extensions in others and for critique in all Volume 2 covers The Canterbury Tales 1392 through Fallen Angels 1988 *Refining Prevention: Genetic and Epigenetic Contributions* Steven Beach, Jessica McDermott Sales, 2016-04-11 Currently most prevention efforts are famed as universal interventions However despite the demonstrated efficacy of many prevention programs variability in response is the rule with some participants responding very little and others accounting for the bulk of the positive impact of the program Better understanding the processes associated with better and worse response to prevention is a critical first step in refining and adapting existing programs or alternatively designing new prevention programs with enhanced outcomes Because vulnerabilities to substance use emotional problems risky sexual behavior and other behavioral problems are influenced by a combination of environmental genetic and epigenetic factors mediated in part through psychological processes Kreek et al 2005 Rutter et al 2006 the study of genetic and epigenetic vulnerability and susceptibility factors provides an important starting point for efforts to address this critical need A growing body of research on differential genetic susceptibility indicates that efforts to enhance prevention impact may benefit from consideration of the contribution of individual genetic differences to treatment response Brody et al 2013 In addition the recent expansion of genetic research to include a focus on epigenetic change provides considerable promise for the development of indicated prevention and individually tailored prevention efforts However before this promise can be realized a number of theoretical and practical challenges remain Thus through this special section we propose to provide a foundation for a new era of prevention research in which the principles of prevention science are combined with genomic science In the current special section we will bring together authors to deal with genetic and epigenetically driven processes relevant to depression substance abuse and sexual risk taking Together they will comment on and provide data relevant to assessment research and statistical methods development of biomarkers and implementation strategies with disadvantaged and high risk populations The papers will help to inform the development of a new generation of prevention programs that go beyond universal programs and sensitively target key processes while providing greater precision regarding prediction of population level impact Brody GH Beach SRH Hill KG Howe GW Prado G Fullerton SM 2013 Using genetically informed randomized prevention trials to test etiological hypotheses about child and adolescent drug use and psychopathology American Journal of Public Health 103 Suppl 1 S19 24 Doi 10 2105 AJP 2012 301080 Kreek MJ Nielsen DA Butelman ER LaForge KS 2005 Genetic influences on impulsivity risk taking stress responsiveness and vulnerability to drug abuse and addiction Nature Neuroscience 8 1450 1457 Rutter M Moffitt TE Caspi A 2006 Gene environment interplay and psychopathology Multiple varieties but real effects Journal of Child Psychology and Psychiatry 47 226 261 **Handbook of Research on Online Discussion-Based Teaching Methods** Wilton, Lesley, Brett, Clare, 2020-05-01 In this digital age faculty teachers and teacher educators are increasingly expected to

adopt and adapt pedagogical perspectives to support student learning in instructional environments featuring online or blended learning One highly adopted element of online and blended learning involves the use of online learning discussions Discussion based learning offers a rich pedagogical context for creating learning opportunities as well as a great deal of flexibility for a wide variety of learning and learner contexts As post secondary and increasingly K 12 institutions cope with the rapid growth of online learning and an increase in the cultural diversity of learners it is critical to understand at a detailed level the relationship between online interaction and learning and how educationally effective interactions might be nurtured in an inclusive way by instructors The Handbook of Research on Online Discussion Based Teaching Methods is a cutting edge research publication that seeks to identify promising designs pedagogical and assessment strategies conceptual models and theoretical frameworks that support discussion based learning in online and blended learning environments This book provides a better understanding of the effects and both commonalities and differences of new tools that support interaction such as video audio and real time interaction in discussion based learning Featuring a wide range of topics such as gamification intercultural learning and digital agency this book is ideal for teachers educational software developers instructional designers IT consultants academicians curriculum designers researchers and students Handbook of Research on the Education of Young Children Bernard Spodek,Olivia N.
