**Freedom to Die** Derek Humphrey, Mary Clement, 2000-04-17 The strength of the right to die movement was underscored as early as 1991 when Derek Humphrey published *Final Exit* the movement's call to arms that inspired literally hundreds of thousands of Americans who wished to understand the concepts of assisted suicide and the right to die with dignity Now Humphrey has joined forces with attorney Mary Clement to write *Freedom to Die* which places this civil rights story within the framework of American social history More than a chronology of the movement this book explores the inner motivations of an entire society Reaching back to the years just after World War II *Freedom to Die* explores the roots of the movement and answers the question Why now at the end of the twentieth century has the right to die movement become part of the mainstream debate In a reasoned voice which stands out

dramatically amid the vituperative clamoring of the religious right the authors examine the potential dangers of assisted suicide suggesting ways to avert the negative consequences of legalization even as they argue why it should be legalized

**The Fifth Freedom** David Erickson, 2023-02-27 It is within our power to provide an opportunity rich childhood for all In 1941 President Franklin Roosevelt delivered his famous Four Freedoms speech In that speech Roosevelt proposed that all Americans should be granted the freedom of speech freedom of worship freedom from want and freedom from fear In his new book *The Fifth Freedom* senior vice president at the Federal Reserve Bank of New York David Erickson makes the case for the freedom to an open future The status quo in the United States is unfair and expensive We spend too much on downstream consequences of people living in poverty rather than spending money on the upstream conditions that would guarantee an opportunity rich childhood for all A strong foundation in childhood is the best predictor of a healthy and productive adulthood A commitment to the fifth freedom would save trillions on avoided chronic disease incarceration educational failures and lost productivity The Fifth Freedom calls for place based institutions that support growth and development good schools well funded libraries safe streets and public spaces quality health care spiritual homes and well functioning transportation that puts other essential amenities in reach especially jobs that work in concert with individual interventions tutoring counseling and coaching Not providing children with the resources they need is more expensive than reacting the negative consequences of not having them
