Religious Conversion Sarah Claerhout, Jakob De Roover, 2022-05-06 This book re-examines the issue of religious conversion which has been a site of conflict in India for several centuries. It discusses wide-ranging themes such as conversion education and reform in colonial India, the process and practices of conversion in Christian Europe, Gandhi conversion and the equality of religions, perspectives from Hindu nationalism, secularism and religious minorities, religious freedom and the limits of propagating religion and conversion in constitutional law, commissions and courts to chart new directions for research on religion, tradition and conversion. Tracing developments from the 19th century colonial era to contemporary times, the book analyses cultural background, frameworks and the origins of religious conversion and its conceptualisation in Western Christianity. It further delves into how Indian culture and its traditions have shaped responses to conversion. Part of the Critical Humanities Across Cultures series, this book will be useful to scholars and researchers of critical humanities, religion, cultural studies, sociology of religion, comparative religion, philosophy, anthropology, theology, Indology, history, politics, postcolonial studies, critical theory and South Asian studies. **Religious Conversion in India** Manohar James, 2022-03-14 In this book, Dr Manohar James explores how Hindu intolerance has contributed to anti-Christian propaganda over the centuries, how such intolerance has informed the conclusions of the Niyogi Committee Report and how the Report's ongoing publications, redactions and recessions have intensified anti-Christian rhetoric in India over the last six decades. **Religious Diversity in Asia** Jørn Borup, Marianne Qvortrup Fibiger, Lene Kühle, 2019-10-01 The religious landscape in Asia has long been diverse with various forms of syncretic traditions and pragmatic practices continuously having been challenged by centrifugal forces of differentiation. This anthology explores representations and managements of religious diversity in Japan, China, South Korea, Vietnam, the Philippines, Indonesia, Sri Lanka, India and diaspora religions originating in these countries, seen through the lenses of history, identity, state, ritual and geography. In addition to presenting empirical cases, the chapters also address theoretical and methodological reflections using Asia as a laboratory for further comparative research of the relevance and use of religious diversity. Contributors are Donald Baker, Ugo Dessi, Chung Van Hoang, Ayelet Harel, Shalev Noa, Levy Gideon, Elazar Santosh, K Singh Yu, Tao Ed, Griffith Satoko, Fujiwara Uwe, Skoda Tudor Silva, Martin Tsang, Marianne Q Fibiger, Jørn Borup and Lene Kühle. Religious Diversity in Asia was made possible by a framework grant from the Danish Agency for Science, Technology and Innovation, allowing the grant holder Jørn Borup and two colleagues, Marianne Q Fibiger and Lene Kühle, to host a workshop at Aarhus University and to co-arrange workshops in Delhi and Nagoya. We would like to thank professors Arshad Alam and Michiaki Okuyama for hosting these latter workshops at Jawaharlal Nehru University and Nanzan University and we would like to thank Professor Chong Suh Kim for the invitation for Jørn Borup to visit Seoul National University. We would also like to extend our gratitude to all the scholars who

participated in the workshops and to all the authors we subsequently invited to contribute to our endeavor to create this academically relevant volume **Pentecostalism and Religious Conflict in Contemporary India** Sarbeswar

A History of Christian Conversion David W. Kling,2020 In this first in depth and wide ranging history of Christian conversion David Kling examines the dynamic of turning to the Christian faith by individuals families and people groups Global in reach and engaging recent methods and

theories in conversion studies the narrative progresses from early Christian beginnings in the Roman world to Christianity's expansion into Europe the Americas China India and Africa Although conversion is often associated with a particular strand of modern Christianity evangelical and a particular type of experience sudden overwhelming when examined over two millennia it emerges as a phenomenon far more complex than any one dimensional profile would suggest *A Nation Like All Nations* Moshe Berent,2015-04-21 Is there an Israeli nation How is it related to the historical Jewish People How is it related to the Zionist movement Under what conditions could non Jews become equal members of this nation These and other questions stand at the center of the Moshe Berent's *A Nation Like All Nations Towards the Establishment of an Israeli Republic* The mission of the Zionist movement was to work toward the normalization of Jewish existence to become a nation like all nations Israel contrary to that aspiration is not a normal nation state since according to the formal national ethos it belongs to the Jewish people and there is no recognized Israeli nation Dr Berent asserts that the fusion of nationality and religion together with the absence of a normal nation state are the source of Israel's basic problems and are responsible for Israel's powerlessness to solve problems i.e. the status of religion in public life The relations between seculars and religious the status of non Jews especially Arabs the absence of a constitution the inability to agree about borders or to decide about peace and war *A Nation Like All Nations Towards the Establishment of an Israeli Republic* makes the case that a separation between nationality and religion the recognition in the existence of an Israeli nation and the establishment of Israel as a republic as the State of the Israeli nation is a pre condition for finding the solution of all of these problems *World Report 2005* Human Rights Watch,2005 The introduction to this annual publication reflects on recent events and recent changes in the world The body of the annual report considers the human rights record of some 150 governments throughout the world

Decolonizing Bharat the Balu Way Pingali Gopal,2025-01-07 Bharat is a civilisationalcultural unity that has stood strong for at least five thousand years The people of the land defined by its geographical boundaries represent a unified culture transcending many of the divisive narratives breaking India today Hindus versus nonHindus Dravidians versus nonDravidians tribals versus nontribals upper castes versus lower castes and so on The essence of Bharat is Sanatana Dharma a phenomenon best understood as a conglomerate of many traditions both Vedic and nonVedic Though the foundational basis of Indian culture has been Vedic the interaction with nonVedic traditions involved synchrony syncretism and even debates but without physical violence However beyond all that the fundamental characteristic of traditions toward each other has been indifference to differences This is the key to understanding the overwhelmingly peaceful nature of multiculturalism in the country which involves many languages religions faiths and subcultures The current understanding of the world and India only fuels conflict A deeper comprehension of traditional India could potentially rediscover solutions for the pluralism of the world packing now into increasingly smaller geographical areas *Of Little Faith* Amy E. Black,2004-04-21 George W Bush had planned to swear his oath of office with his hand on the Masonic Bible used by both his father and George

Washington however due to the inclement weather a family Bible was substituted Almost immediately on taking office President Bush made passage of faith based initiatives the government funding of religious charitable groups a legislative priority However inclement weather storm tossed his hopes for faith based initiatives as well What happened Why did these initiatives which began with such vigor and support from a popular president fail And what does this say about the future role of religious faith in American public life Amy Black Douglas Koopman and David Ryden all prominent political scientists utilize a framework that takes the issue through all three branches of government and analyzes it through three very specific lenses a public policy lens a political party lens and a lens of religion in the public square Drawing on dozens of interviews with key figures in Washington the authors tell a compelling story revealing the evolution of the Bush faith based strategy from his campaign for the presidency through congressional votes to the present They show how political rhetoric infighting and poor communication shipwrecked Bush's efforts to fundamentally alter the way government might conduct social services The authors demonstrate the lessons learned and propose a more fruitful effective way to go about such initiatives in the future

Anti-Christian Violence in India Chad M. Bauman, 2020-09-15 Does religion cause violent conflict asks Chad M Bauman and if so does it cause conflict more than other social identities Through an extended history of Christian Hindu relations with particular attention to the 2007 2008 riots in Kandhamal Odisha Anti Christian Violence in India examines religious violence and how it pertains to broader aspects of humanity Is religious conflict sui generis or is it merely one species of intergroup conflict Why and how might violence become an attractive option for religious actors What explains the increase in religious violence over the last twenty to thirty years Integrating theories of anti Christian violence focused on politics economics and proselytization Anti Christian Violence in India additionally weaves in recent theory about globalization and in particular the forms of resistance against Western secular modernity that globalization periodically helps to provoke With such theories in mind Bauman explores the nature of anti Christian violence in India contending that resistance to secular modernities is in fact an important but often overlooked reason behind Hindu attacks on Christians Intensifying the widespread Hindu tendency to think of religion in ethnic rather than universal terms the ideology of Hindutva or Hinduness explicitly rejects both the secular privatization of religion and the separability of religions from the communities that incubate them And so with provocative and original analysis Bauman questions whether anti Christian violence in contemporary India is really about religion in the narrowest sense or rather a manifestation of broader concerns among some Hindus about the Western sociopolitical order with which they associate global Christianity
