Freedom Henri Bergson, 2024-05-02 For 15 years Henri Bergson the most important French philosopher of the early 20th century taught at the Collège de France Speaking without notes most of his classes are now lost to history but records of a handful of courses fortuitously survived thanks to stenographic transcripts Conveying Bergson's very voice these extraordinary documents are finally presented here in English The 1904-1905 lectures are dedicated to the topic of freedom or as Bergson put it the evolution of the problem of freedom Building on the philosophy of freedom from his first book Time and Free Will he proposes that freedom is not only a fundamental human experience but characteristic of all life as such By retracing how ancient and modern philosophers have dealt with the delicate question of freedom Bergson demonstrates the necessity and also the radically new character of his own theory of freedom Bergson's lectures are a feast for many audiences For philosophers they give a fuller picture of his thought and contain deep reflections on many core topics in philosophy today from the nature of time to the difference between brain and mind the relation between memory and perception and the vindication of freedom over determinism For intellectual historians the lectures are a treasure trove as a slice of the living thought of a great thinker as an extended analysis of the natural and human sciences of his day and as a rich commentary on the history of ancient and modern philosophy Finally for cultural historians and literary scholars the lectures were the cultural capital of Belle époque France consumed by elites and a vast educated public They are also part of an exceedingly rare genre in modern philosophy spoken not written lectures and expressed as a veritable stream of philosophical consciousness that is remarkably structured and analytically lucid **Spirituality For Freedom** S.K.

again or even for the first time with the One who first breathed that life into you and Who desires every day to breathe more and more life into every corner of your being Dr Henry Cloud New York Times bestselling author of *Boundaries and Changes That Heal* The Zen Manifesto: Freedom From Oneself Osho,2023-03-17 It is time ripe time for a Zen manifesto The Western intelligentsia have become acquainted with Zen have also fallen in love with Zen but they are still trying to approach Zen from the mind They have not yet come to the understanding that Zen has nothing to do with mind Its tremendous job is to get you out of the prison of mind It is not an intellectual philosophy it is not a philosophy at all Nor is it a religion because it has no fictions and no lies no consolations It is a lion s roar And the greatest thing that Zen has brought into the world is freedom from oneself All the religions have been talking about dropping your ego but it is a very weird phenomenon they want you to drop your ego and the ego is just a shadow of God God is the ego of the universe and the ego is your personality Just as God is the very center of existence according to religions your ego is the center of your mind of your personality They have all been talking about dropping the ego but it cannot be dropped unless God is dropped You cannot drop a shadow or a reflection unless the source of its manifestation is destroyed The Concept of Freedom in the Writings of St. Francis de Sales Eunan McDonnell,2009 Through the examination of the concept of freedom in the writings of St Francis de Sales the author concludes that in contradistinction to a contemporary understanding of freedom perceived as self determination a Salesian understanding privileges freedom s relationship to the good This situates St Francis de Sales in the classical Thomistic tradition of freedom s necessary relationship to the good but involves a methodological shift as he employs the Renaissance starting point of the turn to the subject This study demonstrates how St Francis arrives inductively at what St Thomas demonstrated deductively namely the essential relationship of freedom to the good Along with this Thomistic influence the author analyses the Salesian indebtedness to Augustinian anthropology which explains the primacy St Francis gives to the will and consequently to love Love understood as the heart s movement towards the good allows the Salesian approach to move beyond the confines of a traditional faculty psychology to embrace a more biblical understanding of the human person This examination of love s relationship to freedom reveals their teleological and archaeological natures coming back to our origins wherein we discover the source of our freedom bestowed on us as a gift from God *The Concept of Freedom in Judaism, Christianity and Islam* Georges Tamer,Ursula Männle,2019-08-19 The third volume of the series *Key Concepts of Interreligious Discourses* investigates the roots of the concept of freedom in Judaism Christianity and Islam and its relevance for the present time The idea of freedom in terms of personal freedoms which include freedom of conscience freedom of speech and bodily integrity is a relatively new one and can in some aspects get into conflict with religious convictions At the same time freedom as an emancipatory power from outer oppression as well as from inner dependencies is deeply rooted in Judaism Christianity and Islam It is still a vital concept in religious and non religious communities and movements The volume presents the concept of freedom in its different aspects as anchored in the traditions of Judaism

Christianity and Islam It unfolds commonalities and differences between the three monotheistic religions as well as the manifold discourses about freedom within these three traditions The book offers fundamental knowledge about the specific understanding of freedom in each one of these traditions their interdependencies and their relationship to secular interpretations

Freedom for Obedience Donald G. Bloesch, 2002-04-15 The Christian ethic is an ethic that cannot be assimilated into the moral consensus of the wider community The way of the cross cannot be reconciled with the way of the world just as the gospel cannot be conjoined with the laws that gave stability to social order The thesis of this book is that human justice can never be a substitute for divine justification but it can be a sign and witness to the justifying grace of God in Jesus Christ Humanitarian works can never reach the heights of deeds of sacrificial love and mercy but they can point to this higher righteousness and awaken a thirst for it We must always be on guard against two perils the Scylla of legalism and rigorism and Charybdis of antinomianism An ethics of the divine commandment by uniting law and grace the imperative and the indicative shows how we can live the authentic Christian life in obedience to the highest which is not a law but a person not an ideal but the reality of the New Being the power of crucified love as we see this in Jesus Christ from Freedom for Obedience

Freedom of Thought and Societal Forces Rudolf Steiner, 2008-11 13 lectures Stuttgart October 3 15 1922 CW 217 This cycle of lectures to the younger generation speaks of a pathway to a Michaelic harvest for ears that have the goodwill to hear Carlo Pietzner Rudolf Steiner presented these lectures to about a hundred German young people who hoped to bring Waldorf education into the culture of their time and for the future Steiner stressed upon his listeners the great importance of self education as a prerequisite to all other education His was an attempt to guide the youth toward understanding themselves within the world situation Steiner showed how the stream of generations had been interrupted by eighteenth century intellectualism emphasizing that they would have to reject the general acceptance of impersonal social routine dead intellectual thinking and personal and social egoism Steiner discussed the need instead for a form of education permeated by art and feeling which brings inner nourishment that can grow throughout one's life It was his view that without such an education society will not reach a future built on moral love and mutual human confidence a truly human culture A previous edition of these lectures was published as The Younger Generation Educational and Spiritual Impulses for Life in the Twentieth Century 1967 Original German title Geistige Wirkenskräfte im Zusammenleben von alter und junger Generation Pädagogischer Jugendkurs GA 217 This Collected Works edition includes a new introduction notes and an index

Necessity and Freedom Rudolf Steiner, 1989-05 10 lectures Basel September 15 24 1912 CW 139 Steiner tells us that Mark was especially able to reveal Christ as a cosmic being of his greatness and power because after having been a pupil of Peter he moved to Alexandria during a time when Jewish philosophy and theology was at its peak There he absorbed the best aspects and views of pagan gnosis Mark was able to learn how humankind came arose from the spiritual world and how the luciferic and ahrimanic forces are taken into the human soul Mark was able to accept everything that was told to him by

pagan gnosis concerning our human origin out of the cosmos when our planet came into being But he could also see especially from his perspective in Egypt the strong contrast between our original human destiny and what humankind had become during his time This lecture cycle like the Gospel itself is a work of art in its own right This book is a translation of the German edition Das Markus Evangelium GA 139

The Soul and Secrets of Its Structure Larisa Seklitova, Ludmila Strelnikova, 2011-04-04 Since ancient times people have known about existence of the soul Every present religion on the Earth acknowledges that the man has it and all religions confirm that the soul is immortal and its loss is equal to death People offer prayers about salvation of their souls as the greatest value Many religions accept the reincarnation theory i e incarnating of the soul when the soul leaves human body after death and moves to newly born human body to proceed its development Thus what is the soul and what's the structure Our Heavenly Teachers have decided that it is time to give the humanity of third millennium new knowledge about the soul as people of sixth race who will live on the Earth in this period of time will be able to accept and understand these revealed truths This book is devoted to this topic New knowledge about the soul is shown up with care not to shock by the avalanche of new concepts For the first time they revealed that the soul is not only the eddy of invisible spirit but it has like the human body its own structure The first chapter of the book is about the structure of the soul Creation of Soul Jesus Christ says in the Bible In my Father's house there are many rooms This means there are many inhabited worlds in the Cosmos Souls for these worlds are created by God himself and his aides special Hierarchical Systems It takes 9 cosmic years to create one soul One cosmic year is approximately equal to 1 billion earthly years because time of God and time on the Earth flies differently God creates the soul and makes it spiritual The only God governs the Great Secret of vivification Without vivification there cannot be life as well When we asked God What is the soul He answered The soul is the integral part of the Absolute Many souls are sort of its interior filling They are its main Units like cells in your body All souls piece out the huge nature of the Absolute and God Structure of Soul The Soul is the complex energetical construction It is a volumetric favose structure matrix where one volume enters another and all are merged Cells of the matrix are completely digits which carry out energy Total volume of the soul is called configuration Types of soul configurations vary greatly The self

construction principle is laid in the matrix Every soul while developing builds its configuration basing on energetical volumes which fill up cells of the matrix Qualitative and quantitative composition is different within all matrices That is the reason why there are no two absolutely similar souls The matrix is of great importance for every individual because a personality is not personality without it Individual ceases existing without the matrix as an inspired creation The soul is triune It consists of 3 principles plus minus and managerial When a soul has just been created all these three principles are equal and every part occupies 1/3 of total matrix volume In the course of development the balance between its parts constantly changes although if the managerial part reaches half the volume it maintains this balance This is a program of soul construction Soul Development Development and improvement of soul in everyday life consist in acquisition of life experience new knowledge evolving feelings and intellect but on energetical plane it is enlargement of own energetical potential The sense of life and any existence in any world is development of soul There are only two ways of soul development for the man plus direction to God and minus one to Devil Ways of virtue creativity development through medicine and additionally way of computation and programming connected with creativity lead to God Ways of evil degradation automatism and programming without creativity principle lead to Devil Development of soul in any world is based on a program Program of development is drawn up per one incarnation in the material body It is saved on one of hum
