Freedom Strike:

Human Strike and the Art of Creating Freedom Claire Fontaine, 2020-12-29 The first English language publication of writings by the collective artist Claire Fontaine addressing our complicity with anything that limits our freedom This anthology presents in chronological order all the texts by collective artist Claire Fontaine from 2004 to today Created in 2004 in Paris by James Thornhill and Fulvia Carnevale the collective artist Clare Fontaine creates texts that are as experimental and politically charged as her visual practice In these writings she uses the concept of human strike and adopts the radical feminist position that can be found in Tiquun a two issue magazine cofounded by Carnevale Human strike is a movement that is broader and more radical than any general strike It addresses our inevitable subjective complicity with everything that limits our freedom and shows how to abandon these self destructive behaviors through desubjectivization Human strike Claire Fontaine writes is a subjective struggle to separate from the inevitable harm we do to ourselves and others simply by living within postindustrial neoliberalism Human Strike is the first English language publication of Claire Fontaine's influential and important theoretical writings *The Right to Strike in International Law* Jeffrey Vogt, Janice Bellace, Lance Compa, K D Ewing, John Hendy QC, Klaus Lörcher, Tonia Novitz, 2020-03-19 This monograph was originally developed as a direct response to the claim made by members of the Employers Group at the 2012 International Labour Conference namely that the right to strike is not protected in international law and in particular by ILO Convention 87 on the right to freedom of association The group's apparent aim was to sow sufficient doubt as to the existence of an internationally protected right so that governments might seek to limit or prohibit the right to strike at the national level while still claiming compliance with their international obligations In consequence some governments have seized on the employers arguments to justify new limitations on that right The Right to Strike in International Law not merely refutes this claim but is the only complete and exhaustive analysis on this subject Based on deep legal research it finds that there is simply no credible basis for the claim that the right to strike does not enjoy the protection of international law indeed the authors demonstrate that it has attained the status of customary international law **Freedom of Association...** International Labour Office, 1927 **Political Freedom** Howard Davis, 2000-01-01 Howard Davis looks at how the presence of political motives when balanced against other motives affects the legal character of the action and asks why common law and statute should differentiate the political from the nonpolitical An original and important contribution to the debate on the nature of an effective democracy and the legal rules necessary to establish and sustain it **The Freedom Voyage 75 Movements** Dr. Mili, 2025-02-22 While mainstream narratives often highlight wellknown leaders and iconic events this book uncovers information about some marginalised groups and grassroot level revolts that played crucial roles in challenging British rule in India by focusing on 75 freedom movements some of which remain largely unknown India's struggle for freedom is not just a story of battles and politics but also a story of dreams sacrifices and the will of countless people who believed in tomorrow Each chapter shines

light on a different struggle and movement showing India's diverse yet united fight for freedom. This book reveals the depth of India's fight for freedom, offering a fresh perspective on a shared dream that united the nation in its quest for independence. *The Granite Cutters' Journal*, 1912. The Chicago Freedom Movement Mary Lou Finley, Bernard LaFayette Jr., James R. Ralph Jr., Pam Smith, 2016-04-22. Six months after the Selma to Montgomery marches and just weeks after the passage of the Voting Rights Act of 1965, a group from Martin Luther King Jr.'s staff arrived in Chicago eager to apply his nonviolent approach to social change in a northern city. Once there, King's Southern Christian Leadership Conference (SCLC) joined the locally based Coordinating Council of Community Organizations (CCCO) to form the Chicago Freedom Movement. The open housing demonstrations they organized eventually resulted in a controversial agreement with Mayor Richard J. Daley and other city leaders, the fallout of which has historically led some to conclude that the movement was largely ineffective. In this important volume, an eminent team of scholars and activists offer an alternative assessment of the Chicago Freedom Movement's impact on race relations and social justice both in the city and across the nation. Building upon recent works, the contributors reexamine the movement and illuminate its lasting contributions in order to challenge conventional perceptions that have underestimated its impressive legacy. **The New Freedom** William A. Donohue, 2021-09-28. The root cause of contemporary American psychological and social disorders, argues William Donohue in this major new book, is the dominant culture's embrace of a fraudulent conception of freedom. In fact, the tension between an individual liberty without limits and the social need for civility and community has created havoc in the lives of many Americans. Conventional wisdom about the nature of freedom is characterized by both the uncoupling of a concept of rights from a concept of responsibilities and by an overweening doctrine of moral neutrality. This preoccupation with individual liberty to the neglect of other competing values has left a trail of social discord that will be difficult to redress. Constraint of any kind is now seen as the enemy of liberty, and all that limits or burdens the individual in any way is seen as anathema to freedom. *The New Freedom* critically examines how this new concept of freedom developed historically and why it exploded on the American scene in the 1960s. Its impact on the deepest recesses of American society, including marriage, the family, sexuality, the schools, the churches, and the criminal justice system, are fully explored. The costs have been high. Information on the psychological and social health of Americans suggests that all is not well. But the ultimate cost, says Donohue, may be the ultimate failure of liberty as the fraudulent new freedom collides with the human need for community. Sure to be controversial, *The New Freedom* will provide policymakers, social scientists, and specialists in the family, education, and religion a compelling new perspective on old questions. The book will also appeal to general readers who seek to understand the root causes of the nation's unprecedented volume of social and psychological problems. Free Trade & Freedom Karla Slocum, 2006. Considers the relationship between market liberalization, social movements, and everyday forms and narratives of work. Regulating Strikes in Essential Services Moti (Mordehai) Mironi, Monika Schlachter, 2018-11-09.

Designing a fair effective and acceptable regime that will reconcile public interest and the public's need for an uninterrupted flow of essential services on the one hand while maintaining the freedom of collective bargaining on the other is an ever more difficult public policy challenge. This book, the first detailed comparative analysis of existing legal and practical approaches across a spectrum of key national jurisdictions, provides a structured and insightful overview of the law and practice of regulating strikes in essential services. As such, it can be of great value for public policy debate and the enhancement of national law in the field. The editors have assembled experts from fourteen countries who describe and analyse their respective country's experience with strikes in essential services and the legislative and judicial as well as informal approaches towards regulating and intervening in such strikes. Departing from legal theory with systematic comparative law in action research, the contributors offer innumerable valuable insights into a broad array of issues and topics as the following mechanisms: aiming at compensating employees for encroaching on their collective bargaining rights, public accountability and responsible management of public finance, role of international conventions, effects of globalization and advances in technology, privatization, outsourcing and the decline of unions and workers' solidarity, growing popular intolerance towards strikes in essential services, effect of human rights related court decisions, convergence and divergence among contemporary legal regimes in defining and approaching strikes in essential services, dispute process design and dispute resolution processes, mediation, conciliation and arbitration and substantive and procedural restrictions on the right to organize, bargain collectively and strike. The country reports are preceded by a detailed analysis of the inherent normative policy dilemma and a conceptual framework for designing and evaluating models of regulation. The concluding chapter presents a comparative overview of the insights gained. With its comparative perspective on one of the most sensitive areas of industrial relations and labour law and its contextually relevant options for strategic choice and public policy debate, this incomparable volume will be welcomed by labour lawyers, legislators, policy makers, judicial bodies and researchers in the field of collective labour relations and fundamental human rights of workers on the national as well as international level.

Land and Freedom Joseph Dana Miller, 1901 Joint Force Quarterly, 2008 *Freedom's Children* Colin A. Palmer, 2014 *Freedom's Children* The 1938 Labor Rebellion and the Birth of Modern Jamaica *Red Road to Freedom* Tom Lodge, 2022 Definitive and gripping narrative history of the Communist Party of South Africa **Experiences of Freedom in Postcolonial Literatures and Cultures** Annalisa Oboe, Shaul Bassi, 2011-03-30 Modern ideas of freedom and human rights have been repeatedly contested and are hotly debated at the beginning of the third millennium in response to new theories, needs and challenges in contemporary life. This volume offers culturally diverse contributions to the debate on freedom from the literatures and arts of the postcolonial world, exploring experiences that evoke, desire, imagine and perform freedom across five continents and two centuries of history. *Experiences of Freedom* opens with an introductory philosophical essay by Achille Mbembe and is divided into four sections that consider resisting history and colonialism, the right to move

and to belong the right to believe in free futures imaginative freedom and critical engagement Each section contains a piece of creative writing directly connected to these topics from authors Chris Abani Anita Desai Caryl Phillips and Alexis Wright followed by a selection of critical essays Contributors Chris Abani Rochelle Almeida Gil Anidjar Jogamaya Bayer Elena Bernardini Anne Collett Carmen Concilio Paola Della Valle Roberto Derobertis Anita Desai Lorna Down Francesca Giommi Gareth Griffiths Dave Gunning John C Hawley Peter H Marsden Russell McDougall Achille Mbembe Cinzia Mozzato Kevin Newmark Berndt Ostendorf Mai Palmberg Owen Percy Kirsten Holst Petersen Caryl Phillips Annel Pieterse Christiane Schlote Nermeen Shaikh Patrick Williams Alexis Wright and Robert J C Young

Philosophical Foundations of Labour Law Hugh Collins, Gillian Lester, Virginia Mantouvalou, 2018-12-06 This collection of essays presents an interdisciplinary investigation by lawyers and philosophers into the philosophical ideas concepts and principles that provide the foundation for the field of labour law and employment law The book addresses the doubts that have been expressed about whether a body of labour law that protects workers is needed at all what should be regarded as the proper scope of the field in the light of developments such as the integration of work and home life by means of technology the globalization of the economy and the precarious kinds of work that thrive in the gig economy Paying particular attention to political philosophy and theories of justice the contributions focus on four themes I freedom dignity and human rights II distributive justice and exploitation III workplace democracy and self determination and IV social inclusion

Bread, Freedom, Social Justice Anne Alexander, Mostafa Bassiouny, 2014-10-09 Accounts of the Arab Spring often focus on the role of youth coalitions the use of social media and the tactics of the Tahrir Square occupation This authoritative and original book argues that collective action by organised workers played a fundamental role in the Egyptian revolution which erupted after years of strikes and social protests Drawing on the authors decade long experience of reporting on and researching the Egyptian labour movement the book provides the first in depth account of the emergence of independent trade unions and workers militancy during Mubarak s last years in power and and their destabilising impact on the post revolutionary regimes
