Freeing Someone You Love:

Getting Free Ginny NiCarthy, 2004-10-14 Since its original publication in 1982 *Getting Free* has become the most important self help book on ending domestic violence In this expanded edition NiCarthy features important new information from the latest studies and most recent research on the subject

The Mindful Classroom Tru Leverette, 2022-02-10 The Mindful Classroom Constructive Conversations on Race Identity and Justice helps teachers and discussion facilitators practice and teach mindfulness and movement techniques that can deeply enhance conversations about race identity and social justice furthering social justice efforts at their most basic stage person to person from the face to face or online classroom to the community at large Mindfulness and movement practices can help us prepare for and engage in difficult conversations and the more conscious we become of our emotional mental and physical landscape the more we are able to engage proactively rather than reactively consciously rather than automatically We become able to act or not act rather than react in situations with others The topics of race and social justice are timely and they are triggers Productive engagement with these topics demands we remain mindful of how we may be triggered and how we may be triggering others it demands we pay attention to ourselves at a fundamental level and it demands that we grant such attention to others

The Philosophy of Free Will Paul Russell, Oisin Deery, 2013-02-14 The problem of free will is one of the great perennial issues of philosophy and has been discussed and debated over many centuries The issues that arise in this sphere cover both metaphysics and morals and concern matters of central importance not only for philosophy but also for law theology psychology and the social sciences What is at stake here is nothing less than our self image as responsible moral agents who are in control of our own destiny and fate The investigations and findings of modern science are judged by many to put skeptical pressure on this self image and may challenge its credibility During the past few decades the free will controversy has developed and evolved in exciting and significant ways All the major parties involved in this debate have had to revise and amend their core positions with a view to responding to the sophisticated and searching arguments put forward by their critics and opponents The papers collected in this volume represent the most essential and indispensable contributions to the contemporary debate The specific topics covered include moral luck skepticism and naturalism the consequence argument alternate possibilities libertarian metaphysics compatibilism and reason responsive theories illusionism and revisionism optimism and pessimism and the phenomenology of agency as well as contributions relating to neuroscience and experimental philosophy The collection is arranged in a way that presents the topics covered in a structured and organized manner The general aim is to provide an effective guide for students and readers who are new to the field as well as a useful collection for those who are already familiar with the topics and contributions The contributors include many of the leading and most distinguished figures in the field along with a number of younger scholars who have already had an impact and produced significant work
