the First Indochina War 1944 1954 Unlike previous works which dealt exclusively with the politics of the French Communists this book is among the first to deal with the entire French left and to focus directly on the role of the Socialists

Extremities Darcy Grimaldo Grigsby, 2002-01-01 In the decades following the French Revolution four artists Girodet Gros Gericault and Delacroix painted works in their Parisian studios that vividly expressed violent events in faraway colonial lands This book examines six of these paintings and argues that their disturbing erotic depictions of slavery revolt plague decapitation cannibalism massacre and abduction chart the history of France's empire and colonial politics Darcy Grimaldo Grigsby shows that these paintings about occurrences in the West Indies Syria Egypt Senegal and Ottoman Empire Greece are preoccupied not with mastery and control but with loss degradation and failure and she explains how such representations of crises in the colonies were able to answer the artists' longings as well as the needs of the government and the opposition parties at home Empire made painters devoted to the representation of liberty and the new French nation confront liberty's antithesis slavery It also forced them to contend with cultural and racial difference Young male artists responded says Grigsby by translating distant crises into images of challenges to the self making history painting the site where geographic extremities and bodily extremities articulated one another **Fugitive Rousseau** Jimmy Casas

Klausen, 2014-03-03 Critics have claimed that Jean Jacques Rousseau was a primitivist uncritically preoccupied with noble savages and that he remained oblivious to the African slave trade Fugitive Rousseau presents the emancipatory possibilities of Rousseau's thought and argues that a fresh fugitive perspective on political freedom is bound up with Rousseau's treatments of primitivism and slavery Rather than trace Rousseau's arguments primarily to the social contract tradition of Hobbes and Locke Fugitive Rousseau places Rousseau squarely in two imperial contexts European empire in his contemporary Atlantic world and Roman imperial philosophy Anyone who aims to understand the implications of Rousseau's famous sentence Man is born free and everywhere he is in chains or wants to know how Rousseauian arguments can support a radical democratic politics of diversity discontinuity and exodus will find Fugitive Rousseau indispensable *The Colonial*

*Origins of Modern Social Thought* George Steinmetz, 2025-02-25 A new history of French social thought that connects postwar sociology to colonialism and empire In this provocative and original retelling of the history of French social thought George Steinmetz places the history and development of modern French sociology in the context of the French empire after World War II Connecting the rise of all the social sciences with efforts by France and other imperial powers to consolidate control over their crisis-ridden colonies Steinmetz argues that colonial research represented a crucial core of the nascent academic discipline of sociology especially between the late 1930s and the 1960s Sociologists who became favored partners of colonial governments were asked to apply their expertise to such social problems as detribalization urbanization poverty and labor migration This colonial orientation permeated all the major subfields of sociological research Steinmetz contends and is at the center of the work of four influential scholars Raymond Aron Jacques Berque Georges Balandier and Pierre

Bourdieu In retelling this history Steinmetz develops and deploys a new methodological approach that combines attention to broadly contextual factors dynamics within the intellectual development of the social sciences and sociology in particular and close readings of sociological texts He moves gradually toward the postwar sociologists of colonialism and their writings beginning with the most macroscopic contexts which included the postwar reoccupation of the French empire and the turn to developmentalist policies and the resulting demand for new forms of social scientific expertise After exploring the colonial engagement of researchers in sociology and neighboring fields before and after 1945 he turns to detailed examinations of the work of Aron who created a sociology of empires Berque the leading historical sociologist of North Africa Balandier the founder of French Africanist sociology and Bourdieu whose renowned theoretical concepts were forged in war torn late colonial Algeria

Joint Acquisitions List of Africana ,1977 Heroes of Empire Edward Berenson,2011 Examines through the lives of five important English and French figures the history of the exploration and colonization of Africa between 1870 and 1914 and the role the mass media played in promoting colonial conquest

**The History of Colonization from the Earliest Times to the Present Day** Henry Crittenden Morris,1908 **French Colonialism Unmasked** Ruth Ginio,2006-12-01 Before the Vichy regime there was ostensibly only one France and one form of colonialism for French West Africa FWA World War II and the division of France into two ideological camps each asking for legitimacy from the colonized opened for Africans numerous unprecedented options French Colonialism Unmasked analyzes three dramatic years in the history of FWA from 1940 to 1943 in which the Vichy regime tried to impose the ideology of the National Revolution in the region Ruth Ginio shows how this was a watershed period in the history of the region by providing an in depth examination of the Vichy colonial visions and practices in fwa She describes the intriguing encounters between the colonial regime and African society along with the responses of different sectors in the African population to the Vichy policy Although French Colonialism Unmasked focuses on one region within the French Empire it has relevance to French colonial history in general by providing one of the missing pieces in research on Vichy colonialism Ruth Ginio is a research fellow at the Harry S Truman Research Institute for the Advancement of Peace in the Hebrew University of Jerusalem She is the author of articles in International Journal of African Historical Studies Revue d histoire moderne et contemporaine Cahiers d etudes africaines and several other journals

book unravels the formation of the modern concept of cultural heritage by charting its colonial postcolonial nationalist and global trajectories By bringing to light many unresearched dimensions of the twelfth century Cambodian temple of Angkor Wat during its modern history the study argues for a conceptual connected history that unfolded within the transcultural interstices of European and Asian projects With more than 1 400 black and white and colour illustrations of historic photographs architectural plans and samples of public media the monograph discusses the multiple lives of Angkor Wat over a 150 year long period from the 1860s to the 2010s Volume 1 Angkor in France reconceptualises the Orientalist French colonial discovery of the temple in the nineteenth century and brings to light the manifold strategies at play in its physical representations as plaster cast substitutes in museums and as hybrid pavilions in universal and colonial exhibitions in Marseille and Paris from 1867 to 1937 Volume 2 Angkor in Cambodia covers for the first time in this depth the various on site restoration efforts inside the Archaeological Park of Angkor from 1907 until 1970 and the temple s gradual canonisation as a symbol of national identity during Cambodia s troublesome decolonisation 1953 89 from independence to Khmer Rouge terror and Vietnamese occupation and finally as a global icon of UNESCO World Heritage since 1992 until today Congratulations to our author Michael Falser who received the prestigious 2021 ICAS Book Prize in the Ground Breaking Subject Matter category
