Jennifer Yee,2017-07-05 In the course of the nineteenth century France built up a colonial empire second only to Britain s
The literary tradition in which it dealt with its colonial Other is frequently understood in terms of Edward Said s description
of Orientalism as both a Western projection and a will to govern over the Orient There is however a body of works that eludes
such a simple categorisation offering glimpses of colonial resistance of a critique of imperialist hegemony or of a blurring of
the boundaries between the Self and the Other Some of the ways in which the imperialist enterprise is subverted in the
metropolitan literature of this period are examined in this volume through detailed case studies of key works by
Chateaubriand Hugo Flaubert and Segalen *The Doctor-Patient Relationship and the Nineteenth-Century French Novel*
Sarah Jones,2025-03-29 *The Doctor Patient Relationship and the Nineteenth Century French Novel* analyses the
representation of the doctor patient relationship in the nineteenth century French novel notably in the words of Balzac Sand
Stendhal and Zola It argues that the doctor patient relationship is represented in these novels as a site of interpersonal
negotiation wherein the meaning of medical authority embodied experience and the spectre of illness and pain are mediated
and reimagined This book highlights how the doctor patient relationship is often idealized by the novel wherein the doctor is
characterised as a both dedicated to his patients and local community as well as being a God like master of life death and
medical knowledge The volume suggests that the doctor patient encounter is often depicted as a separate although
inherently related concept that undermines this idealisation of medical relationships The doctor patient encounter thereby
questions the hegemonic power of medical practitioners over their patients by pointing towards how novels depict patients as
resisting and even manipulating their doctors The book identifies and explores other important themes within the doctor
patient relationship such as the medical gaze regard m dical power relationships and the use of embodied metaphor In
particular the book highlights how the doctor patient relationship is often a confrontation between scientific knowledge and
the experience of gender and disability The book s conceptual framework is derived from the critical medical humanities and
the volume revitalises and reframes the doctor patient relationship by considering the intrinsic slippage between idealised
relationships and critical encounters The book uses close readings of its corpus to understand how medical practice is
debated and undermined concurrently with its idealisation It places literary works within a new historical context by reading
across novels within their medical and scientific context and situates them for the first time in the intellectual context of the
critical medical humanities The book points forward to how nineteenth century French novels can reform how the critical
medical humanities views the medical relationship and the potential impact on real world patients **Redefining Regional**

French David Hornsby, 2022-10-10 This study challenges the orthodox view that emergent regional varieties of French represent no more than an ephemeral dialect residue of little theoretical interest. It follows the life cycle of an obsolescent urban Picard variety spoken in a mining town in the Pas de Calais and attempts to unravel the complex reasons behind the survival of some local variants at the expense of others. Applying a sociolinguistic model developed by Peter Trudgill, it shows how the processes of levelling and simplification have driven change in a dialect contact situation, giving rise to a new stable variety or koine. This is compared with other new urban varieties in Sweden and the UK where different economic, social, and demographic conditions have produced very different linguistic outcomes. The emergence of Regional French in the north, it is argued, may herald the start of a new diversification of French in Europe. This book will therefore interest both students of French and of language variation more generally.

Educational Philosophy in the French Enlightenment Natasha Gill, 2016-04-29 Though Emile is still considered the central pedagogical text of the French Enlightenment, a myriad of lesser-known thinkers paved the way for Rousseau's masterpiece. Natasha Gill traces the arc of these thinkers as they sought to reveal the correlation between early childhood experiences and the success or failure of social and political relations, and set the terms for the modern debate about the influence of nature and nurture in individual growth and collective life. Gill offers a comprehensive analysis of the rich cross-fertilization between educational and philosophical thought in the French Enlightenment. She begins by showing how, in *Some Thoughts Concerning Education*, John Locke set the stage for the French debate by transposing key themes from his philosophy into an educational context. Her treatment of the abbé Claude Fleury, the rector of the University of Paris, Charles Rollin, and Swiss educator Jean Pierre de Crousaz illustrates the extent to which early Enlightenment theorists reevaluated childhood and learning methods on the basis of sensationist psychology. Etienne Gabriel Morelly, usually studied as a marginal thinker in the history of utopian thought, is here revealed as the most important precursor to Rousseau and the first theorist to claim education as the vehicle through which individual liberation, social harmony, and political unity could be achieved. Gill concludes with an analysis of the educational philosophical dispute between Helvétius and Rousseau and traces the influence of pedagogical theory on the political debate surrounding the expulsion of the Jesuits in 1762. *Governor v. State Treasurer*, 389 MICH 1 (1972), 1972 53809

Narrative Responses to the Trauma of the French Revolution Katherine Astbury,2017-07-05 During the French Revolution traditional literary forms such as the sentimental novel and the moral tale dominate literary production At first glance it might seem that these texts are unaffected by the upheavals in France in fact they reveal not only a surprising engagement with politics but also an internalised emotional response to the turbulence of the period In this innovative and wide ranging study Katherine Astbury uses trauma theory as a way of exploring the apparent contradiction between the proliferation of non political literary texts and the events of the Revolution Through the narratives of established bestselling literary figures of the Ancien Regime primarily Marmontel Madame de Genlis and Florian and the early works of first

generation Romantics Madame de Stael and Chateaubriand she traces how the Revolution shapes their writing providing an intriguing new angle on cultural production of the 1790s Katherine Astbury is Senior Lecturer in French Studies at the University of Warwick

Jacques Derrida and the Institution of French Philosophy Vivienne Orchard, 2017-12-02 Jacques Derrida 1930-2004 was unquestionably one of the most celebrated and reviled French thinkers of the last thirty years Outside France his influence in comparative literature circles through deconstruction and other ideas has been so profound that his personal role as a leader of contemporary French philosophy has been almost overlooked Perhaps because there is no equivalent in English speaking countries to the timetabling of philosophy in the French education system writers on Derrida outside France have not fully appreciated the importance of this political and cultural struggle In this ground breaking book Orchard examines a hard fought debate of great importance not only to Derrida himself but also to France's idea of what studying philosophy might mean after the student uprisings of 1968

Twentieth-Century French Philosophy Alan D. R. ,1973 Counter-Modernities in Nineteenth-Century French Literature Robert St. Clair, 2025-07-31 Counter Modernities in Nineteenth Century French Literature explores a counterview of modernity in late nineteenth century French literature 1848-1891 The principal claim of this book is that what we find in the works of Baudelaire Rimbaud and Flaubert is a form of writing against the grain of history not the elegant lyricism of history's victors but a use of literature against the erasures of past injustices and for those lost futurities upon which the order of the present is founded What we find in other words is a critical literary archive of the powerless that persists in contesting the legitimacy of the powerful which persists in haunting the nineteenth century every bit as much as it does our own aching out of joint present The story Counter Modernities seeks to tell is in other words about the meaning of loss and the significance of losers as possible figures of opposition to the dominant order in nineteenth century French literature that is also a story about modernity as an aesthetic politics What brings together the authors in this study however cannot be reduced to the biographical that is to the uneven successes financial hardships and in one case outright failure i.e. Rimbaud shared by the authors in the literary market of their lifetime At stake in this study is not an account of the ironies of literary history wherein to gloss Walter Benjamin's take on Baudelaire a prior and benighted era sees little of interest in an artist in which a later epoch recognizes the genius of modernity Rather Constellations of Loss in Baudelaire Rimbaud and Flaubert demonstrates how each author in this critical corpus insists on tarrying with history as an experience of irrevocable loss each lingers with history as a force of negations and thereby insists on the significance of historical setbacks and political defeats that seem to affect if not more dramatically wipe out the collective hopes of entire generations Each one

gives us losers as subjects who matter in the nineteenth century Baudelaire Flaubert Rimbaud narratives of historical defeat that are as negative as they are meaningful Baudelaire Flaubert or the contours of events whose meanings and narratives are themselves lost Baudelaire Rimbaud whose meanings remain in other words perhaps less absent than open ended a possible grammar for what may come next when hope seems lost and dreams dashed Indeed as this books shows it is precisely in its representation of history as a dilemma or undoing of meaningfulness a problem of legibility and not knowingness that we can most fully recognize the formal calling cards of literary modernity ironic undecidabilities and difficulties infinite interpretability and the death of the author the dissolution of previously stable cultural and historical narratives or forms of subjectivity formal breaks with semantically oriented modes of representation and so on **Annual Catalogue** Stephens College,1929 The Semiotic Sphere Thomas A. Sebeok, Jean Umiker-Sebeok,2012-12-06 Although semiotics has in one guise or another flourished uninterruptedly since pre Socratic times in the West and important semiotic themes have emerged and developed independently in both the Brahmanic and Buddhistic traditions semiotics as an organized undertaking began to flourish only in the 1960s Workshops materialized with a perhaps surprising spontaneity over much of Europe Eastern and Western and in North America Thereafter others quickly surfaced almost everywhere over the literate globe Different places strategically allied themselves with different legacies but all had a common thrust to aim at a general theory of signs by way of a description of different sign systems their comparative analysis and their classification More or less permanent confederations were forged with the most diverse academic disciplines and amazingly varied frameworks were devised suited to the needs of the times and the sites to carry the work of consolidation forward Bit by bit mutually supportive international networks were put together Today it can truly be asserted that semiotics has become a global enterprise This of course is far from saying that the map is uniform or even that world wide homogeneity is in the least desirable While our conjoint ultimate goal remains steadily in focus the multiplicity of avenues available for its realization is inherent in the adventure of the search itself
