French Historical Studies Volume 17 No4:

1939 Michael Jabara Carley, 1999 At a crucial point in the twentieth century as Nazi Germany prepared for war negotiations between Britain France and the Soviet Union became the last chance to halt Hitler's aggression. Incredibly the French and British governments dallied, talks failed and in August 1939 the Soviet Union signed a nonaggression pact with Germany. Michael Carley's gripping account of these negotiations is not a pretty story. It is about the failures of appeasement and collective security in Europe. It is about moral depravity and blindness about villains and cowards and about heroes who stood against the intellectual and popular tides of their time. Some died for their beliefs, others labored in obscurity and have been nearly forgotten. In 1939 they sought to make the Grand Alliance that never was between France, Britain and the Soviet Union. This story of their efforts is background to the wartime alliance created in 1941 without France but with the United States in order to defeat a demonic enemy. 1939 is based upon Mr Carley's longtime research on the period including work in French, British and newly opened Soviet archives. He challenges prevailing interpretations of the origins of World War II by situating 1939 at the end of the early cold war between the Soviet Union, France and Britain and by showing how anti-communism was the major cause of the failure to form an alliance against Hitler. 1939 was published on September 1, the sixtieth anniversary of the Nazi invasion of Poland and the start of the war.

Philanthropy and Race in the Haitian Revolution Erica R. Johnson, 2018-06-19 This book examines the ways in which a minority of primarily white male French philanthropists used their social standing and talents to improve the lives of peoples of African descent in Saint Domingue during the crucial period of the Haitian Revolution. They went to great lengths to advocate for the application of universal human rights through political activities, academic societies, religious charity, influence on public opinion and fraternity in the armed services. The motives for their benevolence ran the gamut from genuine altruism to the selfish pursuit of prestige which could on occasion lead to political or economic benefit from aiding blacks and people of color. This book offers a view that takes into account the efforts of all peoples who worked to end slavery and establish racial equality in Saint Domingue and challenges simplistic notions of the Haitian Revolution which lean too heavily on an assumed strict racial divide between black and white.

Francois Mitterrand Alistair Cole, 2018-10-24 Francois Mitterrand is one of France's most famous twentieth century politicians yet interpretations of his values and leadership vary widely. Alistair Cole's in-depth study starts with a chronological overview of Mitterrand's career and proceeds with a policy-based assessment of Mitterrand's presidency. By evaluating Mitterrand's policies in relation to various key roles such as the party leader, the President, the dispenser of patronage, the European statesman and the World Leader, this book places his leadership in comparative perspective and offers a new understanding of him as an individual political leader. This fully updated paperback edition will be invaluable for students of contemporary European politics as well as those interested in the career of one of post-war Europe's leading statesmen.

The debate on the French Revolution Peter J. Davies, 2024-06-04 This book deals with the various types of revolutionary history and the numerous schools of historical thought concerned with the French Revolution By the time of the Bicentenary celebrations in 1989 the historiographical field had been opened up so much that it was impossible to speak with certainty about any kind of new orthodoxy at all The fact that the decade and a half following the Bicentenary offered up its own hotchpotch of theorising merely confirmed this The survey of writings presents a cross section of historians of the Revolution

from the early nineteenth century right up to the present day From liberals to conservatives and from Marxists to revisionists it focuses on those individuals who are generally perceived to be the major or pre eminent figures within revolutionary historiography A history of the histories this book will be an ideal starting point for those students seeking to better understand the French Revolution and its history **Constructing Paris in the Age of Revolution** A. Potofsky,2009-10-29 Examining the social and political history of workers and entrepreneurs engaged in constructing the French capital from 1763 1815 this book argues that Paris construction was a core sector in which archaic and innovative practices were symbiotically used by guilds the state and enterprises to launch the commercial revolution in France *Civilizing Habits* Sarah A. Curtis,2010-08-31 *Civilizing Habits* explores the life stories of three French women missionaries Philippine Duchesne Emilie de Vialar and Anne Marie Javouhey who crossed boundaries both real and imagined to evangelize far from France s shores In so doing they helped France reestablish a global empire after the dislocation of the Revolution and the fall of Napoleon They also pioneered a new missionary era in which the educational charity and health care services provided by women became valuable tools for spreading Catholic influence across the globe Philippine Duchesne traveled to former French territory in Missouri in 1818 to proselytize among Native Americans Thwarted by the American policy of removing tribes even further west she turned her attention to girls education on the frontier Emilie de Vialar followed French troops to Algeria after its conquest and opened missions throughout the Mediterranean basin in the mid nineteenth century Prevented from direct evangelization she developed strategies and subterfuges for working among Muslim populations Anne Marie Javouhey evangelized among Africans in the French slave colonies including a utopian settlement in the wilds of French Guiana She became a rare Catholic proponent of the abolition of slavery and a woman designated a great man by the French king Paradoxically through embracing religious institutions designed to shield their femininity these women gained increased authority to travel outside France challenge church power and evangelize among non Christians all roles more commonly ascribed to male missionaries Their stories teach us about the life paths open to religious women in the nineteenth century and how both church and state benefitted from their initiative to expand the boundaries of faith and nation [For Liberty and Glory: Washington, Lafayette, and Their Revolutions](#) James R. Gaines,2008-09-17 Gaines has a deft understanding of the Washington Lafayette relationship and a knack for wielding substantial research with aplomb San Francisco Chronicle This book tells the story of the French and American Revolutions in a single thrilling narrative that shows just how deeply intertwined they actually were Their leaders were often seen as father and son but the relationship of George Washington and the Marquis de Lafayette while close was every bit as complex as the long fraught history of the French American alliance of which they were also the founding fathers **The Political Economy of Development and Underdevelopment in Africa** Toyin Falola,Jessica Achberger,2013-06-07 While Africa is too often regarded as lying on the periphery of the global political arena this is not the case African nations have played an important historical role in world

affairs It is with this understanding that the authors in this volume set out upon researching and writing their chapters making an important collective contribution to our understanding of modern Africa Taken as a whole the chapters represent the range of research in African development and fully tie this development to the global political economy African nations play significant roles in world politics both as nations influenced by the ebbs and flows of the global economy and by the international political system but also as actors directly influencing politics and economics It is only through an understanding of both the history and present place of Africa in global affairs that we can begin to assess the way forward for future development

Inventing Human Rights: A History Lynn Hunt, 2008-04-17 A tour de force Gordon S Wood New York Times Book Review How were human rights invented and how does their tumultuous history influence their perception and our ability to protect them today From Professor Lynn Hunt comes this extraordinary cultural and intellectual history which traces the roots of human rights to the rejection of torture as a means for finding the truth She demonstrates how ideas of human relationships portrayed in novels and art helped spread these new ideals and how human rights continue to be contested today

Elizabeth: Renaissance Prince Lisa Hilton, 2015-11-10 This surprising portrait of the Tudor queen offers an ambitious re examination of the intersection of gender and monarchy The New York Times Book Review Queen Elizabeth I was all too happy to play on courtly conventions of gender when it suited her weak and feeble woman s body to do so for political gain But in Elizabeth historian Lisa Hilton offers ample evidence why those famous words should not be taken at face value With new research out of France Italy Russia and Turkey Hilton s fresh interpretation is of a queen who saw herself primarily as a Renaissance prince an expert in Machiavellian statecraft Elizabeth depicts a sovereign less constrained by her femininity than most accounts claim challenging readers to reassess Elizabeth s reign and the colorful drama and intrigue to which it is always linked It s a fascinating journey that shows how a marginalized newly crowned monarch whose European contemporaries considered her to be the illegitimate ruler of a pariah nation ultimately adapted to become England s first recognizably modern head of state

World War I Michael Neiberg, 2017-11-22 Once dominant images of the First World War as a futile contest fought by innocent soldiers and wasteful generals have given way to more sophisticated scholarly analyses This volume presents some of the most innovative work of this new generation of research on the War to End All Wars Taking a global and comparative perspective these essays place the War in a wide global and thematic context greatly enhancing our understanding of one of the most important and complex events of the 20th Century

interventions against right wing dictatorships Through an examination of the committee s key figures strategies connections and campaigns this book offers a significant contribution to the histories of both women s activism and anti fascist activism by positioning the CMF as an important contributor to international political advocacy in the interwar period Further the group s association with international communism and the burgeoning Popular Front movement placed the CMF at the forefront of global debates about the threat posed by fascism and imperialism This book explores how the professional women activists and the working class women who populated the organisation developed a committee which advocated for women on a global scale It charts how the CMF utilised a variety of physical spaces and literary formats to co ordinate anti fascist actions through its expansive and ambitious campaigns The author also demonstrates the close connections between the Communist International and the CMF as a communist front organisation to provide context for the group s decision making and prioritisation of certain campaigns over others This book will be of interest to scholars of anti fascism feminism women s history communism activism internationalism anti imperialism and French history

The Political Economy of International Commodity Cartels Elina Kuorelahti,2020-12-29 The Political Economy of International Commodity Cartels examines how international commodity cartels in the 1930s were impacted not only by commercial rivalry but also by international trade political and diplomatic concerns This work presents the rise and decline of the European Timber Exporters Convention ETEC and analyses how firms navigated through the cartel game under increasing international competition pressures from the national governments and the interventionist endeavours of the League of Nations Cartels are often associated with in the standard economic interpretation business collusion However in using vast archive sources and historical methodology the chapters in this book shed light onto how international relations shaped cartels The rise of British protectionism the emergence of the Soviet Union as an industrial power and the economic rapprochement of the League of Nations in the early 1930s created a wave of political and diplomatic challenges in the timber trading countries and affected cartelisation Timber firms in the biggest producer countries Finland and Sweden were uninterested in international cartel collaboration but under pressure joined the ETEC nevertheless This book makes a strong contribution to the fields of business history and cartel studies It is an essential read for economic historians interested in how political pressure shaped international cartels and how cartels became avenues of diplomacy
