The Virtues of Violence Kevin Duong, 2020 The Virtues of Violence studies a pervasive but misunderstood image of violence in modern French thought popular violence as social regeneration It argues that this vision of violence was not a niche phenomenon but central to the momentous developments of modern French politics It appealed to thinkers across the spectrum because it answered fundamental dilemmas at the heart of democratization Understanding its pervasive appeal Duong argues reveals how

democracy was never simply a struggle for justice or a new legal regime but also liberating visions of the social bond **The Lifeline: Salomon Grumbach and the Quest for Safety** Meredith L. Scott, 2022-04-11 During the first months of World War II nearly one thousand refugees and asylum seekers held in French internment camps sought the help of one man Salomon Grumbach Meredith Scott's *The Lifeline* is a ground breaking study of Grumbach an Alsatian Jew journalist and socialist politician who became one of Europe's most important interwar refugee advocates Focusing on his remarkable life in Germany and France it uncovers the identities that drove his international crusades for democracy and human rights *The Lifeline* offers lessons that transcend national boundaries and historical moments challenging us to rethink our ideas about resistance mobilization and activism **Women and Work in Eighteenth-Century France** Daryl M. Hafer, Nina Kushner, 2015-01-12 In the eighteenth century French women were active in a wide range of employments from printmaking to running whole sale businesses although social and legal structures frequently limited their capacity to work independently The contributors to *Women and Work in Eighteenth Century France* reveal how women at all levels of society negotiated these structures with determination and ingenuity in order to provide for themselves and their families Recent historiography on women and work in eighteenth century France has focused on the model of the family economy in which women's work existed as part of the communal effort to keep the family afloat usually in support of the patriarch's occupation The ten essays in this volume offer case studies that complicate the conventional model wives of ship captains managed family businesses in their husbands extended absences high end prostitutes managed their own households female weavers tailors and merchants increasingly appeared on eighteenth century tax rolls and guild membership lists and female members of the nobility possessed and wielded the same legal power as their male counterparts Examining female workers within and outside of the context of family *Women and Work in Eighteenth Century France* challenges current scholarly assumptions about gender and labor This stimulating and important collection of essays broadens our understanding of the diversity vitality and crucial importance of women's work in the eighteenth century economy Overseas Economic Relations and Statehood in Europe, 1860s-1970s Gerold Krozewski, 2023-04-06 Drawing on official archival and published sources this book explores how the formative history of the European nation state was embedded within economic globalization and associated with conceptions of the world overseas With a particular focus on France Germany Italy and Britain this research investigates how overseas relationships shaped state governance The argument departs from conventional histories by linking together the analysis of economic relationships and political cultures examining the ways in which state agency formed in different areas such as national economy building the organization of overseas raw material and food supplies labour migration and national identity Spanning over a century the book discusses the changing role of overseas colonies in European national development Once a means to complete economic liberalization colonies were then envisaged as tools of crisis management before in the mid twentieth century complementarities in imperial colonial economies shifted away from

empire This volume covers neglected aspects of the transnational history of European nation states and is an ideal resource for students and researchers interested in the ties between Europe Africa and Asia as well as connections between political economic and social relations and their conceptualizations [Loos 1915](#) Nick Lloyd,2008-10-01 In little over three weeks of intensive fighting which not only witnessed the first British use of poison gas but also the debut of New Army divisions filled with citizen volunteers British forces at Loos managed to drive up to two miles into the German positions However they were unable to capitalise on their initial gains After suffering nearly 60 000 casualties three times the number suffered by their opponents and being driven from the German lines in disorder bitter recrimination followed Nick Lloyd presents a reassessment of the Battle of Loos arguing that it was vital to the development of new strategies and tactics He places it within its political and strategic context as well as discusses command and control and the tactical realities of war on the Western Front during 1915

**The Invention of Terrorism in France, 1904-1939** Chris Millington,2023-09-26 The Invention of Terrorism in France 1904 1939 investigates the political and social imaginaries of terrorism in the early twentieth century Chris Millington traces the development of how the French conceived of terrorism from the late nineteenth century notion that terrorism was the deed of the mad anarchist bomber to the fraught political clashes of the 1930s when terrorism came to be understood as a political act perpetrated against French interests by organized international movements Through a close analysis of a series of terrorist incidents and representations thereof in public discourse and the press the book argues that contemporary ideas of terrorism in France as unFrench that is contrary to the ideas and values however defined that make up Frenchness emerged in the interwar years and subsequently took root long before the terrorist campaigns of Algerian nationalists during the 1950s and 1960s Millington conceptualizes terrorism not only as the act itself but also as a political and cultural construction of violence composed from a variety of discourses and deployed in particular circumstances by commentators witnesses and perpetrators In doing so he argues that the political and cultural battles inherent to perceptions of terrorism lay bare numerous concerns not least anxieties over immigration antiparliamentarianism representations of gender and the future of European peace [Romantic Catholics](#) Carol E. Harrison,2014-02-05 In this well written and imaginatively structured book Carol E Harrison brings to life a cohort of nineteenth century French men and women who argued that a reformed Catholicism could reconcile the divisions in French culture and society that were the legacy of revolution and empire They include most prominently Charles de Montalembert Pauline Craven Am lie and Fr d ric Ozanam L opoldine Hugo Maurice de Gu rin and Victorine Monniot The men and women whose stories appear in Romantic Catholics were bound together by filial love friendship and in some cases marriage Harrison draws on their diaries letters and published works to construct a portrait of a generation linked by a determination to live their faith in a modern world Rejecting both the atomizing force of revolutionary liberalism and the increasing intransigence of the church hierarchy the romantic Catholics advocated a middle way in which a revitalized Catholic faith

and liberty formed the basis for modern society Harrison traces the history of nineteenth century France and in parallel the life course of these individuals as they grow up learn independence and take on the responsibilities and disappointments of adulthood Although the shared goals of the romantic Catholics were never realized in French politics and culture Harrison's work offers a significant corrective to the traditional understanding of the opposition between religion and the secular republican tradition in France

*Terrorist Histories* Caoimhe Nic Dhaibheid, 2016-11-03 This book addresses provides a series of in depth portraits of men and women who have been labelled terrorists from the 19th 20th and 21st centuries Bridging historical methodologies and theoretical approaches to terrorism studies it seeks to contribute to the developing historicising of terrorism studies This is achieved principally through a prosopographical approach In the preponderance of detailed statistical and quantitative data on the practice of terrorism and political violence the individuals who participate in terrorist acts are often obscured While ideologies and organisations have attracted much scholarly interest less is known of the personal trajectories into political violence particularly from a historical perspective The focus on a relatively narrow cast of high profile terrorist villains to a large part driven by popular and media attention results in a somewhat skewed picture of equal value arguably is a more sustained reflection on the lives of lesser known individuals The book sits at the juncture between terrorism studies historical biography and ethnography It comprises case studies of ten individuals who have engaged in political violence in the nineteenth twentieth and twenty first centuries in a number of locations and with a variety of ideological motivations from Russian inflected anarchism to Islamist extremism Through detailed empirical research crucial themes in the study of terrorism and political violence are explored the diverse individual radicalisation pathways the question of disengagement and re engagement various counter terrorist and counter insurgency strategies adopted by governments and security forces and the changing nature and perception of

terrorism over time Although not explicitly comparative a number of themes resonate between the case studies which will be drawn together in the conclusion to this book These include the role of migration in radicalisation the influence of radical family heritages the experience of imprisonment and the narratives which individuals construct to tell their own terrorist life stories It also provides an historically grounded answer to one of the most contentious and heated debates in recent literature on terrorism studies what leads a person to turn to political violence In examining the life narratives of a diverse range of men and women who at some point embraced violence this book seeks to contribute to a growing understanding of the entire arc of a terrorist lifespan from radicalisation to mobilisation to disengagement and beyond This book will be of much interest to students of political violence terrorism studies security studies and politics in general

court Mollenauer adroitly uses the Affair of the Poisons to uncover the hidden forms of power that men and women of all social classes invoked to achieve their goals While the exercise of state power during the ancien régime was quintessentially visible ritually displayed through public ceremonies the affair exposes the simultaneous presence of other imagined and real sources of power available to the Sun King's subjects magic poison and the manipulation of sexual passions Highly entertaining yet deeply researched *Strange Revelations* will appeal to anyone interested in the history of court society gender magic or crime in early modern Europe

**The French Right Between the Wars** Samuel Kalman, Sean

Kennedy, 2014-01-01 During the interwar years France experienced severe political polarization At the time many observers particularly on the left feared that the French right had embraced fascism generating a fierce debate that has engaged scholars for decades but has also obscured critical changes in French society and culture during the 1920s and 1930s This collection of essays shifts the focus away from long standing controversies in order to examine various elements of the French right from writers to politicians social workers to street fighters in their broader social cultural and political contexts It offers a wide ranging reassessment of the structures mentalities and significance of various conservative and extremist organizations deepening our understanding of French and European history in a troubled yet fascinating era

**The Politics of Religion in Early Modern France** Joseph Bergin, 2014-01-01 Rich in detail and broad in scope this majestic book is the first to reveal the interaction of politics and religion in France during the crucial years of the long seventeenth century Joseph Bergin begins with the Wars of Religion which proved to be longer and more violent in France than elsewhere in Europe and left a legacy of unresolved tensions between church and state with serious repercussions for each He then draws together a series of unresolved problems both practical and ideological that challenged French leaders thereafter arriving at an original and comprehensive view of the close interrelations between the political and spiritual spheres of the time The author considers the powerful religious dimension of French royal power even in the seventeenth century the shift from reluctant toleration of a Protestant minority to increasing aversion conflicts over the independence of the Catholic church and the power of the pope over secular rulers and a wealth of other interconnected topics

**Magdalena Coline**

Daniel Lord Smail, 2025-11-18 The courtroom drama that denied the legitimacy of slavery in late medieval Europe In 1387 a young Muslim woman from North Africa was captured on a galley in the Bay of Naples and brought to Marseille as a slave For more than ten years she was held in bondage to a shipwright and privateer named Peire Huguet Daniel Lord Smail tells the extraordinary story of Magdalena Coline a woman who dared to file suit against the man who called himself her master and whose passage from servitude to freedom raises tantalizing questions about how the people of her time made sense of slavery as a social category In a masterful narrative that takes readers from the waters of the Mediterranean to the court of the Angevin King Louis II claimant to the throne of Naples Smail describes how Peire pressed by Magdalena's supporters reluctantly granted her a tacit manumission through her marriage to her first husband whose death two years later placed

her in a state of considerable ambiguity In 1406 following her second marriage to an immigrant shoemaker a dispute with Peire exploded in the law courts of Marseille where it played out over two tumultuous years through numerous suits and appeals In a dramatic turn of events Magdalena traveled to the royal court in nearby Aix en Provence where she successfully petitioned the king and returned home victorious Drawing on court records and an array of other archival sources from the period Magdalena Coline brings these remarkable legal proceedings vividly to life shedding new light on the ways slavery was understood and practiced in the late medieval Mediterranean world
