The History of French Colonial Policy, 1870-1925 Stephen H. Roberts, 2019-04-23 Published in 1963 The author gives a clear and accurate account of the immense development of France as a colonial power which in an incredibly short space of time was to control one third of Africa He drew his material not only from the scanty formal literature then available but also by carefully evaluating and selecting from large mass of controversial material to be found in deliberate propaganda parliamentary debates and the often suspect official documentation

China and Africa David H. Shinn, Joshua Eisenman, 2012-07-10 The People's Republic of China once limited its involvement in African affairs to building an occasional railroad or port supporting African liberation movements and loudly proclaiming socialist solidarity with the downtrodden of the continent Now Chinese diplomats and Chinese companies both state owned and private along with an influx of Chinese workers have spread throughout Africa This shift is one of the most important geopolitical phenomena of our time China and Africa A Century of Engagement presents a comprehensive view of the relationship between this powerful Asian nation and the countries of Africa This book the first of its kind to be published since the 1970s examines all facets of China's relationship with each of the fifty four African nations It reviews the history of China's relations with the continent looking back past the establishment of the People's Republic of China in 1949 It looks at a broad range of areas that define this relationship politics trade investment foreign aid military security and culture providing a significant historical backdrop for each

David H Shinn and Joshua Eisenman's study combines careful observation meticulous data analysis and detailed understanding gained through diplomatic experience and extensive travel in China and Africa China and Africa demonstrates that while China's connection to Africa is different from that of Western nations it is no less complex Africans and Chinese are still developing their perceptions of each other and these changing views have both positive and negative dimensions
